SUBJECT: MAINTENANCE OF REFERENCE MATERIAL FOR THE ARKANSAS
NUCLEAR ONE, UNIT 2 LICENSE RENEWAL APPLICATION AT THE ROSS
PENDERGRAFT LIBRARY

Dear Ms. Hager:

This is to confirm an October 6, 2003 telephone conversation that Bill Parton, Director of the Ross Pendergraft Library, had with Stacey Imboden of the U.S. Nuclear Regulatory Commission (NRC) staff concerning the maintenance of reference material by your library. These reference documents will be related to the review by the NRC of the license renewal application of Arkansas Nuclear One, Unit 2 for an additional 20 years. Over the approximately 18-month period of the review, the volume of documents and related correspondence is expected to fill about a 3-foot shelf.

The application is expected to be submitted in the form of a compact disc (CD) in Adobe Acrobat (.pdf) format by Entergy Operations, Inc. around the middle of October 2003. After the NRC receives the application, we will forward you a copy of the CD and a paper copy of the application. Paper or CD copies of related documents will also be forwarded to you during the course of the review. In addition, a paper copy of the application will also be available at the NRC's Public Document Room in Rockville, Maryland, and an electronic version will be available in the NRC's Public Electronic Reading Room, accessible through the NRC Home Page (<http://www.nrc.gov/reading-rm/adams.html>).

We appreciate your willingness to assist the public in participating in the license renewal process. We will place the Pendergraft Library on our distribution list for documents and notices related to the application for license renewal.

Thank you again for your cooperation. If you have any questions, you can reach me by telephone at (301) 415-1120 or by e-mail at tjk2@nrc.gov.

Sincerely,

Stacey F. Imboden for **/RA/**
