Subject: Approval to Release NUREG-1742
Place: PUBS

Please publish the following two-volume NUREG in paper form:

NUREG-1742, Volume 1: Perspectives Gained from the Individual Plant Examination of External Events (IPEEE), Final Report

NUREG-1742, Volume 2: Perspectives Gained from the Individual Plant Examination of External Events (IPEEE), Tables

These documents have been reviewed based on Commission guidance (dated January 25, 2002) to the staff for developing final criteria for release of information to the public. Based on this sensitivity review, it has been determined that the contents of NUREG-1742, Volumes 1 and 2, do not contain information that could provide a clear and significant benefit to a terrorist in a potential attack. The result of the review has been approved by Scott Newberry (D:DRAA), the cognizant RES Division Director.
