

Look me in the eye
and tell me Davis-Besse is safe

7/1/03

James E. Dyer, Regional Administrator
U.S. Nuclear Regulatory Commission
801 Warrensville Rd.
Cleveland, IL
60532-4351

Dear Mr. Dyer,

I am a resident of [REDACTED], OH; I grew up in NE Ohio, and still have family members in that area. I'm writing to you today to ask you to please use your influence to keep the Davis-Besse nuclear reactor closed. I am very concerned about my health and the health of my children and parents; a meltdown at the plant could be catastrophic to their future well-being. In addition, the damage a meltdown would do to the environment of this state would be irreversible. Please keep public safety as the NRC's top priority, rather than the schedule of First Energy.

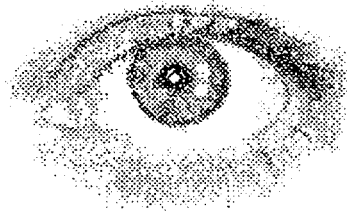

I respectfully seek your support on this issue, and ask for a response as soon as

possible.

Sincerely,
Karen Shriver

[REDACTED]
[REDACTED] '04
[REDACTED]

[REDACTED]

Look me in the eye
and tell me Davis-Besse is safe

We are Rebecca and Louis Elia
We live in [REDACTED] Ohio, and
[REDACTED] are very concerned of our safety
and everybody's close and near to
the Davis-Besse Plant. We use Lake
Erie as a vacation area. We feel
Public Safety is #1 First Energy
has shown it has had 2 close
disasters. Keep the Plant down
and don't let a good thing as
Lake Erie is turn into a disaster
area. It has taken long enough
to get Lake Erie Clean, Let us
not go backward, but go forward
Lake Erie does not need an Ohio Davis-Besse,
but it does need tourism, safety, fishing

and agriculture which greatly has
more benefits to our State,
than a disaster by First Energy.

Thanks

Rebecca and Louis Elia

Look me in the eye
and tell me Davis-Besse is safe

7.19.03

Mr. Jim Caldwell,

Please keep the Davis-Besse nuclear reactor closed. My family lives in [REDACTED], Ohio and we visit Port Clinton on weekends. It is so close to the Davis-Besse plant that we're getting concerned for our safety and the safety of others in the surrounding areas.

The NRC should be making public safety their top priority, not First Energy! Lake Erie has come such a long way in the cleanup over the years, it would be a shame

to take that away from all
the people who use it.

Would you like to live within
30 miles of a nuclear reactor
that has only $\frac{3}{8}$ of an inch of
steel sealing the reactor?

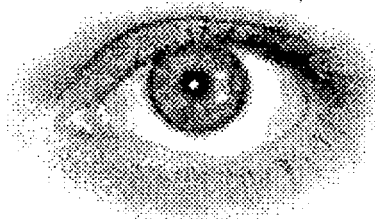

Wouldn't you be afraid for
your family and children??

Please keep Davis-Besse closed!

For the safety of everyone!

I would appreciate a reply.

Thank you,
Kathy Schaff

Look me in the eye
and tell me Davis-Besse is safe

MR. DYER,

I'M A RECENT COLLEGE GRADUATE WHO HAS LIVED
IN ~~OHIO~~ OHIO. FOR THE LAST 16 YEARS,
MY FUTURE IS AT STAKE, AS WELL AS THE FUTURE
OF OUR REGION.

PLEASE DON'T ALLOW THE BUSINESS INTERESTS OF
AN INDUSTRIAL UTILITY CONGLOMERATION COME BEFORE
THE WELFARE OF THOUSANDS.

