**Subject:** Request to Post NUREG/BR-0058, Rev. 3 , on NRC Web Site  
**Place:** NRCWEB

Please post the following NUREG/BR document on the NRC public web site as part of the NUREG collection.

**NUREG/BR-0058, Revision 3, "Regulatory Analysis Guidelines of the U.S. Nuclear Regulatory Commission, Final Report", July 2000.**

This document has been reviewed based on Commission guidance (dated January 25, 2002) to the staff for developing final criteria for release of information to the public. Based on this sensitivity review, it has been determined that the content of NUREG/BR-0058 is benign and contains no sensitive information that can be misused by those with malevolent intentions toward NRC-regulated facilities and activities. The result of the review (attached) has been approved by Farouk Eltawila (D:DSARE), the cognizant RES Division Director. The electronic version of NUREG/BR-0058 is attached to the initial e-mail of this approval package.

Thanks,  
Gil Millman  
RES Web Liaison

**Subject:** Approval to Post NUREG-BR-0058, Rev. 3 , on NRC Web Site

I have had a couple of recent requests to make the following document available on the NRC Web Site:

NUREG-BR-0058, Revision 3, "Regulatory Analysis Guidelines of the U.S. Nuclear Regulatory Commission, Final Report", July 2000. (elecronic version is attached)

I have reviewed this document based on Commission guidance of January 25, 2002 concerning the release of information to the public. Based on this review, I have determined that the content of NUREG-BR-0058, Rev. 3, is benign and contains no sensitive information that can be used by those with malevolent intentions towards NRC-regulated facilities and activities.

It is my understanding that assuming your approval, this request needs to be forwarded to Farouk, who in turn needs to inform Gil Millman, RES' Web Liaison, of his recommended action.

Thanks ..... Sid
