Diane,
Steve is very busy and asked my help. Sorry about the delay, internally we can call up the notification and did not think about it not being publically available until being declared an official document. Attached is the wordperfect version - it becomes a PDF when declared. If you do not have access to workperfect, I can fax you a copy. You indicate you did get access to the attachments so I will attach those files unless you indicate you need them.

Thanks

Steve -- I tried to get the Board Notification from ADAMS this morning, and it was not there. I then called the PDR. The PDR has the document in its internal system, but it has no release date. Therefore it hasn't been replicated to the public ADAMS system yet.

The librarian did give me the accession numbers for the four attachments:

ML031340781

ML031350757

ML031340779

ML031350774

I was successful in getting those documents. They relate to post-9/11 security measures for irradiators.

Given that the oral argument is just a few days away, and the Board Notification seems to be relevant to security issues raised in Petitioners' stay motion, I would like to get the Board Notification today. Please send it by e-mail.

Thanks -- Diane Curran
