Re: **ACR-700 Anticipatory R&D Program**

As committed (Reference 1) you will find enclosed a CD containing an electronic copy of the report:  
"ACR-700 Anticipatory R&D Program", AECL Report No. 10810-01200-430-005, Revision 0, September 2003.

This report is submitted for NRC review, in support of pre-application review focus topic #12 (i.e., ACR technology base). The report summarizes the anticipatory R&D program being performed by AECL in support of the ACR-700 design.

If you have any questions with regards this letter and/or the enclosed report please contact the undersigned at (905) 823-9060 extension 6543.

Yours sincerely,

A handwritten signature in black ink that reads 'Vince Langman'. The signature is fluid and cursive, with a long horizontal line extending from the end of the name.

Vince J. Langman  
ACR Licensing Manager
