

October 15, 2003

Craig Jones, Director  
Division of Radiation Control  
Department of Environmental Quality  
168 North 1950 West, P.O. Box 144850  
Salt Lake City, Utah 84114-4850

Dear Mr. Jones:

We have reviewed the proposed changes to the Utah Administrative Code Title R313, "*Environmental Quality, Radiation Control*", received by our office on October 2, 2003. In addition, we reviewed your responses to our letter, dated August 28, 2003, which contained our comments on a previous version of these rules. In this submission, we did not receive Utah's proposed changes to regulations equivalent to 10 CFR Parts 30.31 and 30.34, as required by amendment RATS ID # 2001-1. We were able to review Utah's current equivalent rules (available at <http://www.rules.utah.gov/publicat/code/r313/r313.htm> ) and found them to be compatible to the NRC for these missing sections. Our review and comments are in response to the State's request for Nuclear Regulatory Commission (NRC) evaluation of the changes to Utah's radiation control rules that incorporated the amendments identified on the States Regulation Status Data Sheet (SRS). These regulations were reviewed by comparison to the equivalent NRC rules in 10 CFR Parts 30, 31 and 32 and the requirements of the amendment identified in the enclosed SRS. We discussed our review of the regulations with Philip Griffin on October 15, 2003.

As a result of our review, we have no comments and two editorial suggestions. Please note that we have limited our review to regulations required for compatibility and/or health and safety. Under our current procedure, a finding that a State regulation meets the compatibility and health and safety categories of the equivalent NRC regulation may only be made based on a review of the final State regulation. However, we have determined that if these regulations are adopted without significant change, they would meet the compatibility and health and safety categories established in the Office of State and Tribal Programs (STP) Procedure SA-200. We request that when the proposed regulations are adopted and published as final regulations, a copy of the "as published" regulations be provided to the NRC for review.

The SRS Data Sheet summarizes our knowledge of the status of other Utah regulations, as indicated. Please let us know if you note any inaccuracies, or have any comments on the information contained in the SRS Data Sheet. This letter, including the SRS Data Sheet, is posted on the STP website: <http://www.hrsd.ornl.gov/nrc/rulemaking.htm>.

If you have any questions regarding the comments, the compatibility and health and safety categories, or any of the NRC regulations used in the review, please contact me, or John Zabko of my staff at (301)415-2308 or JGZ@NRC.GOV.

Sincerely,

***/RA for KSchneider for JMPiccone/***

Josephine Piccone, Deputy Director  
Office of State and Tribal Programs

## **EDITORIAL SUGGESTIONS**

1. In R313-21-22 (4)(c)(xiii.) (B.), the State omitted the first “e” in Executive Secretary.
2. In R313-22-75 (4)(d)(ii)(A.), the State has referenced 10 CFR 20.2002 instead of 10 CFR 20.2202 as found in the NRC’s equivalent regulation.

### STATE REGULATION STATUS

**State: Utah** One amendment reviewed is identified by a ★  
at the beginning of each equivalent NRC regulation
