Subject: Proprietary Determination for NRC Meeting

Dear Mr. Moroney:

The slide presentation, for the planned meeting between the NRC, FP&L and Westinghouse, is still being finalized. The meeting is currently planned for August 20-21 in the Westinghouse Rockville office. The discussions that are expected to ensue from the presentation are anticipated to be proprietary. Discussions on methodology, uncertainty treatment, model nodding and assumptions as they relate to a plant specific application are examples of proprietary information that will be shared with the NRC. The information that may ensue during the presentation will be that type of proprietary information that was included in previously approved topical reports. Hence the listing that was provided previously was done so to provide an understanding of what type of information may be discussed. See list of topical reports to be discussed.

WCAP-9272-P-A
WCAP-11397-P-A
WCAP-10965-P-A
WCAP-11596-P-A

WCAP-10216-P-A, Rev. 1-A
CENPD-404-P-A
WCAP-14565-P-A

These topical reports have been previously acknowledged by the NRC as being proprietary to Westinghouse Electric and the approved versions with the NRC's SER enclosed were transmitted to the NRC via appropriate affidavits. The proprietary nature of these topical reports as described in the associated affidavits, previously submitted, remain applicable.

Correspondence with respect to above information should be addressed to H. A. Sepp, Manager of Regulatory Compliance and Plant Licensing, Westinghouse Electric Company, P. O. Box 355, Pittsburgh, Pennsylvania 15230-0355.

Very truly yours,

A handwritten signature in black ink, appearing to read 'H. A. Sepp'.

Henry A. Sepp, Manager
Regulatory Compliance and Plant Licensing
