Dr. Niles J. Diaz, Chairman
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

Dear Chairman Diaz:

We have been contacted by residents of Milford Township in Bucks County, Pennsylvania regarding the licensing application of CFC Logistics/Gray*Star, Inc. relating to their proposed Cobalt-60 nuclear food irradiation plant.

Residents have many questions and concerns about the proposed nuclear irradiation facility being located in their community. It is our understanding that your offices have received and are reviewing their request for a hearing on this matter. We believe it is important to allow the affected community's citizens to express themselves and be given the fullest possible disclosure of the facts about such a plant and measures being taken to assure their safety. We urge you to provide this community with the opportunity to present its concerns prior to issuing a license in this matter.

It is our hope that the NRC make every effort to consider these concerns in reviewing this licensing application and the related request for a hearing. Thank you for your prompt attention to this important matter.

Sincerely,

Arlen Specter
U.S. Senate

Rick Santorum
