

Look me in the eye  
and tell me Davis-Besse is safe

---

Kerry Langan

[REDACTED]

July 1, 2003

James C. Dyer  
Regional Administrator  
NRC

Dear Mr. Dyer,

As a mother of small children living 12 miles south of Lake Erie, I am deeply concerned regarding environmental contamination. For public and environmental safety, I do not want the Davis-Besse reactor to be re-operated. I was horrified to learn how close the reactor had

come to a melt down in March of 2002.

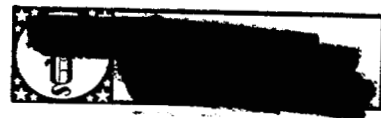

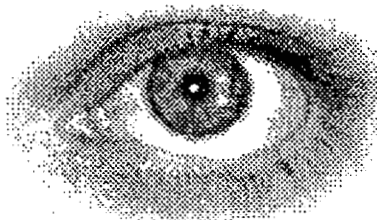

This was the 2<sup>nd</sup> near disaster for this reactor.

Please tour a cancer facility,  
observe the tragedy of ~~children~~ children  
suffering from leukemia. Public  
health and safety must be  
your top priority.

I would appreciate a  
response to my letter.

Sincerely,

Kerry Langan

Look me in the eye  
and tell me Davis-Besse is safe

---

My NAME Is RONALD YEPKO SR.  
I LIVE AT [REDACTED] JUST EAST  
OF THE CITY OF [REDACTED] - OHIO.

I LIKE TO BELIEVE THAT THE  
COUNTRYS TOP PRIORITY RIGHT NOW  
IS PUBLIC SAFETY.

I REALLY DON'T WANT A DAVIS-  
BESSE PLANT ACCIDENT ON LAKE ERIE  
OR ANYWHERE WITHIN REACH OF MY  
HOME OR MY FAMILY. THREE MILE  
ISLAND WILL ALWAYS BE ON MY MIND  
AND IT REALLY BOTHERS ME.

I DO NOT THINK IF SOMETHING LIKE  
THAT WOULD HAPPEN GOD FORBIDE THAT  
NO ONE WOULD WANT TO BE HELD - OVER

RESPONSIBLE. AND I DON'T BELIEVE THAT  
NO DAVIS-BESSE PEOPLE WOULD TELL  
THE CITIZENS THE TRUTH ABOUT  
WHAT REALLY HAPPEN.

AND I ~~WOULD~~ LIKE A  
RESPONSE ~~IN WRITING~~ AND SIGNED.

CLOSE DAVIS-BESSE DOWN

'THANK YOU'.

BETTER TO BE SAFE  
THAN SORRY.

James C. Dyer, Regional Administrator  
U.S. Nuclear Regulatory Commission  
801 Warrenville Road  
Lisle, IL 60532-4351

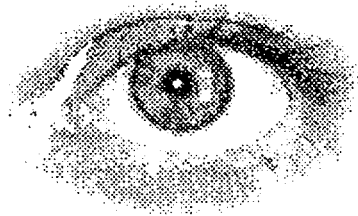

from:  
Teresa S. Kmiech  
[Redacted]

Look me in the eye  
and tell me Davis-Besse is safe June 30, 2003

Dear Mr. Dyer,

I was once a resident of [Redacted], Ohio attending Terra Technical College and working in that area. I was driving to visit a classmate, who also lived in the area, and got lost. I realized my error when I was met with a gated fence and a bigger-than-life silhouette of the Davis-Besse nuclear plant several hundred yards in front of me. I literally had to remind myself to breathe as I had frozen in my spot. I remember a fear overcoming me & a desire to get away from there as soon as I could. I turned around and soon found my originally intended destination. I was shaken for quite a while... that was close to 22~~4~~ years ago... and it still bothers me to think of this memory. I am now a mother of 3 young children I fortunately no longer live within the 25 mile radius of the plant. ~~then~~ 1982 estimated figures (based on a Davis-Besse meltdown) performed by the NRC, and shared with me by Ohio Citizen Action Information, are certainly alarming. First Energy is a very well known company that really ought to put some of

their enormous finances into some major Davis-  
Besse maintenance!!! there are thousands of  
~~thousands of~~ lives at stake! i worked for a graphic arts  
company that produced paint samples and the company  
was closed; the building leveled & then based on many  
materials which contaminated the grounds... the land  
had to sit for at least 5 yrs before it was then  
developed into a shopping strip mall. as far as i'm  
concerned, Davis-Besse can forever remain closed.  
Vacate, level & let it sit for the weeds & fields to  
grow around it's huge filled in hole!! Knowing  
the rural grounds around the Davis-Besse facility,  
i don't even like the thought of buying produce that  
may have been grown from around there. my  
family & i go to Sandusky for the amusement park  
& vacationing every summer and i would never  
miss seeing the Davis-Besse silhouette on the horizon.  
should the world be blessed to have it disappear forever.  
i am totally against the Davis-Besse facility being able  
to operate with it being so close to suburban  
living... a nuclear plant needs more empty space  
around it than you'll ever find in ohio!... try  
the mid-atlantic or pacific! unfortunately companies  
& politicians see \$ dollars... not human lives!! THINK!!!  
Your family could

Look me in the eye  
and tell me Davis-Besse is safe

---

Dear Mr. Dyer,

I live in [redacted] Ohio about 35-40 miles south of [redacted] and I have vacationed at our lake [redacted] since I was 10 yrs old. (I am now 31). I urge you for the safety of my family & I - and our future that you keep the Davis Besse plant closed. I fear the impact & potential that exists if a meltdown occurs.

I have sat by and watched so many of my loved ones & friends suffer, endure, & die to cancer. I could not bear to see more of this if Davis-Besse has an accident. Our Great Lakes are too important to us in Ohio!

Please keep in mind that the priority of the NRC is Public Safety!! — Not First Energy's agenda! I would appreciate hearing from you in regards to this subject as soon as possible

Thank you for your time & attention & commitment →

to the health & well-being of all of  
us Ohio Citizens!

God Bless you & your decisions!

Theresa [REDACTED]

---

Dear James Dyer,

My name is Mrs Delilah Kish-Brown.  
My husband is Mr Eric Brown. We live  
at [REDACTED] in [REDACTED] Ohio.  
We have been married 2 years. We  
do not have children however are plans  
are to have them soon. I want  
my future family to be growing up  
in a safe and healthy environment  
There are many things that we can't  
protect are children from however  
you can protect them from  
potential nuclear danger. I would  
hope you consider shutting down  
the Davis-Besse power plant forever  
I will sleep better at night knowing  
you made the right decision and  
I assure you would too.

Thank You

Mrs Delilah Kish-Brown

PS.

I would like a response from  
you ASAP on such an important  
issue.

Mrs. Brown

[REDACTED]

Look me in the eye  
and tell me Davis-Besse is safe

---

Mr. Dyer:

I am writing to demand The  
closing of Davis-Besse! At what point do you,  
The owner, and The NRC consider this  
feasible? How much of a kick back is  
someone receiving from First Energy to  
endanger people? Does anyone hold  
themselves accountable for the risks posed  
to people, the environment, and the future?  
I noticed you live in Illinois. Would  
you see this threat differently if you lived  
within a 25 mile radius of the plant?  
Would you see the threat differently if  
you were a 'common citizen' who worked  
within this danger zone?

The citizens of this country are  
sick to death of you like you.  
You and your kind sell out the  
American worker, put their families

at risk, and make decisions that affect  
Thousands of people with NO thought to  
 ramifications. Just how do you justify the

This letter might end up, with  
other letters, dumped in a corner - unread  
and unconsidered. But, if a disaster  
happens at this plant - I hope and pray you,  
the owner, and everyone responsible will  
not be exempt from the consequences.

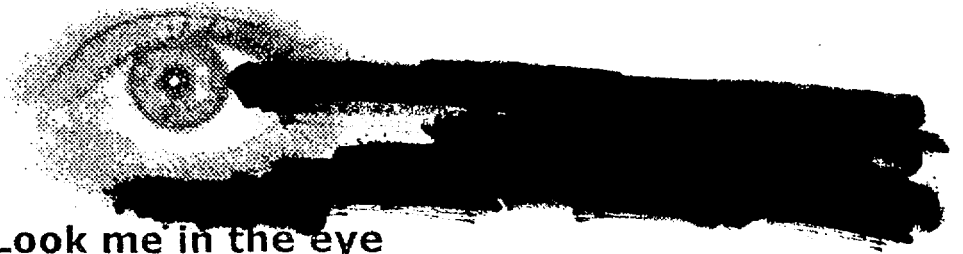

How are your inspections of this plant  
conducted? Who is responsible for the safety  
of the equipment? Is this facility safe from  
terrorism? (I really doubt that). A village  
idiot could reason that the shutting  
down of this place is mandatory. I am  
so sick of irresponsible people, and their  
decisions that are paid for in lives, and  
future resources. Close The Plant!

Judyn Rice

I am awaiting an immediate  
response from you.

Look me in the eye  
and tell me Davis-Besse is safe

---

Mr. Dyer,

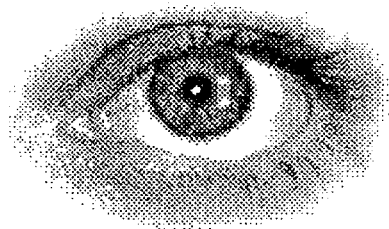

We, (my family) have been by this plant to go to Maumee <sup>stop</sup> Park. I was shocked to see what a "ghost town" appearance there was in this town. If this plant is truly UNSAFE - why would you jeopardize the human and animal life nearby. I can already see environmental changes in the surrounding plants and trees. (It was eerie)

In today's society a lot of choices are geared on money and a time schedule. I am all for alternative ways out at the expense of human life, it's not worth it. Someone who truly cares needs to put the people first. Thank you.

Brenda Odabashian

P.S. If you are unaware of this, but  
Maumee State Park is within miles of this  
plant. We went for Thanksgiving and all  
~~our~~ our relatives stayed in cabins in the  
park. The park is beautiful! It would be  
a shame for a disaster to occur.

James E Dyer, Regional Administrator  
U.S. Nuclear Regulatory Commission  
801 Warrenville Road  
Lisle, IL 60532-4351

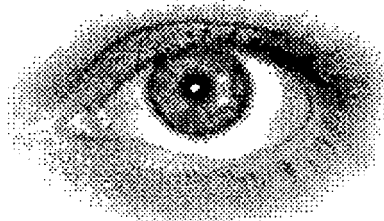

Dear Mr. Dyer:

Our family lives in [REDACTED], Ohio a suburb of Cleveland. We are aware of a potential hazard to our families' health if a meltdown at Davis-Besse were to happen. As a regional administrator of NRC your top priority must be public safety, not First Energy's schedule.

Please keep the Davis-Besse nuclear reactor closed. I would appreciate an immediate response to our concerns. Thank you in advance for your help.

Sincerely,

Look me in the eye  
and tell me Davis-Besse is safe

---

July 7-2003

[REDACTED] OK; [REDACTED]

Dear Mr. James E. Syer,

I would like to see the  
Davis-Besse Nuclear Reactor  
Closed. My reasons are both  
environmental - preservation of  
our Lake Erie's drinking water  
+ economic - the possibilities of  
damages, lost wages, properties,  
etc, but, primarily, the possibility  
of a meltdown causing great  
health problems or fatalities.

Sincerely,  
Margaret Toth

**Look me in the eye

James Dyer  
U.S. Nuclear Regulatory Commission  
801 Wamensville Rd.  
Lisle, IL 60532-4351

7/7/03

Dear Mr. Dyer:

I live in [REDACTED], Ohio and have been reading with interest about the problems associated with the Davis-Besse nuclear plant. I strongly urge you to use your power to keep this plant closed until all the safety issues have been addressed.

The Davis-Besse plant sits on the edge of Lake Erie, part of the largest freshwater system in the world - the Great Lakes. I know you realize how much this region depends on the lake for tourism, fishing & agriculture. Our top priority for re-opening Davis-Besse should be public safety first, power needs should be second, and company profits a distant third!

Thank you for your attention to this important issue. Please respond as soon as possible.  
Sincerely,  
Barbara Clough

Look me in the eye  
and tell me Davis-Besse is safe

---

Dear Mr. Dyer:

My family and I live in [REDACTED] Ohio - which is really not that far away from the Davis-Besse power plant. Our drinking water comes from Lake Erie. I am distressed to hear that our public safety would be put in jeopardy because of the agenda of "big business." Two near-fatal problems at Davis-Besse lead me to believe that the plant was not built correctly and should be permanently closed. How many chances do these people get? And who is going to pay for these "mistakes" - We are - the people of the communities around here. I think our health and safety are more of a concern. Please keep the Davis-Besse nuclear reactor closed.

