Subject: Re: Fwd: Fire Protection Request for Assistance

Jim: Pls see Ted's response below. Pls ask Garmon who may be a good contact in NSIR.

Thanks,

Dave

My recollection was that it was IIPB (Peter Koltay).

Ted: Regarding Bruce's comment: "My interest was making sure we use similar logic for manual operator actions in security, fire, and operational situations." Do you know who in NSIR is working on the Manual Actions topic or what brought that up on Bruce's radar screen?

Jim: I agree a coordination would be helpful. Sounds like Peter Koltay, Phil Qualls, and whoever we can identify in security should be involved. Pls pursue your suggested approach.

Thanks,

Dave
