* rule & reg. guide being discussed now

* substituting for something that has an assumed reliability.

- manual actions = 4th option.

* Manual actions solely, or in combination of suppression & deletion?

* Dornier L - doesn't allow for manual actions, plan & simple

= # of "speeches" made re: feasibility w/ perf. manual actions.
 H. Weiss

* inspection guidance - refining & using by inspectors.

* What = ? of failure of actions? Concepts of failure.

- cumulative effect of manual actions
- minimum time to take actions.

Dwe & Stover W. =
 directing how & what
 from redundancy will
 take.

(* risk basis to support criteria - what =
 described.

D/45

* Schedule depends on acceptance of SRM - draft rule -

(TRDUEI
PUSHNED)

Q mos after SUM approved

* modelling human behavior -

(more objective criteria for interviewing)

(no visit - information -)

ASSISTANCE TO
QUANTIFY THEIR ACTIONS

- FT Calhoun also

* demonstrate this??

(2 yr period)

1	embellish criteria?
2	demonstrate acceptability / what constitutes "acceptable" performance?
3	modelling?

[performance-based
criteria]

RES assistance

learned most of it

1 FTE ~ 1975 AKA

(3 FTE = 3 yrs)

→ during U.N. -

* research the topic -
* develop draft guidance
* conduct some sort of trial w/ draft guidance

⇒ go to D. Deic - start U.N. - to res. to develop guidance.

(we don't have "tasking to do this")

i. 1.5 FTE (staff)

What = "family" of manual actions?
task analysis