I thank you,  
Shawn Lychnick

Shawn Lychnick  
[REDACTED]

Look me in the eye  
and tell me Davis-Besse is safe

---

Dear James Dyer:

I am the current resident of [REDACTED]  
[REDACTED] and I am worried for the safety of  
myself and my loved ones who live with me and  
close to me. Ohio Citizen action has  
brought to my attention that Davis-Besse,  
a plant which has become very dangerous, might  
not be kept closed even though it is harmful  
and is going against what should be  
NRC's top ~~priority~~ priority - the public's safety.  
If you aren't going to keep the plant closed  
please reconsider this decision. It is more <sup>hurry</sup> drastic  
then you think, Sincerely,  
Bridget Grabowski

[REDACTED] Ohio  
P.S. Please ~~do~~ keep the plant closed and send me a response.

July 6, 2003

James E. Dyer, Regional Administrator  
U.S. Nuclear Regulatory Commission  
801 Warrenville Road  
Lisle, Illinois 60532-4351

Dear Mr. Dyer:

Again I am writing you to ask you for the same, to **keep the Davis-Besse** nuclear reactor closed.

The NRC must be told to think of our safety, not FirstEnergy's schedule. Of course my family is concerned for our safety. We all could be effected, look at what happened in Russia years ago. Please keep a promise to my family and myself and with your authority keep the Davis-Besse closed.

I wish to have an immediate response to you decision and therefore I am enclosing my name and address for your files.

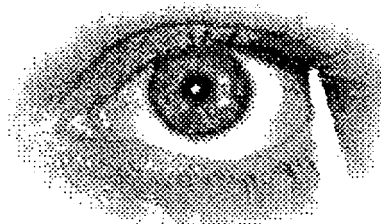

Dana Danchuk  

Thank you again for reading this letter and responding to my **concerns**.

Sincerely,

Dana Danchuk

July 3, 2003

James E. Doyle, Regional Adm.  
U.S. Nuclear Regulatory Commission  
801 Warrensville Rd.  
Lisle, IL 60532-4351

Dear Sir,

I live in the Northeast Ohio area and I am concerned with the safety of my family<sup>it</sup> is a top priority. Having the Davis-Besse nuclear reactor plant reopened could cause this matter to be of utmost concern the safety of my and other families, should be number 1 and the concern of big business shouldn't be. Having a big business like First Energy control the decision of our safety is scary, we all know that production would rule out our safety. Please help to keep families safety first by using your office to regulate safety issues number 1. Your reply is welcomed

Jennifer Harris

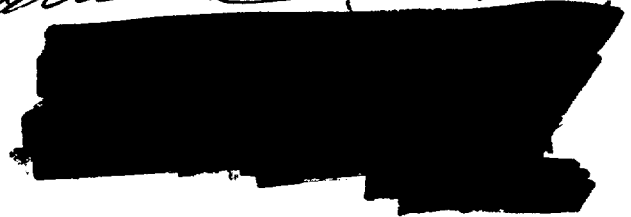

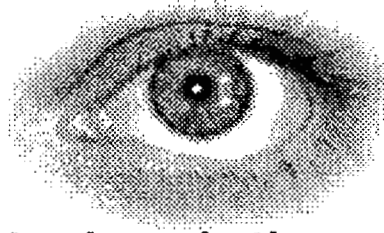

Look me in the eye

I live in [REDACTED] about 100 miles from the Davis-Besse plant. I can't believe in this day and age of modern technology that we have to put the public safety at risk to find energy sources to meet our needs. I think the risk far outweighs the benefits. I believe the plant in question should stay closed and perhaps be dismantled. The NRC should not be pressured by big business or public demand. The safety of the American citizen should be first. Let's hope that in the future there are not any accidents of horrific and catastrophe proportions. I believe in technology but not at the cost of human lives.

Fr. Pete Koschewick  

Dear Sir,

In conjunction with many of the concerned members of my community I am writing to express my hope that the NRC will take safety first in considering the condition of the Davis-Besse plant and its history of shoddy maintenance and poor administration, and, given that a closed plant still poses an imminent risk to the surrounding community, that you will insist on solid, realistic, renewable, and sustainable evacuation plans for all communities within a 600 mile radius around Davis-Besse.

Sincerely,

**Look me in the eye  
and tell me Davis-Besse is safe**

---

Dear James Dyer,

My name is Michael Thompson and I have lived all my life in [REDACTED] Oh. I am writing you as a new member of Ohio Citizen Action, who shares their concerns regarding the potential catastrophic danger of the Davis-Besse Nuclear Plant.

For me, our environment is too important to take any risks with. In fact I believe we must do more to heal and improve our environment, and I do not believe that re-opening the Davis-Besse plant is moving in that direction.

If I am incorrect in my assumption that the number one priority of the N.R.C. is to insure public and environmental safety, please write me provide insight into whatever the NRC views as more important.

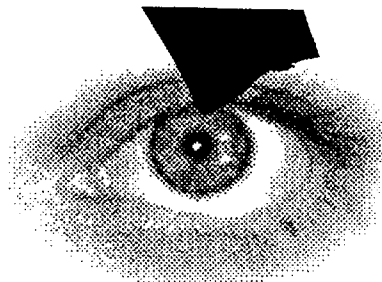

I would also like to hear from you regarding your plans for dealing with this issue at The Davis-Besse Plant.

Thank you for your careful consideration of this matter.

Sincerely, Michael Thompson

---

7/1/03

Dear Mr. Dyer,

I'm writing to let you know how concerned I am about the Davis-Besse nuclear power plant. I live twelve miles from Lake Erie, and my family and I would be very seriously affected by any nuclear disaster that could potentially take place at the plant. In 2002, we came dangerously close to such a disaster, and it worries me that something far worse could happen if the plant were to be reopened ~~and~~ and allowed to continue its business as usual. I urge you to keep the Davis-Besse plant closed. The top priority of the NRC, your organization, must be public safety, and not the economic needs of the energy companies, who, let's be honest, couldn't care less about the cost to human <sup>life</sup> ~~and~~ and the environment ~~caused~~ caused by their unscrupulous practices. Please contact me at the following address to alert me of your plans regarding this issue. Thanks.

Sincerely,

Jonathan Russell

Mr. Dyer.

Please help in keeping the  
Davis-Besse nuclear reactor  
closed.

Public Safety must be  
the NRC's top priority,  
not just Energy's schedule.

Your immediate response  
is appreciated.

Thank you,  
Pam Hassel

Look me in the eye  
and tell me Davis-Besse is safe

---

Mr. Dyer,

I'm writing to ask your help in keeping the Davis-Besse nuclear reactor closed. Public safety must be the NRC's top priority, not First Energy's schedule.

I live in [REDACTED], OH, with my wife and two children. My concern is primarily for my children's safety. Please Help.

My name is Thomas Hassel Jr.

[REDACTED]

Your immediate response is appreciated.

Thomas Hassel Jr.

MR. JAMES DYER, REG ADMIN.  
US NUCLEAR REG. COMM.  
801 WARRENSVILLE RD  
LISLE, IL. 60532-4351

DEAR SIR,

BE LOCATED IN [REDACTED] OHIO STILL  
PUTS ME WITHIN CLOSE PROXIMITY TO  
ANY NUCLEAR DISASTER THAT COULD  
OCCUR WITHIN ARE REGION.

THE NRL'S PRIORITIES SHOULD BE:

✓ PUBLIC SAFETY NOT SCHEDULING

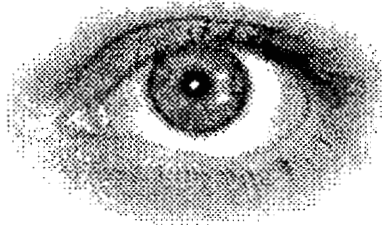

• THE DAVIS BESSE PLANT SHOULD  
REMAIN CLOSED UNTIL A COMPLETE  
OVERHAUL TO NUCLEAR POWER IS REVIEWED.

I <sup>2</sup> WOULD LIKE YOUR RESPONSE ASAP ON  
THESE CRITICAL ISSUES.

DON GROSSENBAUGH

[REDACTED]  
THANKS FOR YOUR TIME

DON GROSSENBAUGH

**Look me in the eye  
and tell me Davis-Besse is safe**

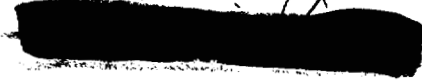

---

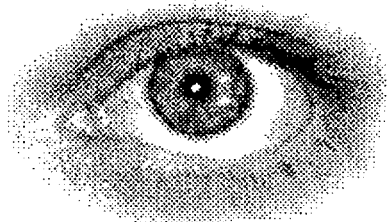

Dear Mr. Dyer,

Thank you for taking time in reading this and other letters concerning keeping the Davis-Besse closed. Anything that is harmful to people is certainly not acceptable when it concerns the health of human beings. Public safety must be the top priority.

Lake Erie is most essential in tourism and fishing which many people enjoy. This would be a real tragedy if our Lake Erie would be dangerously affected.

Sincerely,  
M. Ramsey

**Look me in the eye  
and tell me Davis-Besse is safe**

---

Dear Mr. Dyer,

I live in Ohio ([REDACTED]),  
not that far from the Davis Besse plant.

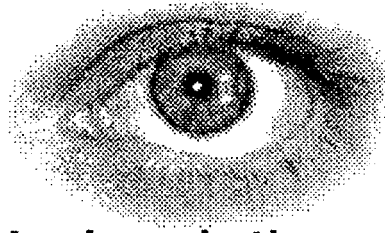

I am concerned about the safety of the  
plant. I hope you keep it closed until all  
safety issues have been examined. I help  
care for people with cancer (I do Bone Marrow  
Transplants). As you know, high levels of  
radiation in the environment put people at  
an increased cancer risk. I'm sure your  
administration will keep the best interests  
of the public foremost in their agenda.  
Thank you, and I hope to hear from

you.

Sincerely,

Laura Zydiak

Dear James Dyer,

My name Isaac Miller, and I live in [REDACTED] Davis-Besse  
has worried my and my family for a long time. None of us want  
to see everything we know die. Will it take a new Chernobyl for the you  
to realize the long term damage is not worth First Energy's profit.  
Keep Davis-Besse shut down, for all are sakes.

yours truly,  
Isaac Miller

[REDACTED]

Look me in the eye  
and tell me Davis-Besse is safe

---

Dear Mr. Dyer,

I live in [REDACTED] Ohio, it is on the shore of Lake Erie. Our concern with Davis-Besse is the damage it could do to Lake Erie and the surrounding cities. The Lake is very vital to this area, the resources and the businesses who need a clean and environmentally-safe lake.

I know there is a lot of pressure on the utility companies to find a way to come up with the cheapest way to get power but there also has to be concern about public safety as well.

Please keep Davis-Besse closed until you know for sure it is safe for our environment & well-being.

Thank You,

Bruce Kirsch

To.

Mr. James Dyer

I'm writing you this letter because with health care going through the roof, we should do everything in our power to prevent any disaster, to our health, or our water supply. If that means keeping, The Davis Besse Reactor close so-be-it I know because I had a Stroke Jan. 2002 I know what it mean to have good health.

Thanks

**Look me in the eye  
and tell me Davis-Besse is safe**

---

July 2, 2003

Dear Mr Dyer,

As a resident of Ohio, approximately an hour's drive from Davis-Besse, I am concerned about the safety of the plant. It is frightful enough to think of acts of terrorism, many of which we cannot control, yet alone to think of matters which can be controlled. I am aware of the positives of nuclear energy but the negatives are too great to be ignored. If there is any concern <sup>and I believe strongly there is,</sup> regarding a disaster, the plant should remain closed. Public safety should be of utmost importance. The effects are far more reaching than anyone can imagine.

Sincerely,

Diane Novakovic

July 3, 2003

Dear James E. Dyer,

It has come to my attention that you have the authority to keep Davis-Besse closed. After several incidents I feel that the plant should never re-open. It has been a threat to humans, wildlife and the environment. A leak into Lake Erie could be devastating. Please keep all these facts in mind while making your decision. Keep Ohioans safe! Thank you for your time.

Sincerely,  
Nancy Sawyers

Mr. Dyer,

7-1-03

I AM A CONCERNED CITIZEN  
ABOUT THE DAVIS-BESSE POWER PLANT.  
I DO NOT BELIEVE THAT IT IS SAFE.  
THE NRC SHOULD BE AS CONCERNED AS  
US CITIZENS ARE. NOT FIRST ENERGY.  
PLEASE KEEP DAVIS-BESSE NUCLEAR  
REACTOR CLOSED.

