Changes to the Federal Register notice in SECY-03-0151

1. On page 3, after the 1st full paragraph, insert the following:

A response to the petition was delayed a number of times to consider the petition in light of the Commission's ongoing public information initiatives and legislative and executive branch directives on reducing unnecessary reporting and recordkeeping. For example, there was a significant delay associated with developing and implementing ADAMS, the Commission's electronic document library system. During the review period the staff contacted the petitioner to provide updates on the status of the agency's review. Nevertheless, the Commission finds this delay to be unacceptable. The Commission is committed to a more rigorous review of action on pending rulemaking petitions in order to prevent a recurrence of an unnecessary delay of this length and to assure timely response.
