Fitness for Duty Program Six Month Performance Report January – June 2003

PROGRAM SUMMARY:

The River Bend Station annual random testing rate is 50 percent. During this reporting period, approximately 18.7 percent of the population has been randomly tested. The rate of positive tests from random testing is 0 percent. The total random percentage for the year is 18.7 percent.

POSITIVE RESULTS:

During pre-access screening, four contract employees tested positive for marijuana, one tested positive for cocaine, and six tested positive for alcohol.

MANAGEMENT ACTIONS:

Access was denied for the five contract employees who tested positive for marijuana and cocaine as well as the six contract employees who tested positive for alcohol. Management was notified and their individual files were annotated to reflect the positive results and actions taken.

One sample was considered suspect due to low temperature. A second sample was collected under direct observation. The second sample was returned positive for marijuana. Two samples were collected in conjunction with updates to the background checks for Fitness for Duty personnel. These samples were returned negative.

EVENTS REPORTED TO THE NRC:

During this reporting period, there were no violations of the fitness for duty program that were reportable.

PROGRAM EVALUATION:

No programmatic problems were identified during this reporting period.