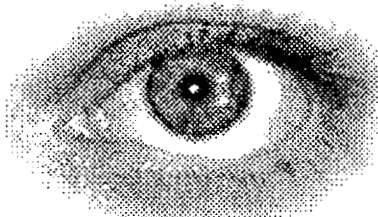

I AM CONCERNED NOT ONLY FOR MY  
SAFETY BUT THE SAFETY OF MY  
GRAND CHILDREN.

PLEASE GIVE THIS YOUR IMMEDIATE  
ATTENTION.

Barbara Matthews

BARBARA MATTHEWS

Look me in the eye  
and tell me Davis-Besse is safe

---

6-30-03

Dear Mr. Dyer,

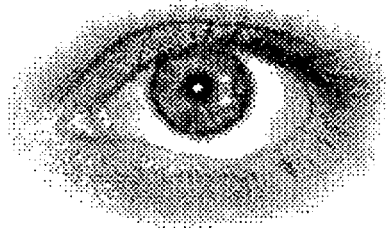

As a resident of NE Ohio I'm concerned with the NRC's rush to reopen Davis-Besse nuclear reactor after the near-disaster in March of 2002. The NRC's top priority must be public safety not whether First Energy is losing money.

My concern is that if a nuclear accident would occur the effects would be catastrophic and long lasting. Prompting hundreds of thousands of residents including myself to move from the area. Having been a life long resident of Ohio I would certainly not relish the thought.

I understand you have the authority to keep Davis-Besse closed I urge you to do so until the entire facility is checked and double checked, keeping NRC's responsibility to the public.

Included is my Name + address I would like a response immediately. Paul Mana  
[REDACTED]

Sincerely  
Paul Mana

Look me in the eye  
and tell me Davis-Besse is safe

---

Dear Mr. Dyer

I am writing this letter opposing  
the re-opening of the Davis-Besse  
Nuclear Power Plant. One only  
needs to look at the results of  
the accident at Chernobyl. Not  
only was there destruction to  
the environment, the deaths  
that occurred ~~but~~ and look  
at the birth defects suffered  
by the children born after.

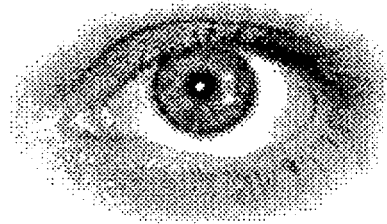

I am also concerned about  
what would happen to Lake Erie  
should an accident occur.

In light of 9-11 we are told  
that Nuclear plants could be  
a target. Why take a chance  
on an unreliable  
Plant;

Sincerely  
Jondra Conti

Look me in the eye  
and tell me Davis-Besse is safe

Mr Dyer.

I live in [REDACTED] Oh., so that's  
probably 35-40 miles from Lake Erie.

I believe the re-opening would  
affect where we live.

So keep the Davis-Besse Nuclear  
Plant closed.

Thank you

Look me in the eye  
and tell me Davis-Besse is safe

---

7-1-03

Mr Ryer,

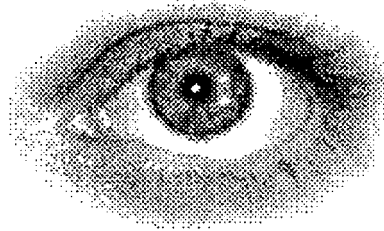

I live about 35 or 40 miles from Lake Erie. So the opening & closing of the Davis Besse Nuclear Plant would probably effect our community.

There is too much pollution going into our air, ground & water ways now and no one seems to care.

I am concerned about the re-opening of the Plant. It should never been built in the first place. So seal it off & keep it closed.

Thank you.

Look me in the eye  
and tell me Davis-Besse is safe

---

Being a huge fan of water sports, esp<sup>d</sup> fishing, I was appalled when I read about the irreversible damage done to the Great Lakes.

No good can come from contaminating & polluting any water source & why should we as taxpayers pay for & nuclear plants stupidity & lack of awareness?

Please keep the Davis-Besse nuclear reactor closed. The dangers are overwhelming.

Sincerely  
Anna Jamont

Dear James Dyer,

As a concerned citizen of [REDACTED] and a previous resident of [REDACTED] I feel it's best to keep the Davis-Besse closed, due to the fact that it is a disaster plant. Anything could happen! If there was a meltdown our lake would be contaminated, we'd have no where to swim, boat, or fish.

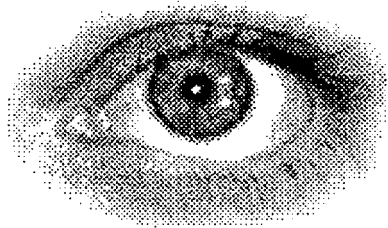

Beside that fact with all the terrorism going on around the world, this would be a potential target. And the effects that would have I can only imagine.

Please keep in mind the safety of not only the people but the safety of our nation.

Thank you, sincerely  
Michelle Timmons

Mr. Dyer,

I am a citizen of [REDACTED] I am writing  
in regards of this Nuclear Disaster Place  
Keep closed for we are some concern Citizens.

We are all concerned about our  
eating of fish and drinking of water  
among other health hazardous problems.  
So if you may, please give some  
consideration on the matter and keep this  
Place close down.

Thank You  
Jessie Evans

**Look me in the eye  
and tell me Davis-Besse is safe**

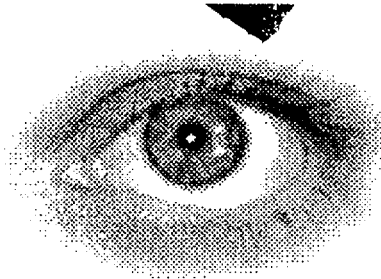

---

Dear Mr. Dyer,

I live in [REDACTED], Ohio, and I am concerned about the possible re-opening of the Davis-Besse nuclear power station. It is clear that this station is not safe and should not be allowed to re-open, because of the several close calls that have happened there, like when a hole was found in the reactor. The fact that this can happen there means that this power station would be very dangerous to public health if it were to re-open, and I am sure you agree that the safety of the people in this area and the health of the lake on which they depend is more important than FirstEnergy's plans for the plant. If an accident at the plant were to happen, Lake Erie would be permanently damaged, which would have disastrous effects on many millions of people. Please ensure that this plant remains closed and a disaster like this is prevented. I look forward to a response from you on this issue.

Sincerely,

Antonia Nemamich  
[REDACTED]

James E. Dyer, Regional Administrator  
U.S. Nuclear Regulatory Commission  
801 Warrenville Road  
Lisle, IL 60532-4351  
July 1, 2003

Dear Mr. Dyer:

A great ethical decision lies before you.

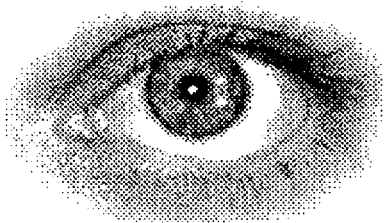

The Davis Besse nuclear power plant has had an extremely poor record regarding safety and health issues. Two near melt-downs in 17 years have threatened the lives of 12 million people downwind and in the Lake Erie watershed area. My family is among there.

Davis Besse is an aging plant whose productive life is limited (and whose energy is not needed). Mismanagement, negligence, and safety short cuts are inherent in such a situation. There cannot be serious and effective industry self-monitoring, as has already been shown. The only motivation for reopening this plant is private gain for First Energy. This does not justify the threat to the lives and economics of a whole region.

You have a choice: Choose Life.

I would appreciate (and expect) a timely response.  
Thank you.

Sincerely,  
Judith L. Appleton MD

TO: Jane M. Dyer, Regional Administrator

From: Nelson Defensor

[REDACTED]

We live in [REDACTED] Ohio and are  
concerned about the safety of Davis-Besse.  
The NRC's top priority should be  
SAFETY! - The nuclear reactor must  
remain closed until all safety  
issues are fully addressed and the  
public is fully informed.

Yours in Safety,  
Nelson Defensor

Look me in the eye  
and tell me Davis-Besse is safe

---

Mr James E. Dyer,

I live in [REDACTED], Ohio and my family and I are very concerned with the restart of the Davis-Besse nuclear power plant. This plant is old. It is located in a very sensitive environmental location. It should be retired. The possible consequences of a meltdown far outweigh the economic benefits of reopening this old and faulty plant. I request that you not allow Davis-Besse to reopen.

Sincerely,

Daniel Paxton  
[REDACTED]

Look me in the eye  
and tell me Davis-Besse is safe

---

July 1, 2003

Dear Mr. Dyer,

Are you people crazy? Why in  
the world would you want to deactivate  
Davis Bessie? For money? This doesn't pay  
much for you or your Nuclear Regulatory  
Commission. The issues involved here  
do outweigh the money from First Energy.  
The damage to Lake Erie alone could  
never be justified by money (or  
kickbacks) from First Energy. I live  
in Oberlin, OH, which is infinitely  
closer to the problem than Little, IL.  
I really think you should consider  
deactivating Davis Bessie.

Daniel L. Losko  
[REDACTED]

**Look me in the eye  
and tell me Davis-Besse is safe**

---

Dear Mr. James E. Dyer,

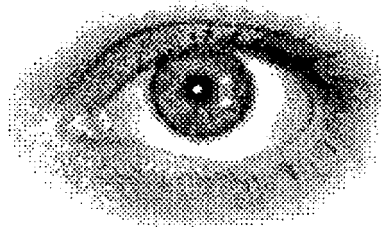

As a citizen of [redacted] Brandy, Ohio, I am concerned about the safety of those living around Lake Erie and the protection of the lake itself. The Davis-Besse nuclear plant is clearly a hazard both environmentally and publicly. The plant has a bad safety and maintenance record, and should be closed down in order to prevent a meltdown or some other such disaster that would not only threaten lives but also potentially destroy Lake Erie. Please ~~continue~~ keep the Davis-Besse nuclear power plant closed.

Thank you for your time.

Sincerely,  
Rebecca Lammons

---

Dear James Dyer,

Please keep the Davis-Besse nuclear reactor closed for the safety of all people living in this area. We need our lake for tourism, fishing, and agricultural industries and don't want Lake Erie damaged by the reactor.

Health concerns is another problem that would come up. Cancer deaths would surely happen.

Sincerely,

Jean Reno  

**Look me in the eye  
and tell me Davis-Besse is safe**

---

Dear Mr. Dyer,

As a resident of Northeastern Ohio I am concerned about the operating efficiency of the Davis-Besse Nuclear Plant. The plant management has failed to ensure the safe operation of this facility. The NRC must take firm action to prevent a nuclear disaster. FirstEnergy is either unable or unwilling to put money back into the plant and to abide by strict enforcement of the findings of the NRC. Consequently, I firmly believe that Davis-Besse should remain shut down.

The efforts by the government to weaken the NRC's ability to inspect and oversee the nuclear industry should be resisted. The NRC must remain a strong proponent of public safety within the nuclear industry. Please keep me apprised of the plans regarding Davis-Besse.

Thank you

Tina W. C. Zwegat

James E. Dyer, Regional Administrator  
U.S. Nuclear Reg. Commission  
801 Warrenville Rd  
Glen, IL 60532

Dear Sir:

As a citizen of [REDACTED] I strongly support any action to Keep the Davis-Besse nuclear reactor closed as it is obvious to me that this reactor in its present state cannot operate safely & endangers the lives of the citizens of Oberlin. The facility is additionally a threat to the waters of Lake Erie. As an Administrator of NRC your top priority must be the public's safety, & not First Energy's schedule.

Please Keep this reactor closed!

Sincerely & urgently,  
Carole Merty

**Look me in the eye  
and tell me Davis-Besse is safe**

---

To Mr. James Dyer

I am concerned about the lack of public safety in FirstEnergy's program. I live downwind from Davis Besse and I believe the Nuclear Regulatory Commission has not done its job to look after the safety of the citizens of this state or any state east of Davis Besse. I would certainly like to see Davis Besse closed.

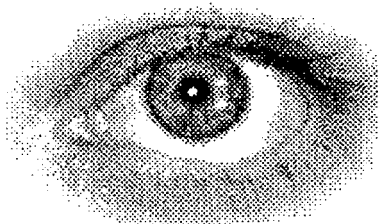

The government and its NRC must take good care of the environment both air and water (including all the Great Lakes.)

Please explain why this near disaster has been allowed to happen, as a ~~near~~ melt down would be fatal to many and injure so many more.

Thank you

Norma Ann Juskop

To: Nuclear Regulatory Commission,  
James Dryer  
801 Warrenville Rd.  
Lisle, IL 60532-4351

We live in the [REDACTED] and often  
used Lake Erie for fishing.

It is important to us the nuclear plant not  
operate until all safety issues are met or exceeded.  
Safety should be of utmost importance not any  
type of issues. If a meltdown did occur it would be  
too late to then say "only if we would have done this  
or that!" A meltdown could cost thousands to clean  
up and thousands of lives could be lost. So all  
we ask is that you make sure the plant is  
absolutely safe to operate - take no chances!

