Chris,

Attached is the BTF stuff. I believe this zip files contains all of the files you will need (probably ones you don't need too). Sorry about being in such a hurry Friday. I was trying to wrap up some stuff that I had put off for weeks and finally had to pay the piper. I was here till midnight that night and seven hours on Saturday. Thankfully, Gayla was out of town with here mother leaving me a little more time than usual. As you know, I will be at TN for the week but feel free to call Brian or I if you have questions.

Brian's number is (509) 372-6816

Talk with you later and take care,

Harold E. Adkins, Jr.

Harold,

I have gone through all my files, and do not see the BTF input file.

I have paper copies of the files. They are:

mpc24.inp
mpc24.des
boral.mac
fuel.mac

The .inp file has:

Holtec HISTAR 100 MPC-24
ANSYS 5.5
BJK - started 3/18/02 - last modified ###/02

on the top.

A/5
