Subject: Re: ADDITIONAL EDO/STAFF NOTE

Thanks for the help. We (DRS) are issuing the staff note. It's been approved by the Act. Div. Dir.

Rebecca may want to input into this. I have been told that she is working on the staff note.

NRC and Entergy Personnel Meet in Regulatory Conference to Discuss Risk Related to Appendix R Non-compliance at Arkansas Nuclear One.

On July 10, 2003 NRC and Entergy personnel participated in a regulatory conference held in the Region IV office. The conference was held to better understand the risk associated with inappropriately crediting manual actions in lieu of complying with Appendix R. Key risk analysis and fire modeling assumptions were presented by NRC and the licensee.

Linda/Jeff,

During the coordination meeting this week, we forgot to include the ANO reg conference on the list for EDO and Staff notes. Please provide input for an EDO and Staff note. Thanks.

Kriss
