President Bush
Washington DC

Dear President Bush,

This morning while driving to work, the radio announced that you have stated the United states you believe will be attacked again by terrorists. The news reporter said the attack would likely be of chemical warfare or mass destruction.

I live in New York, directly across the Hudson River from the Indian Point Power Plant. The Riverkeeper is trying to get Governor George Pataki to close the Indian Point Nuclear Power Plant. They have clearly stated the devastation that an attack on the plant would have not only on my community but also on New York City. Governor Pataki does not live near this plant and he refuses to listen to any who do.

I just spent the weekend in Andover Massachusetts at the Phillips Academy, where I understand you attended. I Had a wonderful time celebrating the graduation of my god son who graduated with honors and has received a full scholarship to Harvard University. The ceremonies were awesome and gave me faith to believe that if I should write to you, I may infact get a response. I believe that you care about all the people of our country and the world. If you were to review the impact that an attack on the power plant would have on the people of New York, I'm sure that your word would hold some authority.

I look forward to hearing from you. God Bless

Sincerely,

Charlene Romaine
