Subject: Fwd: Research Reactors

Pat,

OPA forwarded us a request from a member of the public for information on research reactors. I don't know if we have all the answers (question #9) and I'm not sure if some of the answers are safeguards information (last part of #2). Can someone in your section answer these questions and coordinate with either Bill Reckley or myself to make sure we do not release "sensitive" information.

OPA has a quick turnaround time so the sooner we can answer the questions the better.

Thanks,
Margie
