Dear Mr. Ridenoure:

On January 7, 2003, the U. S. Nuclear Regulatory Commission (NRC or Commission) issued Orders to holders of licenses for operating power reactors, for the implementation of compensatory measures (CMs) related to access authorization. On January 27, 2003, the Omaha Public Power District, licensee for Fort Calhoun Station, Unit No. 1, submitted its written response to the Order. On March 7, 2003, the NRC staff initiated a conference call with the licensee to discuss the response to the Order. On March 31, 2003, the licensee issued a letter clarifying its January 27, 2003, response.

The NRC staff has completed its review of your responses. Based on our review, the NRC staff finds that your responses to the January 7, 2003, Order are acceptable and responsive to the Order.

Please remember, pursuant to Section III.C.2 of the Order, you are to report to the Commission, in accordance with Title 10 of the *Code of Federal Regulations*, Section 50.4, when you have achieved full compliance with the requirements described in Attachment 2 to the Order.
