NRC Docket Nos. 50-373 and 50-374

Subject: Notification of Pending Changes to the Emergency Response Data System

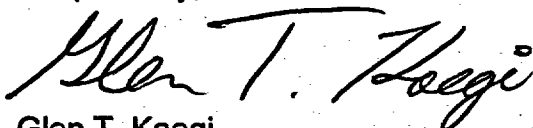

In accordance with Subsection 3.b of 10 CFR 50 Appendix E Section VI, "Emergency Response Data System," Exelon Generation Company, LLC (EGC) is providing notification of pending changes to the Emergency Response Data System (ERDS) that could potentially affect ERDS transmission format or computer protocol. A revised ERDS interface program is being developed that will meet the requirements of NUREG 1394, "Emergency Response Data System (ERDS) Implementation," Section II.B.1, "Data Transmission."

None of the existing data points transmitted by ERDS will be modified. The interface program is being initially tested in a computer lab with subsequent live transmission testing to follow. Testing with Sciencetech in Idaho is scheduled between July 28 and August 8, 2003.

Implementation at LaSalle County Station for both Units 1 and 2 is currently scheduled for September 3, 2003.

Should you have any questions concerning this letter, please contact Mr. Glen Kaegi at (815) 415-2800.

Respectfully,

Glen T. Kaegi