801 Warrensville Road  
Lisle, IL 60532-4351

Monday, June 30, 2003

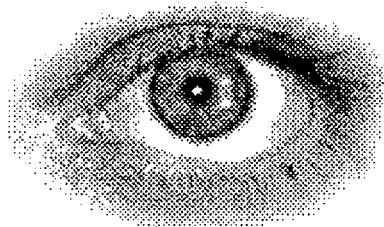

Dear Mr. Dyer,

This letter is to ask you to keep the Davis-Besse nuclear reactor closed. I am married with 2 children and live in [REDACTED]. I am deeply disturbed by the reports of near-disasters at the power plant. I just wonder how much has happened that we don't even hear about. I think the dangers of Davis-Besse far outweigh the benefits and I personally don't think it is worth having. We vacation annually at Put-In-Bay and Cedar Point in Sandusky and would hate to think about our favorite vacation spots being toxic to our health. It is very scary to think about what would happen to our drinking water in the event of a major disaster. Who needs terrorists, it seems as though we are sealing our own fate through negligence. The NRC is our last line of defense. If you aren't looking out for public safety, who is? Please think of my children's future and safety first, before you think of First Energy and their agenda.

Sincerely,

*Quette Gutter*

July Whitwell

June 30, 2003

[REDACTED]  
[REDACTED]  
James E. Dyer, Regional Administrator  
U.S. Nuclear Regulatory Commission  
801 Warrenville Rd.  
Lisle, IL 60532-4351

Dear Mr. Dyer,

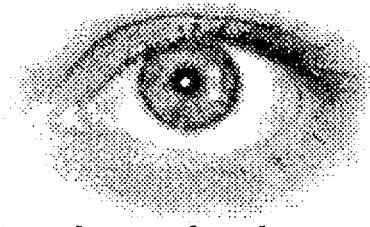

I am very concerned about the continuing operation of the Davis Besse nuclear power plant. The newspaper articles report of a hole found in the reactor, that could have potentially caused a meltdown. This risk is totally unnecessary for the citizens of Ohio. This meltdown would have caused irreparable damage to Lake Erie. Twelve million people live within the Lake Erie watershed and provide drinking water to eleven million people.

Please consider the option of keeping Davis Besse nuclear power plant closed. The current risks outweigh the benefits at this time.

Thank you for your time.

Sincerely

July Whitwell

US Nuclear Regulatory Commission  
801 Warrenville Road  
Joliet, IL 60538-4351

Dear Mr. Dyer,

I am a mother of 3 living in NE Ohio. We enjoy the beauty of Lake Erie and the surrounding areas. It is a good place to live and raise a family.

I am concerned about my family's safety if the Davis-Besse power plant is allowed to reopen. I feel that way too many questions have yet to be answered about the plant's stability and safety. I urge you to keep the plant closed until all legal matters are cleared up. In the face of public safety there is clearly no reason to rush to reopen a reactor which could still be potentially dangerous to the people of our region and the ecosystem of the great lakes. Surely FirstEnergy should feel the same. Sincerely, Linda A. Hasev

James E. Dyer, Regional Administrator  
U.S. Nuclear Regulatory Commission  
801 Warrenville Road  
Lisle, IL 60532-4351

RE: DAVIS-BESSE POWER PLANT

Dear Mr. Dyer,

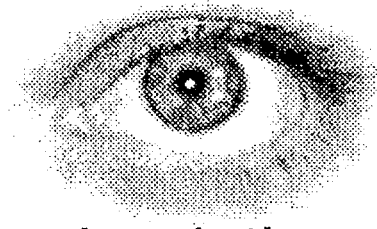

This letter is to request that you do everything within your power to keep the Davis-Besse Nuclear Power Plant closed. This plant is unsafe and a catastrophic accident waiting to happen. Please protect our Great Lakes, our drinking water and the lives and safety of our people as they all seem to rest in the hands of the Nuclear Regulatory Commission with regard to this matter.

Thank you for your anticipated consideration of this letter and those like it. It is our prayer that you will make the right decision. This country has enough problems without unnecessarily subjecting it to another; especially one of this monumental magnitude. We look forward to your response.

Sincerely,

*Brian & MaryAnn Chalmers*

Mr. James E. Dyer  
Regional Administrator  
U.S. Nuclear Regulatory Commission  
801 Warrensville Rd.  
Lisle, IL 60532-4351

Dear Mr. Dyer:

Our family of four strongly objects to the reopening of the Davis-Besse nuclear reactor.

We are strongly concerned about past safety issues, i.e., two recent near-disasters at the power plant; and about safety issues for our children's futures. Public safety should be your top priority.

Thank you for your immediate response to this important issue.

Sincerely,

Anne K. Konderson

  
June 30, 2003

James E. Dyer, Regional Administrator  
U.S. Nuclear Regulatory Commission  
801 Warrenville Road  
Lisle, IL 60532-4351

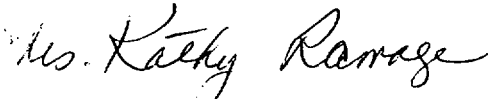

Dear Mr. Dyer,

The purpose of this letter is to ask your support in keeping the Davis-Besse nuclear power plant closed. Until proper repairs and inspections are made at this plant, it poses a very serious health and environmental risk.

The water supply for Cleveland and the surrounding suburbs come from Lake Erie. Irreversible damage would result if a meltdown would occur at this plant.

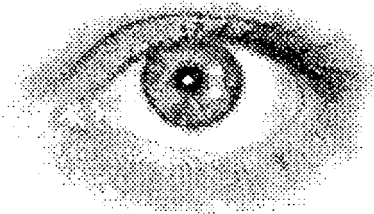

Please remember the top priority of the NRC must be public safety! Again, I ask your support and would appreciate your response to my request.

Sincerely,

Mrs. Kathy Ramage

Look me in the eye  
and tell me Davis-Besse is safe

To: James E. Dyer, Regional Administrator  
U.S. Nuclear Regulatory Commission  
801 Wrenville Rd.  
Lisle, IL 60532-4351

Fr: Kathleen A. Roberts

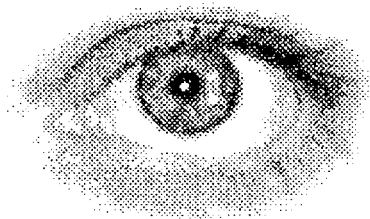

[REDACTED]  
[REDACTED]

We live in a southern suburb of [REDACTED] Ohio  
and consume the water from Lake Erie. I want to  
believe that the NRC protects citizens first and  
answers to business second when safety is concerned.  
Poisoned water innocently consumed is something you  
and your colleagues @ the NRC can control and  
prevent.

Please keep the Davis-Besse nuclear reactor closed.  
I await your response to this urgent matter.

Very sincerely,

K.A. Roberts

Look me in the eye  
and tell me Davis-Besse is safe

---

Dear James C. Sizer,

I live in [REDACTED] Ohio and my concern for my family's safety is to close down Davis-Besse. There is enough sickness and disease in this world. By keeping Davis-Besse open we are at risk for my cancer and other related issues. By keeping this plant open can you guarantee me 100% that nothing would ever happen. NRC's first priority is safety. If you have to question yourself then why keep it open?!

Can I please have an immediate response please!

Sincerely,  
Nancy A. Zahr

[REDACTED]

Look me in the eye  
and tell me Davis-Besse is safe

[REDACTED]  
James E. Dyer, Regional Administrator  
US Nuclear Regulatory Commission  
801 Warrenville Road  
Fair, IL 60522-4351

Dear Mr. Dyer:

Please consider using your authority to keep the Davis-Besse Nuclear Power Plant in northeast Ohio closed. Twice it has come very close to a melt-down nuclear disaster, in 1985 and again in 2002. Thousands of people's lives would be destroyed and affected by a meltdown in this metropolitan area! Also destroyed would be Lake Erie, a freshwater Lake providing tourism, fishing, agriculture, and recreation to millions of people each year.

My family and I have lived here over 50 years. I don't want to see our lives unalterably changed by a nuclear accident. As a Registered Nurse with the Cleveland Clinic Health System, I serve on our Disaster-Preparedness Team. I know how serious radiation-sickness is; how little can be done to decontaminate and save people's lives.

Please keep the Davis-Besse nuclear reactor closed. Safer energy generation must be explored in other ways.

Sincerely,  
Susan M. Sizella

6/30/03

James E. Dyer, Regional Administrator  
U.S. Nuclear Regulatory Commission  
801 Warrenville Rd.  
Lisle, IL 60532-4351

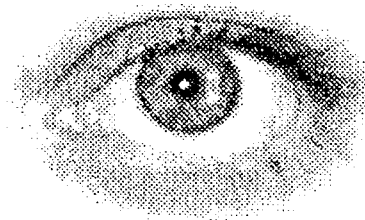

Dear Mr. Dyer,

I am writing to state that as a [REDACTED] area resident, I am very concerned about the slipshod safety record at the Davis-Besse nuclear plant. Surely the safety of our air and water supply is more important than the corporate greed of First Energy. Please work to keep the Davis-Besse facility closed until these safety issues are resolved. Training and regular maintenance must be in place before the commission can consider reopening the plant.

Thank you for your time. What does the commission plan to do about this issue?

James E. Dyer, Regional Administrator  
U.S. Nuclear Regulatory Commission  
801 Warrenville Road  
Lisle, IL 60532-4351

Dear Mr. Dyer

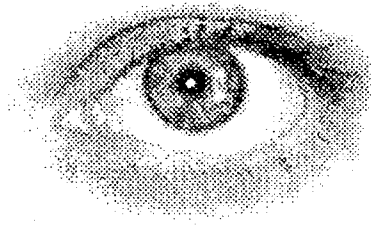

I know we are a country that runs on electricity but is the Davis-Besse Nuclear Plant safe? I live 30 minutes from Lake Erie in Brecksville, a suburb of Cleveland. The Davis-Besse Nuclear Plant was closed down because it was unsafe. My question to you is what has been done to make it safe? What safeguards are in place to prevent potential meltdowns? What safe guards are in place since it was built on an earthquake fault line?

I do not want the plant open if unless we've been assured that every measure has been taken to keep the public safe. Having electricity at the risk of our health does not seem to me to be a good trade off.

Sincerely,

Sandra K. Lupica

801 WARRENVILLE ROAD  
LISLE, IL 60532-4351

RE: DAVIS-BESSE NUCLEAR POWER PLANT

MR. DYER,

I LIVE IN [REDACTED], OHIO, AND I AM

CONCERNED ABOUT THE SAFETY OPERATION PROCEDURES OF DAVIS-

BESSE. I FREQUENT THE LAKE IN THAT AREA, AND WORRY ABOUT

POSSIBLE ENVIRONMENTAL CONTAMINATION OF THAT AREA. PLEASE

KEEP THE PLANT CLOSED UNTIL ALL SAFETY MEASURES ARE

MET TO INSURE NO OTHER POSSIBLE ACCIDENTS, SUCH AS THE

PAST TWO, COULD EVER HAPPEN.

THANK YOU FOR ATTENTION IN THIS MATTER,

Steve Petroski  
[REDACTED]

July 7, 2003

James E. Dyer, Reg Admin  
US Nuclear Reg. Commission  
801 Warrenville Rd  
Aisle, IL 60532-4351

Dear Mr. Dyer:

We live in [REDACTED] County, but do spend a lot of the summer in the Port Clinton Area of Ohio. We are concerned about the safety of the Davis-Besse plant and hope that it will be kept closed until it is absolutely safe and will be constantly monitored if it is reopened. The damage that could be caused from leakage would be devastating to our Lake Erie and would not be worth re-opening the plant. Electric Companies need to find a different means to save energy. Something that would be more safe for all of us.

Sincerely

Mr & Mrs. [REDACTED]  
[REDACTED]

Look me in the eye  
and tell me Davis-Besse is safe

---

Dear Mr Dyer.

I am writing you in regard to the Davis Besse power plant. I live in Cuyahoga Falls Ohio and am greatly concerned with the overall safety of this plant. The peoples health and welfare must come first in any thought of reopening this plant. where does the loyalty lie, with just energy or with the people. If this plant were to have a meltdown, north east Ohio which is already struggling would become a wasteland.

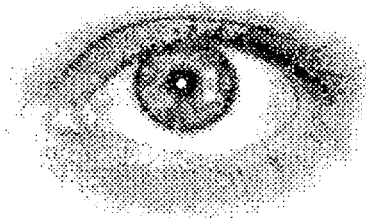

If this type of thing were left up to the voters, I would vote (NO) to reopening the plant its just not worth it.

I would like your response to this please let me know as soon as possible.

