Dear Senator Grassley,

You were, are wrong about the nuclear power industry. What is even worse than the fact that you have voted to bring hot, high level radioactive spent fuel rods through my State of Iowa, and you live in a make believe world where the rich are your only constituents, is the fact that the NRC is willing to endanger most of the people of the midwest by refusing to enforce their own regulations. You don't believe me? Then how do you explain the near explosion of the Davis-Besse nuklar power plant and the fact that NRC has not ordered the permanent shut down of Davis-Besse?
