Gary Wright, Assistant Director
Illinois Emergency Management Agency
Division of Nuclear Safety
1035 Outer Park Drive
Springfield, IL 62704

Dear Mr. Wright:

We have reviewed the final revisions to the Illinois 32 Ill. Adm. Code 335, "*Use of Radionuclides in the Healing Arts*", received by our office on August 8, 2003. In addition, we reviewed your response to our letter, dated April 15, 2003, which contained our comments on your proposed version of these rules. These regulations were reviewed by comparison to the equivalent Nuclear Regulatory Commission (NRC) regulations in 10 CFR Part 35 and the requirements of the amendment identified in the enclosed States Regulation Status Data Sheet (SRS). We discussed our review of the regulations with Gibb Vinson on August 25, 2003.

As a result of our review, we have no comments, however, we suggest a thorough review and edit of the text as we have encountered numerous grammatical errors. Please note that we have limited our review to regulations required for compatibility and/or health and safety. We understand that your adoption of an Authorized Nuclear Pharmacist rule will be included in a future amendment to Part 35. We have determined that the regulations, as adopted, meet the compatibility and health and safety categories established in the Office of State and Tribal Programs (STP) Procedure SA-200 subject to completion of the rulemaking to address authorized Nuclear Pharmacists.

The SRS Data Sheet summarizes our knowledge of the status of other Illinois regulations, as indicated. Please let us know if you note any inaccuracies, or have any comments on the information contained in the SRS Data Sheet. This letter, including the SRS Data Sheet, is posted on the STP website: <http://www.hrsd.ornl.gov/nrc/rulemaking.htm>.

If you have any questions regarding the comments, the compatibility and health and safety categories, or any of the NRC regulations used in the review, please contact me, or Jim Lynch at (630) 829-9661 or JLL2@NRC.GOV.

Sincerely,

/RA By J.M. Piccone/