Thank you-

Kevin Santos

**Look me in the eye  
and tell me Davis-Besse is safe**

---

Mr. Dyer,

My Family & I live in [REDACTED] We  
are very concerned with this nuclear plant.  
NRC's First priority must be public  
safety. Opening this plant does not hold  
the public's safety as its First priority.  
This plant must stay closed at all  
costs. Please respond to:

Tom Nagel

[REDACTED]  
[REDACTED]  
[REDACTED]

P.S. A very concerned citizen wants  
your immediate response

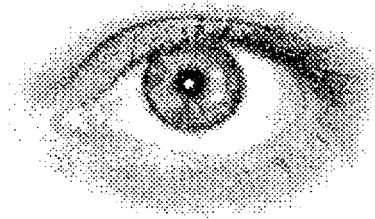

**Look me in the eye  
and tell me Davis-Besse is safe**

---

WE AT [REDACTED] HAVE READ THE  
PETITION AND AGREE WITH THE OHIO  
CITIZEN ACTION GROUP TO KEEP THE  
DAVIS-BESSE NUCLEAR POWER PLANT

CLOSED. Although there have been no major  
problems thus far, I believe the risk is greater  
than the need for this plant. The plant is too  
close to Lake Erie and metropolitan areas  
and First Energy needs to consider the health  
and safety of its community and consumers instead  
of worrying about their own growth of wealth. A fallout  
from that plant would affect more than their wallet,  
it would cost innocent lives miles around. Please  
reconsider opening this plant here and if it has to  
be done, relocate to a desolate area far from  
Ohio and innocent civilians.

Thank you for your time,  
Jennifer Lee & Jason Filby

Look me in the eye  
and tell me Davis-Besse is safe

---

Hello Mr. James Ayl-

Please keep us SAFE and make sure

Davis-Besse is upto and sur-pases all  
standards. we don't need any more  
deaths.

July 2, 2003

Dear Mr. James Dyer,

My name is Jen Conkey and I live with  
my husband and 2 1/2 yr. old son in  
[REDACTED] OH.

We visit Lake Erie each year to  
boat and swim and are very concerned  
about the safety of the water, air,  
and land surrounding Davis-Besse  
nuclear power plant.

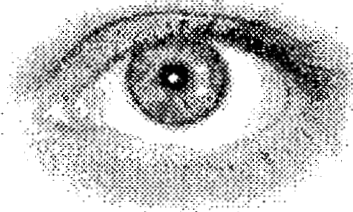

I feel that the Davis-Besse plant  
should be closed due to possible  
contamination to Lake Erie and the  
surrounding communities.

I am counting on you to make  
sure this happens.

I look forward to a response from  
you on this matter.

Sincerely,  
Jen Conkey

Mrs. Jen Conkey  
[REDACTED]

Look me in the eye  
and tell me Davis-Besse is safe

Dear Mr. James E. Dyer, Regional administrator  
U.S. Nuclear Regulatory Commission:

After Reviewing the information provided by the Ohio Citizen Action organization concerning the ~~hazards~~ hazards regarding the Davis-Besse nuclear power plant I feel as a lifelong Ohio resident that there are numerous health hazards proven over and over again and there is no question that this plant should be closed and closed for good. From the information I have read and heard about people will already suffer health problems and possibly death in the present and near future. Did we not endure enough crisis and pain on September 11, 2001 from the terrorist attack on New York, Washington D.C. and Pittsburgh PA. You may say this is apples and oranges but once again the government had knowledge of the attacks on 9-11-2001 but did not respond. Please let's do not make the same mistake again, let's use this valuable information and protect our women, children & families of Ohio.

Once again please consider the facts and do the right thing and once again close this plant.

Sincerely,  
Michael H. Veldsignore

Look me in the eye  
and tell me Davis-Besse is safe

7-2-2003

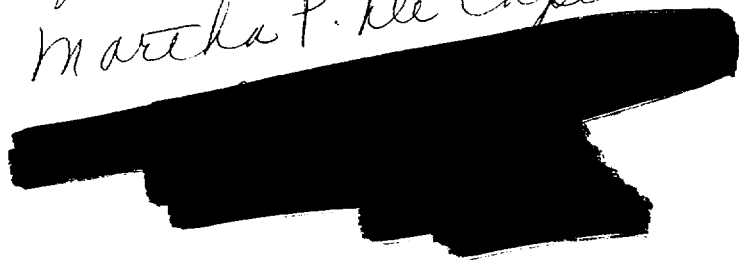

As an environmentalist I firmly believe that the Davis-Besse nuclear plant should be closed forever.  
We all live not too far from the plant and we are all in danger from it.

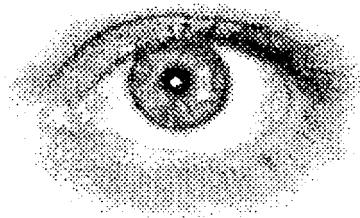

What would happen to our area's, our Lake Erie + our human lives if the plant would explode, we would all die + didn't have a chance.

Please continue to do your work on this issue for all of us people, animals, air, pollution + our food.

God Bless you in your work + Continue to do your great work.  
Mrs. Martha P. McCapite

Keep me

**Look me in the eye  
and tell me Davis-Besse is safe.**

---

Dear James Dyer:

I believe that if the meltdowns  
could have happened then it would  
cause major damage and many  
people to become sick. I'm very  
worried about everything that  
could happen. And many people could  
be in late life and effect the  
eco-system. I'm very concerned about  
my wife and my families to  
know that Davis-Besse's nuclear  
power should be closed for people's

the people's safety

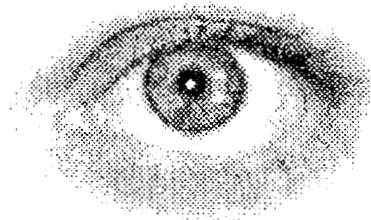

**Look me in the eye  
and tell me Davis-Besse is safe**

---

Dear James E Dyer:

It is my understanding that if a meltdown at Davis Besse were to happen that it could cause major damage. I live in the Boardman area and this may happen and it would affect my family and myself. Many horrible things may have happened back then and I'm afraid it may come or even happen if Davis-Besse does not close or relocate to a place where things of all kinds cannot be harmed. So the point of my letter is to say that Davis-Besse should be shut down for the safety of many Ohio Residents.

Sincerely,  
Concerned  
Resident

Look me in the eye  
and tell me Davis-Besse is safe

---

Dear James E. Dyer:

I am very concerned about the  
nuclear spill because it could harm  
many people around the Boardman  
area. If it affects Lake Erie then all of  
the fish would die and then the eco-  
system would go bad. I think that  
Davis Besse's nuclear should be  
shut down. Please reply as soon as  
you can at

James E. Dyer, Regional Administrator  
U.S. Nuclear Regulatory Commission  
801 Warrenville Road  
Lisle, IL 60532-4351

Dear Sir:

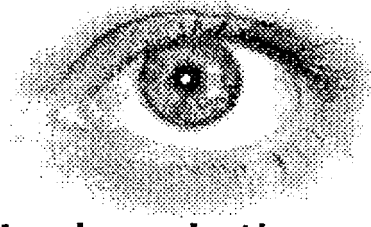

I have been living about 300 feet from the south shore of Lake Erie for the past 36 years. I have been drinking Lake Erie water for most of my 65 years. I have enjoyed the beauty and taste of this lake for quite some time, and I would like to continue doing so.

What I've been reading about the problems at the Davis-Besse nuclear reactor has concerned me directly and personally. I was pleased when Davis-Besse was finally closed and disturbed when I read that it may re-open. I am writing to urge you to work to keep it closed, for the safety and health of the citizens and environment in this Great Lakes area. One of the greatest issues facing our nation is to begin to use safer sources of energy, other than nuclear or fossil fuel. Your first duty is to public safety, not to FirstEnergy's schedule.

I would appreciate a prompt and personal reply to my concerns.

Sincerely yours,

  
Joseph J. Bascone

Look me in the eye

July 7, 2003

Dear Mr. Dyer,

I'm writing regarding my great concern over the Davis-Besse Nuclear Plant. My family and I live in Olmsted Falls, Ohio. We have a wonderful, healthy, happy ten year old child with a bright future ahead of him. My concern is for his future, our future and everyone's future if you choose other than keeping Davis-Besse closed.

Please choose public safety and life over First Energy's schedule. Make your decisions based on the same decisions you would choose for those you love. Keep the Davis-Besse nuclear reactor closed.

Because I am concerned for the safety of my family, I would like to know your response to this letter.

Sincerely,  
Susan Orris

**Look me in the eye  
and tell me Davis-Besse is safe**

---

My name is Linda Rivera and I live in [REDACTED] OH. It has been brought to my attention the environmental damage a nuclear power plant may cause upon a community. In particular my community would be effected by the Davis-Besse plant. It is my understanding that the NRC's top priority should be public safety not first energy's goals and objective which may result in harm. Are you willing to take personal responsibility for all the damage that may result from a meltdown. I am not convinced the possibility of a meltdown is that unrealistic. Davis-Besse power plant should remained closed. I challenge you Mr. Dryer to respond to my letter to state your point and convince me that this plant can only be beneficial to me and my community. Sincerely,

Linda Rivera  
[REDACTED]

Look me in the eye  
and tell me Davis-Besse is safe

---

Mr. Dyer,

My wife, two children and I live in [REDACTED]  
[REDACTED] which until recently seemed far from Davis-  
Besse. The 5x7 inch hole in the reactor brought it  
lots closer. Pretty scary stuff.

We need electricity and ~~that~~ that is a simple fact,  
but electricity won't help if Davis-Besse melts down.  
Please keep it closed and deal with it. You have a tough job,  
I realize. You wouldn't have it if you didn't have it in you to  
do it properly. Thanks.

Dave Schubert

[REDACTED]  
Don't respond to this letter with anything but action  
toward keeping us safe.

July 2, 2003

Carl E. Kocian

Mr. James E. Dyer  
Regional Administrator  
U.S. Nuclear Regulatory Commission  
801 Warrenville Road  
Lisle, IL 60532-4351

Dear Mr. Dyer:

I am writing this letter on behalf of myself, my wife and our extended family all of whom live directly downwind of the Davis-Besse nuclear power plant. We have lived in the shadow of Davis-Besse since it was built. We have followed the shenanigans of its owners from the beginning of construction until now including the two near meltdowns and various other "incidents". Each event was followed by a promise to operate the plant safely. All these statements regarding safer operation were lies. Nothing changed and the danger to us all is as strong today as it ever was. Production over safety is standard operating procedure and will never change as long as Davis-Besse is allowed to operate.

We are bemused by the increased security at Davis-Besse following September 11. Any casual observer has already concluded that the most significant danger to the 12 million people who live in the Lake Erie watershed is not from terrorist action aimed at Davis-Besse but rather from the actions of Davis-Besse's owners and operators. They have a long track record of corner cutting, ignoring safety issues and general lack of concern for the safe operation of Davis-Besse.

Therefore, given the dismal track record of Davis-Besse and it's owners and operators it is my conclusion and that of my family that Davis-Besse must be permanently shut down and all fissionable material removed from the site. We feel that the owners and operators of Davis-Besse have already clearly demonstrated many times over that they cannot and will not run the plant safely. Thirty years of broken promises and lies are enough. **SHUT DAVIS-BESSE DOWN.**

Sincerely,

A handwritten signature in cursive script that reads "Carl E. Kocian".

Carl E. Kocian

A handwritten signature in cursive script that reads "Susan K. Kocian".

July 5, 2003

James E. Dyer, Regional Administrator  
U.S. Nuclear Regulatory Commission  
801 Warrenville Road  
Lisle, IL 60532-4351

Dear Mr. Dyer,

My Family and I have lived in the [REDACTED] Ohio area for more than 36 years. We have enjoyed the community as a safe place to raise our children. By the same token, we have enjoyed the clean air, clean drinking water, and the resurgence of Lake Erie as a clean, safe, sparkling jewel of the Great Lakes. We are concerned that all of that may be in jeopardy. The Davis-Beese nuclear reactor is a major threat to our beloved Lake Erie, and to the millions of people who rely on that Lake to provide a place of recreation, scenery, and most importantly, drinking water.

It is our opinion that the NRC's top priority must be safety, and not the concerns or issues faced by First Energy. We urge you to exercise your authority and keep the Davis-Beese nuclear reactor closed. For the safety of our children, our wildlife, the entire Great Lakes system, and us, this reactor must remain closed.

Your plan of action is of great interest to my family and me. We would appreciate a response to our concerns as soon as possible.

