**Subject:** Re: corresponding files

Betsy -

Here is the clarifying information you requested on the Disk files and their relation to the hardc copy volumes:

- \* BMS FSS Report Rev 0 is Book 1
- \* Appendix A A0100-A1910 is Book 2 (partial)
- \* Appendix A B0100-E0200 is the remainder Book 2 and all of Book 3
- \* Appendix B is Book 4
- \* Appendix C is Book 5 and continued to Book 6
- \* Appendix D is the remainder of Book 6

Hope this helps, let me know if you need further clarification.

Mike

- > Appendix A A0100-A1910, book 2 of 4, 335 pages
- > Appendix A B0100-E0200, [no book reference], 695 pages
- > Appendix B, book 2 of 4, 249 pages

> Appendix C, Book 4 of 4, 1045 pages

> Appendix D, Book 4 of 4, 124 pages

>

> Although I realize that, physically, the ringbinders are limited in a way that the disc files are not, we need to verify that the information in the ringbinders is the same as the information in the disk files. The cover page for each of the disk files makes it appear that the information could be different. Could you please verify in writing (email is sufficient) the correspondence between the ringbinders and the disk files, and confirm which cover pages are or are not correct.
