John:

I have shown the 1995 Calvert Cliffs SE re. LNG storage to Dan Collins, R. Rosano and John Z. In addition, I talked with Mindy Landau on the subject. John Z asked me to have Bill Reckley look at it quickly to determine if all, or parts, of the document should be identified as sensitive. If Bill so determines, please use the attached cover sheet prepared by Steve Hom for submittal to FERC.

Peter