Sincerely,

Anthony S. Zalba

Jay Levan  
[REDACTED]

James E. Dyer, Regional Admin.  
U.S. Nuclear Regulatory Commission  
801 Warrenville Road  
Lisle, IL 60532-4351

Mr. Dyer,

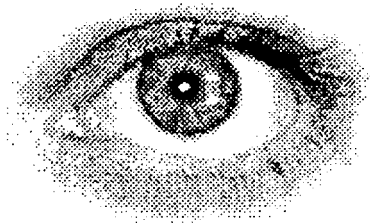

I live in the eastern suburbs of [REDACTED] OH and I am concerned with the safety record of the Davis-Besse nuclear power plant. I am more concerned with the safety of my family and community than the interests of FirstEnergy. I can only hope that you have the same interests at heart.

Please keep the Davis-Besse reactor closed. And, please respond to let me know how you plan to proceed.

Thank you for your attention,

Jay Levan  
[REDACTED]

**Look me in the eye  
and tell me Davis-Besse is safe**

---

Dear Mr. James Dyer; 7/3/03

Please, use the powers  
you hold in the best interest  
of the people of Ohio.

Allowing First Energy to restart  
operation of the Davis-Besse  
nuclear plant would present a  
clear and present danger to  
the health and safety of Ohio's  
citizens. Do not put profits  
and corporate greed ahead of  
the welfare of Americans!

**Look me in the eye  
and tell me Davis-Besse is safe**

---

James E. Dyer  
Regional Administrator  
U.S. Nuclear Regulatory Commission  
801 Warrenville Road  
Lisle, IL 60532-4351

Dear Mr. Dyer,

I live with my family in [REDACTED] just east of the city of [REDACTED].  
I have read in the paper about the neglect to the Davis-Besse nuclear reactor  
and how close it came to a crisis.

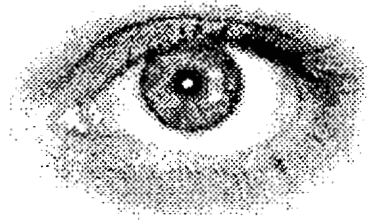

Unless you and FirstEnergy can assure me that this kind of accident could  
never happen in the future and can outline steps taken to prevent it, I would  
prefer that the reactor remain closed.

I think it is time that we explore other means of providing energy to our  
population. Nuclear energy is not worth the risk.

I would appreciate a reply to this letter to let me know your plans.

Sincerely,

Virginia Dodo  
[REDACTED]

JAMES E. DYER  
REGIONAL ADMINISTRATOR  
U.S. NUCLEAR REGULATORY COMMISSION  
801 WARRENVILLE ROAD  
LISLE, IL 60532-4351

DEAR MR. DYER:

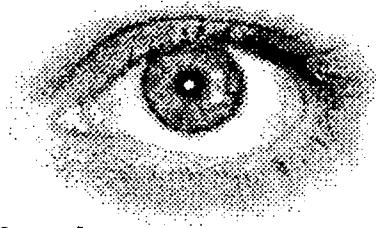

MY FAMILY HAS BEEN NOTIFIED OF THE PROPOSAL TO REOPEN THE DAVIS-BESSE NUCLEAR REACTOR IN NORTHEAST OHIO. MY FAMILY IS VERY CONCERNED BECAUSE OF THIS NUCLEAR REACTOR'S DANGER TO PUBLIC SAFETY AND THE ENVIRONMENT. I DON'T BELIEVE REOPENING IT WOULD BE WORTH THE RISK OF POTENTIALLY CAUSING HEALTH PROBLEMS FOR THOSE WHO LIVE NEAR IT.

PLEASE DO NOT OPEN THE DAVIS-BESSE NUCLEAR REACTOR! KEEP IT CLOSED. WE CAN'T AFFORD TO FIND ANOTHER CRACK IN 3 YEARS. IT'S JUST NOT SAFE!

THANK YOU.

Husain Family

Look me in the eye  
and tell me Davis-Besse is safe

---

Dear Mr. Dyer-

7/2/03

I am a 24 year old elementary teacher. I live in [REDACTED], Ohio with my family.

I am writing because of my sincere concern with the continuance of the Davis-Besse plant's operation. I believe the plant has been shown to be HIGHLY unsafe and the effects on community upon melt down to be unquestionably DETRIMENTAL for the future.

As a teacher of young children, I urge you to keep this plant closed to protect not only the surrounding communities, Lake Erie, and the people involved, but to maintain the safety of future generations! I am talking about children NOW. Not FirstEnergy's interests!

Thank You, Marla Zmich

**Look me in the eye  
and tell me Davis-Besse is safe**

---

James E. Dyer, Regional Administrator  
U.S. Nuclear Regulatory Commission  
801 Warrenville Road  
Lisle, IL 60532-4351

Dear Mr. Dyer,

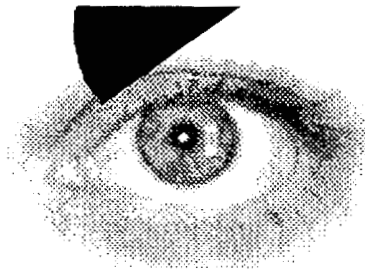

I live in [REDACTED] Ohio and I am concerned that the Davis-Besse nuclear power plant might be re-opened. FirstEnergy has proven to be an unreliable administrator of this power plant. I do not trust that they will ever put safety before profit.

The twelve million people who live in the Lake Erie Watershed, including seventeen metropolitan areas with more than 50,000 residents, are counting on you to keep Davis-Besse closed. Lake Erie is too valuable of a resource for us to allow anyone to endanger it.

Thank you for making sure that NRC's top priority is public safety and not FirstEnergy's schedule.

Sincerely,

Thomas J. Hinders  
[REDACTED]

Look me in the eye  
and tell me Davis-Besse is safe

---

Dear Mr. Dyer:

I was born in Kiev and spent 10 years of my life there. When the Chernobyl nuclear power plant melted down my family evacuated the city and did not return for 2 weeks. Fortunately for us, the fallout cloud passed north of the city and the worst thing that happened to us was that we had to throw out our furniture. I am sure that you are familiar with the effects of the fallout elsewhere and that you regard what happened as a tragedy. I am not implying that the events at Davis-Besse are quite as ~~as~~ disastrous as the Chernobyl meltdown, but I have seen too many people suffer from fallout to not be seriously worried. Please do everything in your power to close and overhaul Davis-Besse and all other nuclear power plants at night possibly malfunction in the future for easy preventable reasons. I hope that I will never have to write such a letter again.

Sincerely:  
Viktor Shmagin

Look me in the eye  
and tell me Davis-Besse is safe

---

Dear Mr. Rye,

I am a citizen of [REDACTED] Ohio  
and I am concerned about the safety of  
the Davis-Besse nuclear reactor.

I don't feel safety issues have been  
adequately addressed in the past and  
want to see the reactor kept off line  
until public safety can be the number  
one issue in importance. This plant is  
downwind from a major metropolitan area  
and there is a serious potential for disaster  
if it continues to operate with disregard for  
safety as it has in the past.

My name is Patricia Lotman, 8019 Richard M.  
Broadview St. OH 44147 and I would appreciate  
your views on this important matter.

Thank you  
Pat Lotman

My name is Kelli Lewis

I live in Streetsboro, OH

P/s Keep the Davis-Besse  
Nuclear Reactor closed

Thank you  
Kelli Lewis

Look me in the eye  
and tell me Davis-Besse is safe

---

We hope you keep This plant closed because  
The dangers & monetary costs, as well as Health costs  
outweigh The benefits which only help The power  
Companies & Tax The common workers.

It Time our representatives start supporting The  
Little Guy & Forget supporting The Large Companies  
in exchange for campaign funds.

Lets give The Little guy a chance to gain a leg  
up in The old world.

Let's Tax The big Companies like we  
Tax The Little guy.

Sincerely  
Purdy John Ruzmich

Keep Davis-Besse nuclear reactor  
closed for safety reasons.

Christine Shelby

Look me in the eye

**July 3, 2003**

**James E. Dyer, Regional Administrator  
U.S. Nuclear Regulatory Commission  
801 Warrenville Road  
Lisle, IL 60532-4351**

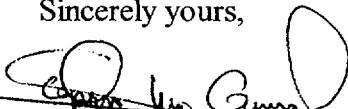

**Re: Davis Besse Nuclear Power**

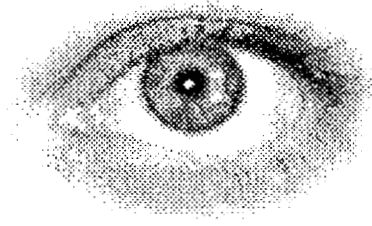

The plant is a major concern of everyone in N.E. Ohio, based upon the experiences, and its problems. As you know, on March 6, 2002, there was a hole discovered and Boric acid leaked through cracked pipes, leaving only three eights of an inch of stainless steel cladding to seal the reactor. This could have lead to a meltdown, had the cooling system not have worked. There have been two such incidents in the past, where the public has come close to being exposed to deadly nuclear material.

My family has donated to help put out the word that the plant should not come on line, and if you allow this, we are willing to do whatever it takes to get this plant shut down, as it should be. It is not worth endangering human lives, after all, haven't Americans lost enough in the past two years, to take any chance at losing lives. Moreover, if you let this come on line, and the unthinkable happens, I think that you would find yourself in a position that would in fact create moral and legal issues that would *overwhelm* you. Thus, this is not a small matter, and you must considered the "what if's", and make your decision base upon possible lost to human life, and not costs of providing energy.

Please consider not putting the Davis Bessee Plant back on line.

Sincerely yours,

  
Stephen William Gumpf

July 1, 2003

Mrs. James Dyer,

While recognizing the need for electric generation, I also want to make sure those living in the far reaching areas of the Davis-Besse plant are safe.

Please do not allow the facility to re open until it can ensure that the safety of the staff and populace in that area of Ohio is guaranteed. Having a daughter and her family living near another nuclear power plant also allows for the threat of terrorism to become real.

Sincerely,  
Norey Bracht

Look me in the eye

Amy Gordon

---

James E. Dyer, Regional Administrator  
U.S. Nuclear Regulatory Commission  
801 Warrenville Rd.  
Lisle, IL 60532-4351

July 1, 2003

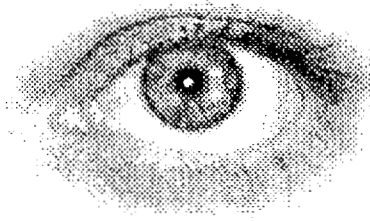

Dear Mr. Dyer,

I am writing to voice my concern for the safety of my family and friends in Northeast Ohio. I teach children everyday, and I am very aware of the effects a disaster could bring into their lives. The opening of this power plant may endanger the safety of our future. I would hate to imagine that these young children that I watch grow every day may have to clean up the mess that we make by deciding to open a plant that is not necessary in our community.

I believe it is your job to determine if this is safe for the community, and not be waived by First Energy's schedule. I ask that you hear my voice and consider the children that may deal with the future impacts of your decision. Please keep the Davis-Besse nuclear reactor closed. I believe that you will make the best decision. I hope that it is the one that is not going to have to be reconsidered in the near future.

Sincerely,

Amy L. Gordon

James E. Dyer  
U.S. Nuclear Reg. Com.  
801 Warrenville Rd.  
Lisle, Il. 60532-4351

Dear Mr. Dyer,

I live in Norton, Ohio, but even if I lived in another country, I would have grave concerns about the continuous use of a nuclear power plant such as the Davis-Besse plant which has <sup>such</sup> a dubious history. The safety of workers and all human beings and our precious environment should be the top priority in your decision making.

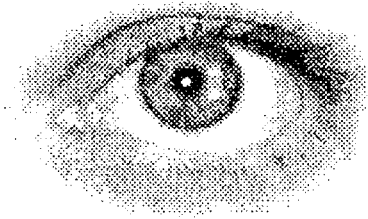

Two near-disasters and memories of Chernobyl, should be enough to demonstrate that the dangers of operating such a facility far outweigh its benefits.

I urge you to not allow "BIG BUSINESS" to make your decisions for you, and to listen to the voices of reason and your heart.

I look forward to a response at your earliest convenience.

Thank-you.

and tell me Davis-Besse is safe

July 1, 2003

Dear Mr. James E. Dyer,

I am a college educated "Stay-at-Home" wife and mother of three school aged children. I have lived in Ohio all of my life. I formerly taught elementary school in Portage County during the mid 1980's to 1990's. My family and community are at the top of my priority list. Safety is not negotiable for my loved ones! I strive to keep those I care about physically, mentally, and spiritually safe.

At this time, my family needs your help. Please use your authority and influence to keep the Davis-Besse Nuclear Power Plant closed. The U.S. Nuclear Regulatory Commission must make public safety its top priority. Ohio citizens - old and young need your help to remain protected from a devastating nuclear meltdown! My husband and I live near Akron, Ohio. Thank you!

