**Subject:** Request for Copies of 50.54(f) Response Review Results

Good afternoon all,

I cleared this E-mail with Hannon first.

I am in Generic Issues and Environmental Projects Branch (Dave Matthews). My branch is responsible for preparing a Commission paper on the results of the 50.54(f) reviews conducted by the Regions and NRR.

I am writing this e-mail to request all PMs (who are assigned to a R3 plant) within the PD to give me a call so I can come up and get a copy (or E-mail me a copy) of the completed 50.54(f) review performed by Region 3, with assistance from the PMs, for all the plants within your PD. I have already gotten copies from Capra's PD, and in progress of getting copies from Marcus's PD.

It is my understanding that most or all of the PMs within PD 3 attended the Regional PPR the week before last week. During the PPR I understand that copies of the 50.54(f) review results were handed out (or had been previously e-mailed) to the PMs in attendance. The completed (filled out) 50.54(f) reviews is what I am after.

Please call me so I can come up and burn a copy, or E-mail it to me if you have it stored electronically.  
"DLS2"

Thank you for your time.
