Subject: Draft RGs DG-1114 and DG-1115

We have reviewed the draft reg guides (DG-1114 and DG-1115) and find that they do not contain sensitive material and may be made publicly available.

Please indicate when you send these to RES for publication that they have been reviewed by NRR_INFOREVIEW and found OK or, if you request - we can send an email to RES to state the review has been done.

(Sorry for the delay in looking at these....hope it has not caused any problems....WDR)
