Subject: FYI - Status of FOIAs

Gene - FYI
Margie & Bill - Heads up as to what is coming

1) FOIA 2002-0210 - DOE Work for Others: FOIA Team informed the requester that NRC did not have summaries. Requester stated that he was interested in "security intelligence aspects;" not reactors. FOIA Team told him that they will schedule a conference call with the offices to better define his request. Although NRR may be out of the loop, the FOIA Team is keeping NRR in suspense and will probably include us in the conference call.

2) FOIA 2002-0228 - Dally Plant Status Reports from Jan 95 thru Mar 02: NRR estimate to FOIA Team on 4/23; NRR in suspense until fees resolved. When fees resolved, NRR has 10 working days to complete.

3) FOIA 2002-0229 - Davis Besse response to Bulletin 2001-001: FOIA received 04/18; fees waived (clock started 04/19). Staff is working on pulling records. This will be a very large response (numerous e-mails, drafts of Orders, etc.). To minimize effort, DE has completed the NUDOCS search and provided it to the other Divisions (DLPM & DSSA). Some staff stated that they did not actually receive the FOIA until 4/23. I requested Divisions' responses by 05/01. NRR's due date is 05/03. NRR meeting this deadline will be dependent upon the completeness and organization of the Divisions' responses, volume of material, and time needed for 9/11 review. I am very doubtful that we will make this deadline.

4) FOIA 2002-0231 - AVR Reactor: FOIA received 04/22; fees waived. Staff is working on pulling records. NRLPO has taken the lead for coordinating records from other divisions (DSSA & DE). I requested Division's responses by 05/01. NRR's due date 05/06. NRR meeting this deadline will be dependent upon the completeness and organization of the Divisions' responses, volume of material, and time needed for 9/11 review.

5) FOIA 2002-0232 - THTR Reactor: FOIA received 04/23; fees waived. Staff is working on pulling records. NRLPO has taken the lead for coordinating records from other divisions (DSSA & DE). I requested Division's responses by 05/02. NRR's due date 05/07. NRR meeting this deadline will be dependent upon the completeness and organization of the Divisions' responses, volume of material, and time needed for 9/11 review.

I have provided the Division contacts with a WordPerfect format for preparing the appendices in hopes that it will make consolidating and reviewing the Divisions' responses less time consuming.
