

UNITED STATES
NUCLEAR REGULATORY COMMISSION

WASHINGTON, D.C. 20555-0001

July 30, 2003

Mr. J. William Leonard
Director, Information Security Oversight Office
700 Pennsylvania Avenue, NW
Washington, DC 20408

Dear Mr. Leonard:

On behalf of the U.S. Nuclear Regulatory Commission (NRC), I am responding to your letter of June 27, 2003, in which you asked the NRC to furnish copies of its implementing regulations, internal rules, or guidelines pertaining to the National Industrial Security Program (NISP) for use in the development of an implementing directive for the NISP.

As a signatory to the National Industrial Security Program Operating Manual (NISPOM), the NRC was quick to incorporate the NISPOM requirements into its internal directives (NRC Management Directive Volume 12, "Security") and external regulations (Title 10, Parts 25 and 95, of the Code of Federal Regulations) that pertain to NRC licensees and certificate holders.

With this letter, we are providing you with an electronic copy of our internal regulations (CD-ROM) and a hard copy of the external regulations. You should also note that we are in the process of updating our internal regulations and will send you a revised copy upon final approval.

We look forward to working with your organization in the near future to finalize an implementing directive for the NISP. If you have any questions regarding the enclosed items, please contact J. Keith Everly of my staff at (301) 415-7048.

Sincerely,

/RA Original Signed by A. L. Silvius for:/