Sincerely,  
Laura A Hill

---

Mr Dyer,

With the information that has been supplied to me, I feel that the Davis-Besse plant should stay closed. I am concerned about the economic & environmental factors that are involved. I can't believe that it could be safe for the community. When the hole in the reactor was found - when was the last time that it was checked? These things need to be strictly regulated, especially when a plant is in a residential area with a public drinking supply nearby. The NRC's top priority should be public safety. Until the public can be 100% certain that this issue has been taken care of, completely. The reactor should remain closed - period!" Thank you for your time

MRS. JOANNE SECURE

Look me in the eye

Suzanne B. Croce

James E. Nyer  
Regional Administrator  
U.S. Nuclear Regulatory Commission  
801 Harpersville Road  
Sike, Illinois 60532-4351

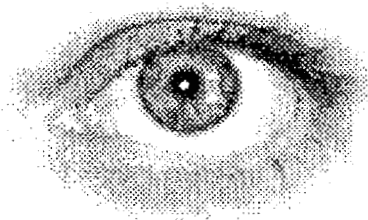

Dear Mr. Nyer:

While energy from nuclear sources  
may some day become safe and  
efficient, we have not attained  
that level of efficiency.

I urge you to keep the Davis-Besse  
plant closed. The system is  
currently set up in a backward  
fashion. Plants are built and placed  
into use prior to a thorough under-  
standing of how problems can be  
solved or an understanding of how  
to slow wastes from nuclear plants.

As a resident of Ohio and the United  
States, I implore you to use your  
knowledge to further research  
in this area in order to find other  
energy sources - such as solar.

James E. Dyer, Regional Administrator  
U.S. Nuclear Regulatory Commission  
801 Warrenville Rd.  
Lisle, IL 60532-4351

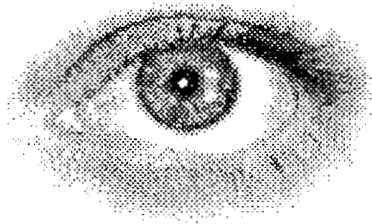

Dear Mr. Dyer:

I am writing to express my deep concern regarding the Davis-Besse nuclear power plant. This plant must remain closed for the health and safety of our citizens. As a public official your #1 priority should be the citizen's safety. If an accident were to occur, think of the number of innocent people and children it would affect. Immediately it would affect the people that live close to the plant, but also, what about the long-term effects on others? The deaths, cancer, suffering. Could you live with that - knowing you have the authority to prevent something like this from happening? This would also affect our Great Lakes. My family lives in Ohio near Lake Erie. I urge you to protect Ohio's water supply. The only way to ensure everyone's safety is to keep Davis-Besse closed. I ask for your humanitarian support on this.

Sincerely,

Mrs. Majka

Look me in the eye  
and tell me Davis-Besse is safe

---

Beverly + John Lacy

[REDACTED]

Dear Mr. Dyer:

We appreciate the fact that the Davis-Besse plant provides electrical power to a great many people. However, it is not a great help if we can't drink the water, our soil is contaminated so we can't eat the vegetables grown in the soil, or our lives threatened by cancer. Can you look into the eyes of a small child dying from cancer and defend that plant? How was the plant able to have a 5"x7" hole in the reactor? Where are the safe guards and fail safe policies that are supposed to be in place? How many will die with a meltdown either from the initial reaction or slowly & painfully from cancer in the following months?

Mr. Dyer - do you wish your grandchildren to live nearly? Would you put their lives on the line?

John + Beverly Lacy

801 WARRENSVILLE RD.  
LISLE, IL 60532-4351

DEAR MR. DYER,

WE ARE WRITING TO YOU TO EXPRESS OUR  
CONCERN OVER THE UNSAFE CONDITIONS  
AT DAVIS-BESSE. WE LIVE IN A SUBURB OF  
CLEVELAND AND OUR SOURCE OF DRINKING  
WATER IS LAKE ERIE, WHICH IS BEING  
JEOPARDIZED BY DAVIS-BESSE. WE SUPPORT  
THE CLOSURE OF THIS UNSAFE FACILITY.  
THE <sup>PROTECT</sup> HEALTH AND SAFETY SHOULD TAKE  
PRIORITY IN THIS MATTER, NOT THE  
WISHES OF FIRST ENERGY. THANK YOU  
FOR CONSIDERING THE WISHES OF THE  
COMMUNITIES AFFECTED BY DAVIS-BESSE.

SINCERELY,

  
LUCIA S. JANOLICH

Look me in the eye  
and tell me Davis-Besse is safe

---

My name is Henry Cameron, I live at [REDACTED] in [REDACTED] Ohio and am a concerned person. I am a boater as well as a sport fisherman and it the as a source drinking as well as sports and recreation.

By keeping a close tab on all power plants nuclear as well as water supplied is for the benefit of the people using any product they produce. Asking to close may be good but to keep a close eye is much better it tells then someone cares.

Henry Cameron  
[REDACTED]

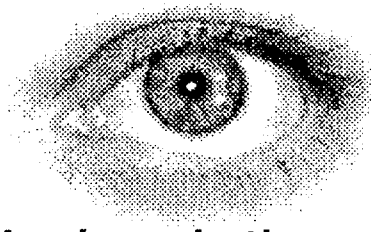

Look me in the eye  
and tell me Davis-Besse is safe

---

Mr. Dyer,

My family and I are writing this letter  
in reference to the Davis-Besse nuclear plant. We  
live at [REDACTED] in [REDACTED].  
are family ~~to~~ lives a short distance from the  
Plant. If there was an accident at the  
Plant are family is ~~not~~ definitely within  
arms way. an accident ~~who~~ would contaminate  
are ~~contaminated~~ community, schools & ~~our~~ home.  
Public safety is your main priority not  
first energy's pocket book. We ask that  
you please keep the plant closed for the  
safety of north east Ohio. ~~to~~ PLEASE  
respond to us IMMEDIATELY!

The Dieckmans  
[REDACTED]  
[REDACTED]

**Look me in the eye  
and tell me Davis-Besse is safe**

---

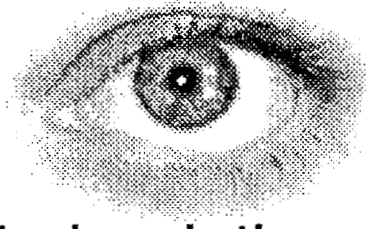

Mr. James E. Poyer

I live in [REDACTED] south suburb and I enjoy the peace, quiet and fresh environment. Also, I spent lot of time on the big lake boating and fishing. All these could be destroyed in the event of a meltdown. We can't just fill our pockets with wealth and have no respect for the people that live around and down wind of Davis-Besse. Lives can't be replaced and the rich can't be healed.

Keep the plant closed, keep our health and lives and our human future forever.

Concern citizen

Louis Christ

Look me in the eye  
and tell me Davis-Besse is safe

---

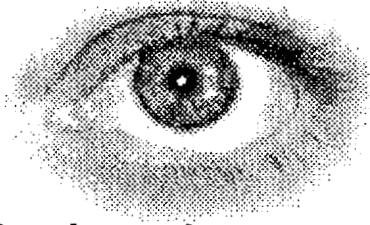

Dear Mr. James E. Dyer

Our family is very concerned about the Davis-Besse Nuclear Facility. It has come to our attention that the plant may be unsafe. As the authority in this matter, we believe you to be responsible for any health, environmental, and economic problems caused by this facility. We ask that you keep the public safety, and not corporate agenda your top priority in carrying out your task.

We are trusting you with this very important job.

The Maroney Family

OH

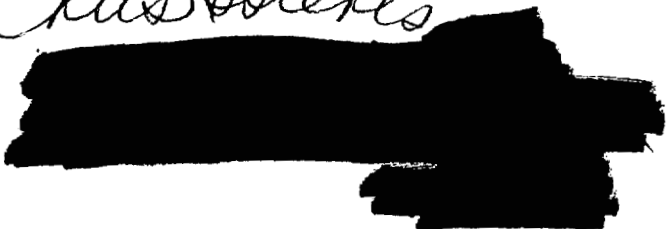

Look me in the eye  
and tell me Davis-Besse is safe

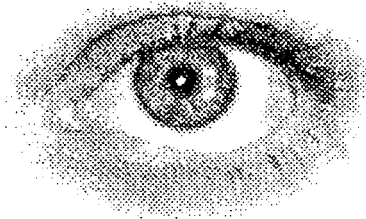

---

To James E Dyer,  
I live in Broadview Hts and am the  
mother of 3 small children. As a parent, I do  
whatever I can to protect my family & keep them  
safe. Can you say the same thing about your  
family? I implore you to not think about  
dollars & sense, but common sense and keep the  
Davis Besse plant CLOSED PERMANENTLY. With all the  
terrorist activity around the world endangering  
the safety of everyone, must we worry about it  
in our own backyard. I want my children to  
grow up healthy & happy & safe. Please consider  
everyone's letters & reach into your heart, not  
pocketbook, and agree with what we want.

Thank you for your time  
Chris Peters

July 7, 2003

James E. Dyer, Regional Administrator  
U.S. Nuclear Regulatory Commission  
801 Warrenville Road  
Lisle, IL 60532-4351

Dear Mr. Dyer:

I was approached this evening by a member of the Ohio Citizen Action group about the concerns of the potential danger associated with the Davis-Besse nuclear power plant.

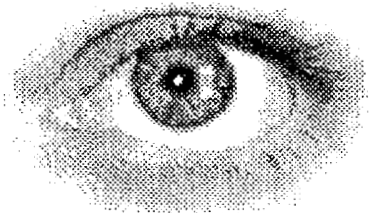

I am new to the area, just having moved here from New York. I'm not familiar with the OCA or it's political standpoint, but I do know how I feel about the possibility of a nuclear power plant melt down. According to the statistics that the OCA provided me with, a disaster at the Davis-Besse power plant is certainly a possibility and could be a threat to my family's health.

The Ohio Citizen Action group is calling for the permanent shut down of the plant. If that is the only way to ensure my family's and my neighbors families' health and safety, then I'm for the plant remaining closed.

Thank you for your time.

Sincerely,

Amy D. Fish

**Look me in the eye  
and tell me Davis-Besse is safe**

---

Dear James Dyer,

My name is Matthew Paradis and my family and I believe that the Davis-Besse Plant should be kept closed due to the dangers at hand as well as in the future. We feel that re-opening the plant threatens many many citizens because of the problems with the plant in the past and the drastic aftermath that can occur in the future if these problems re-occur and become even worse. This risk we are not willing to take so we want you to know that we, as citizens and neighbors, would like the Davis-Besse Nuclear Power Plant to stay closed!

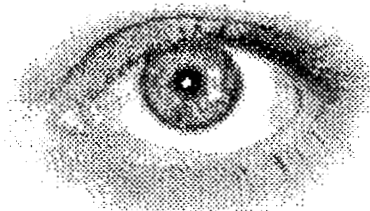

Thank you for your time.

Sincerely,

The Paradis Family

Matthew A. Paradis

**Look me in the eye  
and tell me Davis-Besse is safe**

---

Dear Mr. James E. Dyer,

Hello! I spoke this evening with a young woman who showed great concern that the Davis-Besse nuclear power plant should be closed down for good. She opened my eyes to this fact that this nuclear power plant should be closed for good. So, then she shared some facts with me if this power plant was to melt down. One of the most shocking of these facts was that 10,000 cancer deaths over the lifetime within a 25 mile radius of the plant was due to radiation.

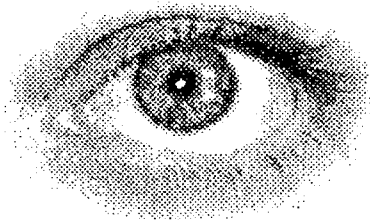

I thank you for your time. I would appreciate a return response letter from you. I believe that this nuclear power plant should be closed down for good. This is for the safety of everyone!

Sincerely,

Kathleen T. McCafferty

JAMES E. DYER  
REGIONAL ADMINISTRATOR  
U.S. NUCLEAR REGULATORY COMMISSION  
801 WARRENVILLE ROAD  
LISE, IL 60532-4351

DEAR MR. DYER:

I AM WRITING TO YOU AS A RESIDENT OF NORTHEAST OHIO AND AS A CONCERNED PARENT TO URGE YOU TO PERMANENTLY CLOSE THE DAVIS-BESSE NUCLEAR REACTOR. DURING ITS LIFETIME, DAVIS-BESSE HAS HAD TWO CLOSE DISASTERS AND FIRSTENERGY HAS DEMONSTRATED THAT IT IS MORE CONCERNED WITH ITS SHAREHOLDERS THAN WITH PUBLIC SAFETY. REMEMBER AS YOU WEIGH THE DIFFICULT ISSUES REGARDING THE DAVIS-BESSE REACTOR THAT YOUR TOP PRIORITY MUST BE PUBLIC SAFETY. PLEASE, FOR OUR FUTURE, KEEP THE DAVIS-BESSE REACTOR CLOSED FOREVER.

