

October 14, 2003

Mr. Henry A. Sepp, Manager
Regulatory and Licensing Engineering
Westinghouse Electric Company
P.O. Box 355
Pittsburgh, PA 15230-0355

SUBJECT: ACCEPTANCE OF WCAP-15836-P, REVISION 0, "ROD DESIGN METHODS
FOR BOILING WATER REACTORS SUPPLEMENT 1" FOR REVIEW (TAC NO.
MB5740)

Dear Mr. Sepp:

By letter dated June 25, 2002, Westinghouse Electric Company submitted for NRC staff review Topical Report (TR) WCAP-15836-P, Revision 0, "Rod Design Methods for Boiling Water Reactors Supplement 1." It also requested, consistent with the NRC's Office of Nuclear Reactor Regulation Instruction LIC-500, "Processing Requests for Review of Topical Reports," that the NRC provide an estimate of the review hours, as well as target dates for any requests for additional information (RAI) and for the completion of the safety evaluation for the TR.

The NRC staff has performed an acceptance review of the TR. We have found that the material presented is sufficient to begin our comprehensive review. The staff expects to issue RAIs by October 30, 2003, and complete its review by December 30, 2004. It is estimated that the review will require approximately 400 staff hours.

Section 170.21 of Title 10 of the Code of Federal Regulations requires that this TR is subject to fees based on the full cost of the review. You did not request a fee waiver; therefore, staff hours will be billed accordingly. To enable us to complete this review on schedule, close and frequent communications between our technical staffs will be required.

Sincerely,

/RA/

Brian Benney, Project Manager, Section 2
Project Directorate IV
Division of Licensing Project Management
Office of Nuclear Reactor Regulation

Project No. 700
