Subject: TRU Pad Letter Update

Dear Mr. McCann,

As we discussed today by phone, based on review of the guidance in NUREG 0794 on Safeguards Information Protection, Battelle is withdrawing its initial request to withhold from public disclosure under 10 CFR 2.790 its June 23, 2003 letter entitled "Relocation of TRU Waste to Outside Staging Area" and its attachments. Based on the NUREG 0794 no materials in this transmittal need to be restricted. The letter and attachments were not marked to note "withhold from access", so Battelle is not resubmitting any of these documents.

Battelle hopes that this change in classification will make the review process more streamlined.

Please call with questions.

Craig Jensen
