Dear Ms. Usilton:

I would like to request that the Ohio Department of Health host the three following NRC training courses for fiscal year 2004: G-108 Inspection Procedures; G-109 Licensing Practices and Procedures; and G-304 Inspecting for Performance – Materials version. As you know we are very interested in maintaining high quality training for our agreement state staff, and hosting these courses in Ohio would help to maximize the number of Ohio personnel that could attend the necessary courses. We can commit to having at least half of the maximum number of attendees available for the courses.

Arrangements can be made in the Columbus area, and we can provide the necessary administrative support. Your accommodation of this request is greatly appreciated.

If you have any questions or need further information, please contact me at 614-644-2727.

Sincerely yours,

Robert Owen, Acting Chief
Bureau of Radiation Protection
