Subject: Approval to Publish NUREG/CR-6751 and -6753
Place: PUBS

Please publish the following NUREG/CR documents in paper form:

1) NUREG/CR-6751, "The Human Performance Evaluation Process: A Resource for Reviewing the Identification and Resolution of Human Performance Problems"

2) NUREG/CR-6753, "Review of Findings for Human Performance Contribution to Risk in Operating Events "

These documents have been reviewed based on Commission guidance (dated January 25, 2002) to the staff for developing final criteria for release of information to the public. Based on the sensitivity reviews, it has been determined that NUREG/CR-6751 and NUREG/CR-6753 do not contain information that could provide a clear and significant benefit to a terrorist in a potential attack. The result of each review (attached) has been approved by Farouk Eltawila (D:DSARE), the cognizant RES Division Director.

Thanks,

CC: Eugene Trager; Farouk Eltawila; Francine Goldberg; John Flack; Walter Oliu

Subject: Approval for Publication of NUREG/CR-6751

Re: Approval for publication of NUREG/CR-6751, "The Human Performance Evaluation Process: A Resource for Reviewing the Identification and Resolution of Human Performance Problems"

As project manager for the subject report, I have reviewed NUREG/CR-6751 based on Commission guidance (dated January 25, 2002) to the staff for release of information to the public. Considering the Commission guidance, the content of NUREG/CR-6751 is benign and it contains no sensitive information that can be misused by those with malevolent intentions toward the NRC-regulated facilities and activities.

Therefore, I recommend publication of NUREG/CR-6751 and request that you transmit your approval via e-mail to the RES OCIO Liaison (Gil Milman).