SINCERLY

LOREN LARSON, AAS. IT-CNS

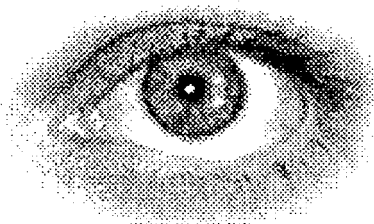

**Look me in the eye
and tell me Davis-Besse is safe**

James E. Dyer,

I am writing to express my support for the work of Ohio citizen action in keeping the Davis-Besse nuclear power Plant closed. Clearly the plant is currently unsafe, and given the discovery of a 5x7 in hole in the reactor on March 6, 2002, I think it is clear that safety cannot be promised in the future. Ohio has earned a reputation as a disgusting and polluted state, our status as one of the top 5 states as far as air pollution and the burning river are merely two examples. Help this state recover from past humiliations and earn a name for itself as the beautiful state that it is. Don't risk the safety of all those communities, both human and ecological, that depend on lake Erie for survival, don't risk the lives of all those, myself included, who are put at risk by Davis-Besse. A core meltdown would cause 10,000 cancer deaths and 1,400 radiation related fatalities, not to mention all those who depend on lake Erie for drinking water. Don't be responsible for the loss of these lives. Thanks for your support,

Sincerely,

Stacy Boone

Look me in the eye
and tell me Davis-Besse is safe

James E. Dyer,
Regional Administrator
Lisle, Ill.

Dear Mr. Dyer,
My wife & I were visited by your
cameras, Systona Kent today
We are aware that the hole in the
reactor was found @ Davis - Besse in
March of 2002 and agree that the
reactor should be kept closed until
complete assurances can be demonstrated
that it has been successfully made
safe again.
Please reply.

Charles A. Mathews, Jr.

We are not opposed to nuclear energy -
it is successful in Europe with safety precautions.
Why not in the US? all oil-free alternatives
should be pushed

July 1, 2003

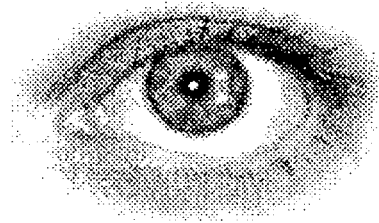

Dear Mr. Dyer—

My family and I live in [REDACTED], Ohio
and have been following the studies
on the safety of Davis Besse —
We know it's not safe and can't be made
safe without causing more contamination.

It's time First Energy abandoned the
nuclear power plants and put their
efforts into solar, wind, water research and
implementation. Northwest Ohio has
wind energy already while we big city
folk are still behind the times with our
antique nuclear generators.

Let's move into the 21st century Mr. Dyer

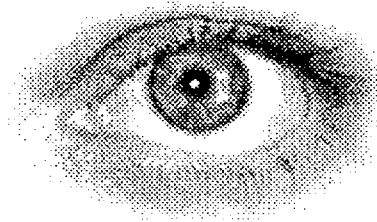

Susan J. Zel

**Look me in the eye

July 7, 2003

Dear Mr Dyer -

As a concerned resident, I am writing you to make you aware of the danger inherent in the Davis-Besse power plant. For years, we have heard so many problems arise, and then arise again. For our safety, and the health of the voting public, I would like to see this plant shut down until such a time when you can say with certainty, 'its safe'. Right now it is not, anyone telling you it is is a fool!

Thank you for your time
Mrs. Theresa D. Guss

**Look me in the eye
and tell me Davis-Besse is safe**

July 7, 2003

Dear Mr. Dryer -

I am writing you in regards to the Davis-Besse power plant. It is not safe, nor has it been safe for many years. We would like to see it shut down until it can be safe. There are too many dangers involved with this plant, and we don't want it in our backyards. Shut it down - or make it safe! Our lives depend on it.

Thank you for your time

Diane Miller

**Look me in the eye
and tell me Davis-Besse is safe**

To whom it may concern:

I would like to voice my concern over the Davis-Besse nuclear power plant. I think it is high time that this plant be shut down, and remain shut down. The operation of this plant cannot be put before the safety of Ohio's residents.

Keep Davis-Besse offline!

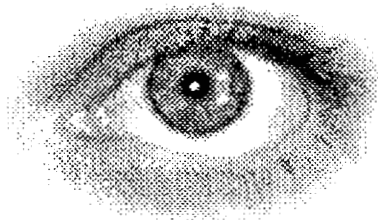

Kristine Brave

**Look me in the eye
and tell me Davis-Besse is safe**

keep the plant shut so
nobody gets hurt.

