Subject: Re: Fwd: Draft security order for decommissioning sites
Place: NRRWebServices.owf4_po.OWFN_DO@nrc.gov

We have looked at the Order and its OK to post on the web site. I (Bill R) am assuming that what you were provided is still the draft and that is why its marked as predecisional. When they have the final orders ready, someone working on the decomm orders will have to give you the final version.

>>> NRRWebServices 05/03/02 03:55PM >>>

I rec'd the following requests for the decommissioning web site, but one of the attachments provided states "Pre-Decisional Information - Not For Public Release" .

I need to know if this has been approved for posting by NRR Inforeview and if so I need to have a document provided that does not have the statement "Pre-Decisional Information - Not For Public Release" .

Please advise.....

You can preview the pages at the following URL:

<http://148.184.27.72/reading-rm/doc-collections/gen-comm/orders/2002/decommissioning-reactor-security-order.html>

The page of concern is the actually security order, which has the above statement.

Thanks
Sally Jewell
