DiPAOLO NAMED NRC SENIOR RESIDENT INSPECTOR AT BRUNSWICK NUCLEAR PLANT

U.S. Nuclear Regulatory Commission officials in the Region II office in Atlanta have announced the assignment of Eugene (Gene) M. DiPaolo as the new Senior Resident Inspector at the Brunswick Nuclear Plant in Southport, North Carolina.

DiPaolo joined the NRC in 1997 and has worked as a Project Engineer in the Region II office and as the Resident Inspector at the Browns Ferry Nuclear Plant near Athens, Alabama. His most recent assignment was as the Resident Inspector at the McGuire Nuclear Station near Huntersville, North Carolina.

DiPaolo is a 1988 graduate of the U.S. Merchant Marine Academy in Kings Point, New York, with bachelor's degrees in marine engineering and marine transportation. Prior to joining the NRC, he worked for Knolls Atomic Power Laboratory in Schenectady, New York, as a nuclear operations engineer and as a mechanical systems engineer.

Each U.S. commercial nuclear power plant has assigned NRC resident inspectors who serve as the agency's eyes and ears at the facility, conducting regular inspections, monitoring significant work projects and interfacing with plant workers and the public.

DiPaolo joins NRC Resident Inspector Joe Austin and Site Secretary Hollie Krex at the Brunswick plant. The NRC inspectors at Brunswick can be reached at 910-457-9531.