Amekelle
Ritchie

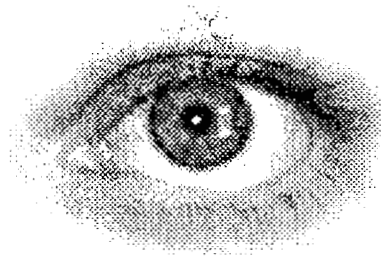

**Look me in the eye
and tell me Davis-Besse is safe**

Nuclear Power ...

Power beyond kept is stored w/in a singular. It has the potential to light a city or darken a land. But, what if, its dimensions fall short of its potential. Dragging behind security; allowing fault to mishappen the landscape it provides. Boom No its quieter... Blast... No its silent ~~~~~ gone.

Within the confines of construction there is always fault. The hands that build, cannot always contest to the quality of craftsmanship. A ^a spared expense; coupled w/ ignorance for the job could result in disaster; allowing for mishap of thousands.

Upon the soft current of a north coast body, cancer awaits to be pronounced. It lies brooding w/in piping and iron shield. Coal, petroleum and solar are its' enemy. To blast away all of its' boon and to serve. But what's expected of its' conscience? Nothing. It drifts among the peoples, unnoticed behind contribution, until the morning when it awakes and decides to let all of us KNOW. JB — 7/2/03/7:30 p.m.

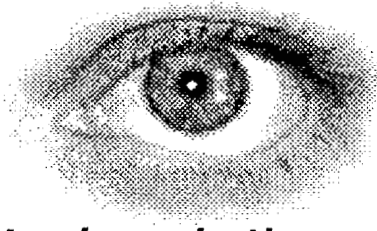

**Look me in the eye
and tell me Davis-Besse is safe**

Hello..... My NAME is NATHAN Steele. So far what I, myself, have heard that ~~there~~ WAS just almost A meltdown. With everyone that would be hurt & exposed to chemicals, I would have to say it would have been A real disaster. Therefore the plant needs to be shut down permenantly before something happens in which nobody want to happen.

Sincerely,

NATHAN
A.
Steele

Look me in the eye
and tell me Davis-Besse is safe

7-2-03

Mr Dyer,

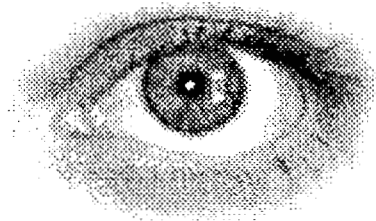

I understand there is to be a
Nuclear Reactor put in this area. For
health and universal reasons I fear this
would cause more harm to all citizens and
animals. There is so much cancer and
cancers now from the air we breathe. So
I fear this reactor is not a beneficial
idea.

Joan Spivey

**Look me in the eye
and tell me Davis-Besse is safe**

Please
Close
the
Plant
Dawn
Thayer.

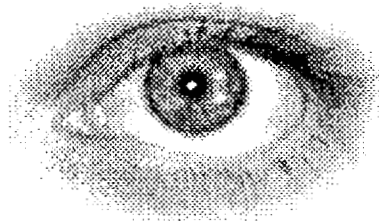

**Look me in the eye
and tell me Davis-Besse is safe**

Mr James E. Dyer,

I understand that the Davis-Besse reactor plant is very dangerous to our land and people in this area. I want my children & grandchildren to be safe & that's why I'm asking you to keep this plant shut down.

Sincerely
Betty Knoll
[REDACTED], Ohio

Look me in the eye
and tell me Davis-Besse is safe

To James E Dyer, Regional Administrator (USNRC)

I am a Ohio resident who is very concerned regarding the Davis-Besse power plant. "Power" being the key word here, I believe there are other forms to generate the "power" or function that Davis-Besse provides. We need to search and utilize ~~other~~ alternative forms of energy so that the area and the people and environment that Davis-Besse serves will not "suffer" from its closing.

We can not afford an accident of ~~any~~ any degree, and you know that's not good P.R. for any company. Please rethink your "policies" regarding the value of human life, plant life, animal life and our ecosystem as a whole compared ~~to~~ to the "value" of that nuclear power plant.

Please think of the future ~~of~~ of the plant has a meltdown - there won't be one.

