Subject: Information Digest - Appendix A

Hi Carl,

The information on the current public website under List of Power Reactor Units at:
<http://www.nrc.gov/reactors/operating/list-power-reactor-units.html> has the data that was part of
NUREG-1350, Vol.12, Appendix A

We had compiled NUREG-1350, Vol.13 just before the 9/11 event. We do have the updated Appendix A
information at: <http://nrcweb:201/NRC/NUREGS/SR1350/V13/part11.html> which is the information used
on the List of Power Reactor Units page.

We would be happy to update the external site with the most current info if okay with you. Please
coordinate with Carl Konzman and inform NRCWEB (through Lars). Thanks

Joan
