Please publish the following NUREG/CR in paper form:

NUREG/CR-6769, "Technical Basis for Revision of Regulatory Guidance on Design Ground Motions: Development of Hazard- and Risk-consistent Seismic Spectra for Two Sites."

NUREG/CR-6769 has been reviewed based on Commission guidance (dated January 25, 2002) to the staff for developing final criteria for release of information to the public. Based on this sensitivity review, it has been determined that its contents does not contain information that could provide a clear and significant benefit to a terrorist in a potential attack. The result of this review has been approved by Daniel Dorman [C: RES/DET/ERAB] (see attachments).

Gil,

See the attached message from Roger Kenneally. Consistent with the guidance provided by the Commission, I have reviewed the subject report and conclude that it does not contain information that would be of use to prospective terrorists. Therefore I recommend the report be published and made publicly available.

Please forward your recommendation to the publications staff.

Thanks,

Dan

Subject: Approval for publication of NUREG/CR-5769, "Technical Basis for Revision of Regulatory Guidance on Design Ground Motions: Development of Hazard- and Risk-consistent Seismic Spectra for Two Sites."

As Project Manager for NRC Job Code W6248, I reviewed the manuscript of NUREG/CR-6769, based on the Commission guidance provided in Staff Requirements - COMSECY-01-0030 - Guidance to the Staff on Release of Information to the Public, dated January 25, 2002. Considering the Commission guidance, the content of NUREG/CR-6769 does not contain information that could provide a clear and significant benefit to a terrorist in a potential attack. Therefore, I recommend publication of NUREG/CR-6769.

I request that you transmit your concurrence via e-mail to the DET Division Director for approval, and that the Division Director's approval be transmitted via e-mail to the RES OCIO Liaison (Gil Millman).
