Subject: Fwd: Re: Web Address for SDP Notebooks

Mindy,

Re the attached request to remove the "Risk Informed Notebooks" or "SDP" notebooks:

We have identified 54 documents in PARS that contain "Risk Informed Inspection Notebook" in their title. We have begun removing these from PARS.

We have also identified another 190 documents that do not contain "Risk Informed Inspection Notebook" in their title but they do contain the phrase "significant determination process" or "SDP" in their titles. I've attached a report of those documents and we would like someone to verify whether or not they should also be removed from PARS. A lot of these documents are e-mail messages released under an FOIA request so we're not sure what to do with them.

THANKS

CC: Shelburne, Elizabeth

Based on this e-mail, it appears the notebooks reside in other locations beside the web. Lynn, could someone check about their location in ADAMS and remove from there as well? I have other inquiries out to the NRR staff for anyone who has more info on this.

The notebooks are also in ADAMS. The licensees were send these notebooks on their dockets so I believe they are in the respective local libraries and send to other people who are on distribution for docketed documents. Projects will have a better perspective on who has been receiving the hard copies. I think it varies from licensee to licensee. If you have any other questions please call at 415-1114.

Pete, do you know any other locations (other than the web) where these notebooks may reside? Are they in local libraries (former LPDRs), or other locations in hard copy?

Here is the web address for the SDP Notebooks. Once you get to this address you need to chick on the "Risk Informed Notebooks" on the left. If you have any questions, please call. 415-1114
