

September 2, 2003

Mr. James F. Mallay
Director, Regulatory Affairs
Framatome ANP
3815 Old Forest Road
Lynchburg, VA 24501

SUBJECT: ACCEPTANCE OF FRAMATOME ANP TOPICAL REPORT EMF-2209(P)(A),
REVISION 1, "SPCB CRITICAL POWER CORRELATION" FOR REVIEW
(TAC NO. MB9719)

Dear Mr. Mallay:

By letter dated June 20, 2003, Framatome ANP submitted for NRC staff review Topical Report (TR) EMF-2209(P)(A), Revision 1, "SPCB Critical Power Correlation." It also requested, consistent with the NRC's Office of Nuclear Reactor Regulation Instruction LIC-500, "Processing Requests for Reviews of Topical Reports," that the NRC provide an estimate of the review hours, as well as target dates for any requests for additional information and for the completion of the safety evaluation for the TR.

The NRC staff has performed an acceptance review of the TR. We have found that the material presented is sufficient to begin our comprehensive review. The staff expects to complete its review by October 15, 2003, and estimates that the review will require approximately 150 staff hours.

Section 170.21 of Title 10 of the Code of Federal Regulations requires that TRs are subject to fees based on the full cost of the review. You did not request a fee waiver; therefore, staff hours will be billed accordingly. To enable us to complete this review on schedule, close and frequent communications between our technical staffs will be required.

Sincerely,

/RA/

Drew Holland, Project Manager, Section 2
Project Directorate IV
Division of Licensing Project Management
Office of Nuclear Reactor Regulation

Project No. 728
