Comments from Commissioner Merrifield on SECY-03-0019:

I approve the staff recommendations in SECY-03-0019 as modified below concerning a proposed license amendment for export of nuclear grade graphite to various countries. I approve the four specific recommendations by the staff. However, the staff inadvertently did not include a specific recommendation by the Executive Branch which should be included in the license amendment. Specifically, the license should be conditioned to limit reexports by Singapore to manufactured non-nuclear articles or general license quantities of bulk graphite.
