The referenced letter provided an "Official Use Only" copy of TDR-WHS-RL-000001, Revision 00, *Identification of Aircraft Hazards*. This letter is to inform you of a change in the status of this report. A second analysis of the report was conducted to determine whether or not the information should continue to be labeled "Official Use Only" and exempt from disclosure under the criteria of Exemption 2 of the Freedom of Information Act (FOIA). As a result of this analysis, we have determined that this document does not contain sensitive information that will cause considerable harm or circumvention of matters of national security. Therefore, there is no statutory requirement under the FOIA to prevent the release of this document to the public.

A copy of *Identification of Aircraft Hazards*, with the appropriate markings indicating that it is now "Unclassified - Approved for Public Release," is enclosed. Any requests for this document outside of your organization should be referred to the U.S. Department of Energy, Office of Repository Development's Freedom of Information Act Officer, at the above address. To avoid any confusion, we request that you shred the "Official Use Only" version of this report.

If you have questions concerning the destruction of this report, please contact Dianne C. Quenell, Authorized Derivative Classifier, at (702) 794-5004. Any other questions concerning this letter should be referred to Timothy C. Gunter at (702) 794-1343.
