NRC staff,

Please DO NOT rubber stamp renewals at the nuclear plants which are due for close down phasing. Do your job to protect the public from the increased risk associated with extending these plants operating life. This is a matter of utmost importance, which effects ALL of us. Energy at any cost is no deal and the NRC's mission is to protect the public, not the industries or their bottom line. The cost in \$ and health risk are unacceptable. Please be vigilant on this issue.

Sincerely  
brian t. pinkerton
