Re: RIN 3150 - AH06

Dear Sir or Madam :

Although we feel our security procedures to be adequate and our personnel to be responsible, we consider ourselves very fortunate not to be one of the statistics you refer to on page 45173. We are confident that we can satisfy the language of the proposed rule change, but may we submit that the cost per unit in most cases will be substantially greater than your estimate.

Sincerely,

Dallas Boggess