SINCERELY,  
ERIC MILLER

Look me in the eye  
and tell me Davis-Besse is safe

---

James Dyer,

I am a concerned citizen of  
[redacted], Ohio. I am requesting that  
you keep the Davis-Besse Nuclear Power plant  
closed. The power plant is located close  
to a heavily populated area, and an  
accident there could drastically affect  
millions, from our immediate health,  
to our drinking water & even the health  
of our unborn children. The devastation  
that would result from an accident  
would affect our area for generations  
to come. Please give this issue careful, close  
attention.

Sincerely,  
a concerned citizen  
Nancy Smith

July 9, 2003

Dear Mr. Dyer,

I live in [REDACTED] OH and am gravely concerned about First Energy's operation of the David Besse nuclear plant. What they have done is criminal and their upper management should be held accountable. Since First Energy has violated ~~the~~ public trust and does not care about my or my family's safety, health, and welfare, you must assume this duty. You must keep the David-Besse plant closed until it is safe to operate. I expect look forward to your <sup>immediate</sup> response to my letter. I can be contacted at:

Joe Kulig  
[REDACTED]

With best regards,

Joseph J. Kulig

---

James Dyer.

We live at [REDACTED] in [REDACTED]  
[REDACTED] as new residents to this area  
we are disappointed in the lack of concern  
for our safety & our children's safety. Public  
Safety should be your first concern. Keep  
the Davis - Besse nuclear reactor  
closed. Our family is counting on  
your decision.

Shirley & Anthony Sperelakis  
[REDACTED]  
[REDACTED]

Look me in the eye  
and tell me Davis-Besse is safe

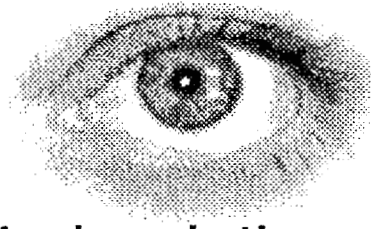

---

Mr. Dyer

I am writing to you to  
express my concern over the Davis-Besse  
nuclear plant. As my children grow older,  
I do not want to expose them to  
harmful chemicals like nuclear waste.  
Please take time to make the right choice  
in how you handle the ~~the~~ Davis-Besse  
plant. Think of your own family. We  
live in [REDACTED] but we enjoy  
swimming, boating + fishing in Lake Erie

Thanks  
The Foldes's

**Look me in the eye  
and tell me Davis-Besse is safe**

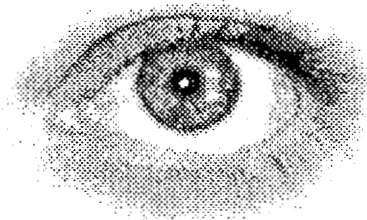

---

MR. Dryer,

I live in the [REDACTED] area and would like to address my feelings regarding the David-Besse nuclear power Plant closed. I feel that it is crucial for the health and safety of the area's population. My family and friends are concerned for the future of their children and grandchildren's economic and healthful future. Thanks for your time.

Sincerely -  
Janice Phillips

Janice Phillips

11-8-03

Mr. Ryer,

I object to restarting the unsafe nuclear reactor. I live in the path of nuclear fallout should there be an "accident". I have family within a 5 mile radius of the plant.

Public safety is the only acceptable priority for the NRC. This plant is unsafe. Please return to me your promise for the future of our children.

Theresa Gersz

[REDACTED]

[REDACTED]

**Look me in the eye  
and tell me Davis-Besse is safe**

Attention

Mr James Dyer of the NRC

You are the administrator who has the authority to keep Davis-Besse closed. It was to my great fear to hear there is such a severe damaging problem threatening my family as well as the other people in my community and surrounding areas. You would think we would all be more well informed of such a devastating disaster. Our water let alone the whole Great Lakes system.

My family lives in Rush County, it seems to me your priority should be keeping this reactor closed to not only insure my children of the best quality of life as well as your own family, the way we all struggle to maintain keeping our families health a environment safe.

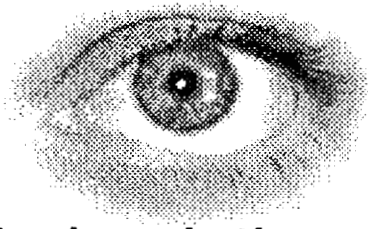

You have the power to keep us all millions of people out of Harm's Way

PS Please give  
me your response  
ASAP so I know my  
family is being  
kept safe

Thank you for your  
consideration

Cheers Kenneth

and tell me Davis-Besse is safe

---

Dear Mr Ryer -

My name is Yvonne Walters and  
I live at [REDACTED]

Ohio.

Our family is greatly concerned about  
the safety of Davis-Besse. We were lucky  
this time but may not be in the future.  
Please keep the Davis-Besse nuclear  
closed. I would appreciate a quick  
response -

Sincerely

Rae [REDACTED]  
[REDACTED]

July 8, 2003

James E. Dyer,

Too many near misses from  
Davis-Besse! Priorities should be safety  
and concern for everyone's future, not  
keeping FirstEnergy's schedule. Shut down  
until all problems are solved - better  
yet, keep it closed! Our lives are more  
important than making money. I am  
also concerned about fishing in Lake  
Erie. Contamination of our drinking  
water is also my worry.

Please respond immediately!

Linda Schubert

Linda Schubert

Please Keep US Safe!

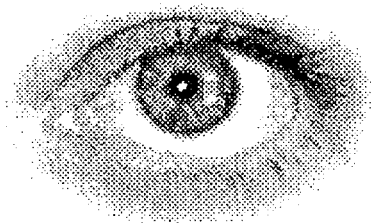

Dear Mrs. James Dyer

I live in [REDACTED] County and I am  
very concerned about the Davis

Besse plant. I am concerned for  
the catastrophe that might occur  
if the Davis Besse plant is not  
up to par. I hope that you  
really will think of the safety  
of the people that live  
around the nuclear plant. before  
you decide to reopen it for  
use.

P.S. Remember the decision you make  
can affect the future. Before you  
make it, make sure it is right.

Sincerely yours  
Carol Potter  
[REDACTED]

and tell me Davis-Besse is safe**

---

July 8, 2003

Dear Mr. Dyer,

We are residents of [REDACTED] Ohio and we are concerned about the danger that the Davis Besse plant poses to the health and well being of our family and our lake community. We believe that as regional administrator for the U.S. N.R.C. it is your duty and top priority to monitor the level of safety or lack of it that operation of the reactor presents to the residents and environment of the Lake Erie shoreline and the state of Ohio. Please send us the most recent evaluation of the plant's current status regarding safety and any recent investigations on the subject. Thank you for your time and consideration.

Sincerely,  
The Drabrak-Minnichs  
[REDACTED]

Look me in the eye  
and tell me Davis-Besse is safe

---

Mr. James Dyer,

My name is Jeff Tolley and my sons and I live in [redacted] Ohio. I have heard about the problems at the Davis-Besse Plant in Toledo, and am concerned about the possibility of it re-opening. With the possibility of a leak of some nature or explosion, and the fact we live so close it is of major concern. We are also avid fishermen and fish eaters, if it is not leaking into the air, what about the water we drink and the fish we eat!! With everything we hear, the plant cannot be safe and should not be re-opened. An response as soon as possible would be appreciated.

Sincerely,  
Jeffery Tolley  
[redacted]

Look me in the eye  
and tell me Davis-Besse is safe

---

Dear Mr. Dyer,

It has been brought to my attention that unless the problems at the plant are taken care of that there may be health and environmental concerns. Please, please look into this before it become a major problem. Not only with the people, but with the ability to work this plant.

Sincerely  
B Anderson

Look me in the eye  
and tell me Davis-Besse is safe

---

JAMES E. DYER,

I AM A RESIDENT IN LERAIN, OHIO AND  
I'M CONCERNED ABOUT THE NUCLEAR PLANTS IN  
OHIO BECAUSE THE SAFETY OF OUR WILDLIFE IS  
BEING REDUCED EVERY DAY. OUR WORLD IS POLLUTED  
ENOUGH AS IT IS AND IF AN ACCIDENT HAPPENED  
AT ONE OF THESE PLANTS OUR FAMILIES MAY  
BE IN DANGER ALSO. IF YOUR FAMILY LIVED BY A  
PLANT THAT WASN'T 100% SAFE I'M SURE YOU WOULD  
WANT IT SHUT DOWN ALSO. IF YOU WOULD, THINK ABOUT  
THE FUTURE AND KEEP THE NUCLEAR PLANTS SHUT  
DOWN. PLEASE SEND AN IMMEDIATE RESPONSE.

ANTHONY SANTO DOMINGO

Look me in the eye  
and tell me Davis-Besse is safe

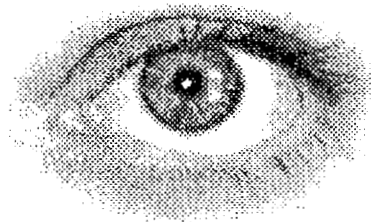

---

James E. Dyer,

I live at [REDACTED]

[REDACTED] in [REDACTED] Oh. and I'm  
concerned about the safety  
of the Nuclear plants in  
Ohio because of the workers who  
work there their families and  
our animals there is ~~enough~~ enough  
pollution in our air that we  
breathe we don't need anymore.  
NRC is supposed to be #1 safety of  
people not of some plant! Please  
write me back with a response at  
the address above.

Thankyou,  
Richard M. M. M.

Look me in the eye  
and tell me Davis-Besse is safe

TO EVERYONE CONCERNED.

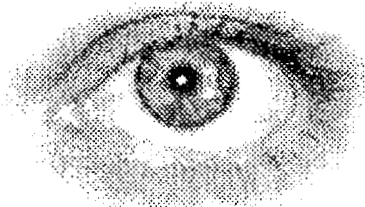

THE PROBLEM WITH NUCLEAR POWER IS TWO FOLD:

THE FIRST PROBLEM: RADIATION. AN INEVITABLE BY-PRODUCT. CONTAINMENT. DISPOSAL. THE PROBLEMS BECOME EXPONENTIAL. SHOULD OCCURENCES LEAD TO ACCIDENTS, START MULTIPLYING. CAN MAN CONTROL THIS POWER? I HONESTLY BELEIVE WE CAN. I ALSO BELIEVE WE WANT TO. CAN WE. NO. WHY?

THE SECOND PROBLEM. MANKINDS GREED TO MAKE MONEY. INSTEAD OF HARNESSING A POWER FOR THE BETTERMENT OF MAN, GREEDY CORPORATIONS INSTEAD WANT TO SELL THIS POWER TO THE PUBLIC. MORE PROBLEMS. BECAUSE IN THE QUEST FOR THE ALMIGHTY DOLLAR, GREEDY CONTRACTORS WILL USE SHODDY EQUIPMENT, MATERIALS, AND LABOR. TO MAKE THESE PLANTS. AND HUMANKIND INSTEAD OF BENEFITTING FROM WHAT COULD BE AN AMAZING, CHEAP SOURCE OF ALMOST LIMITLESS POWER, WILL MOST ASSUREDLY SUFFER AT THE HANDS OF THOSE WHO CONTROL THIS POWER.

I HONESTLY HOPE THAT THOSE IN POWER WOULD PUT THE WELFARE OF THE PUBLIC WHOM THEY ARE SUPPOSED TO BE SERVING AHEAD OF THE ~~XXXXX~~ ~~XXX~~ BENEFIT TO THE SHAREHOLDERS BUT ALAS WE ALL KNOW THE REAL TRUTH DONT WE?

NICHOLAS G. KUNCH

July 8, 2003

Attention: James E. Dyer, Regional Administrator

I have been a citizen of [REDACTED] County since 1962.  
My children and grandchildren also live here.

Lake Erie has always been a part of our lives  
and our memories. It has been a big reason for us  
to stay located in Lorain.

We're concerned about preserving our lake,  
considering the job status and all the unemployment  
it is certainly your most valuable asset and will  
continue to be.

Should a meltdown at the Davis-  
Besse plant happen,  
the repercussions to our lake, our health and our  
lives would be devastating. This is the reason I'm  
sending this letter to urge you to keep the Davis-Besse  
nuclear reactor closed!!

I'm sure you will agree with me that our public  
safety should always be the top priority above big  
business!

Thank you for your attention to this matter!  
I would appreciate hearing from you as to your  
consideration of the Davis-Besse nuclear power plant  
reactor reopening. I feel ~~this need~~ <sup>need</sup> to keep abreast of this  
situation. I look forward to your response.

Rebecca Nichols  
[REDACTED]

Sincerely a  
concerned citizen  
Rebecca J. Nichol
