Attention: DMR Clerk
400 Waterfront Drive
Pittsburgh, PA 15222**National Pollutants Discharge Elimination System (NPDES) Permit No. PA0025615**
Amended Discharge Monitoring Report

To Whom It May Concern:

Attached is an amended Discharge Monitoring Report (DMR) for FirstEnergy Nuclear Operating Company (FENOC), Beaver Valley Power Station, NPDES Permit No. PA0025615. The amended DMR corrects monitoring data at Outfall 013 in April 2003. A recent data review indicated that the Total Suspended Solids (TSS) Daily Maximum Value was transposed into the cell for TSS Monthly Average. In addition, an incorrect value was entered into the TSS Daily Maximum cell. The correct data indicates that the TSS Monthly Average was within permit limits (<30 mg/l) and the Daily Maximum value of 228 exceeded the permit limit of 60 mg/l. This exceedance was correctly documented on the non-compliance report submitted with the original April DMR on May 27, 2003.

Should you have any questions regarding the attached, please direct them to Mr. Edward Hubley, Manager Nuclear Environmental & Chemistry, at 724-682-7340.

Sincerely,

James H. Lash
Plant General Manager
