**Subject:** LSN Funct. Rqmts meeting date?

At the February 23, 2000 Licensing Support Network Advisory Review Panel there was a request by the LSNA to allow the Technical Working Group pursue closure on the set of functional requirements. This was followed by the DOE representative's recommendation that a broader group become involved in the review on the functional requirements.

To that end, I would like to get an indication of who would be a) available and b) interested in attending a technical working group session dealing with the functional requirements.

I would like to propose Monday, March 20th (assuming arrangements for work space somewhere in LV can be made...).

Please advise me by COB Friday March 3, 2000 as to whether your organization will be participating. It would be helpful to have a head count of who will be attending so that we know the size of room to look for.

I may be reached at 301-415-7401 or via e-mail at DJG2@NRC.GOV