~~Sincerely~~ Sincerely, Beth Shurtump

**Look me in the eye
and tell me Davis-Besse is safe**

To - Whom it MAY CONCERN
FROM - MR + MRS ROBERT SHERWOOD

IT IS OUR UNDERSTANDING THAT THE
DAVIS-BESSE NUCLEAR POWER PLANT IS
NOT SAFE.

PLEASE KEEP THIS PLANT OFF LINE UNTIL
THIS PROBLEM IS COMPLETELY SOLVED.

PEOPLES HEALTH IS MUCH MORE IMPORTANT
THAN THE POWER FROM THIS PLANT

YOURS TRULY
ROBERT AND GERI
SHERWOOD.

**Look me in the eye
and tell me Davis-Besse is safe**

FirstEnergy & NRC,

You have the sole purpose to protect the public health & safety, above the purpose of making a profit. It's the money from the tax payers and utility money spent to take care of the maintenance and up keep of the plant. So don't be so greedy to turn a profit, and jeopardize the health & safety of the public.

Concerned Citizen

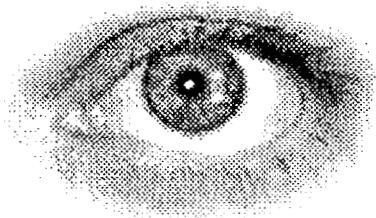

**Look me in the eye
and tell me Davis-Besse is safe**

Mr. Dyer,

I'm concerned about the nuclear power plant issue that's taking place right now. I am a mother of three children and a person who wants to live in an environment that is safe and clean. With all of the other problems that's going on in the world today, I don't understand why anyone would allow an unsafe and unprotective power plant to be in operation.

I hope that you give this issue the utmost respect and attention it deserves.

Sincerely,
Lisa Olin
[REDACTED], OH

Look me in the eye
and tell me Davis-Besse is safe 7.2.03

Dear Mr. Dyer:

As a concerned citizen regarding the
damage Davis-Besse would cause, I
would hope that you can with all
your power to put a stop to what is
very dangerous. I have ~~my~~ grandchildren
and I certainly would want no harm
done to them in anyway due to
Davis-Besse -

Sincerely

Salares R. de Domenech

**Look me in the eye
and tell me Davis-Besse is safe**

Dear Mr. Dyer,

I live in [REDACTED] and I am concerned for the safety & enjoyment of family in relation to the Davis Besse power plant. I am worried that a major disaster could occur. Given the track record of this company, I think that it is an unwise decision to allow the plant to reopen. Should another disaster occur (keep in mind they said nothing would ever happen again after the incident in 1985) it could have horrible far reaching consequences for all of North Eastern Ohio and those whose lives are affected by our great lakes. Please keep this plant closed for the safety & welfare of all.

Sincerely Julie Kruger

JULY 2 2003

James Dyer,

I live in [REDACTED] OH. I have a brother & most of his children living in or near [REDACTED] Ohio. I frequently fish in Ashtabula or Conneaut Oh. around & at Conneaut I have observed personal bubbles of gas being emitted near shore while I have been fishing. I am reasonably certain that the sub strata of the lake bed near Conneaut is not all that stable.

Several minor ear thquakes have been reported from that general area in the last 50 yrs. I am [REDACTED] yrs old & have experienced having dishes fall off shelves while I was in College at John Carroll Univ, in 1941.

I could never understand why that Nuclear Power Plant was built that close to the lake in the 1st place.

I would like to see it closed & dismantled for the good all in this part of Ohio.

Sincerely James Nagli

**Look me in the eye
and tell me Davis-Besse is safe**

Dr. Dyer,

As a parent I am concerned about the future for our children as well as ourselves. I live in [REDACTED] Ohio & want to keep Davis-Besse closed. Public Safety must be our first concern.

Sincerely,
Quinn [Signature]

Look me in the eye
and tell me Davis-Besse is safe

I am not against nuclear power plants,
However, I do feel they should be safe.
Without a doubt they should be totally
safe. It appears this cannot be said for
Davis-Besse. Either fix it, rebuild it, or,
replace it!

Thank You
John Green

Look me in the eye
and tell me Davis-Besse is safe

Dear Mr. Dyer,

Please keep Davis-Besse closed
till the ~~hole~~ hole is fixed

James J. Jany

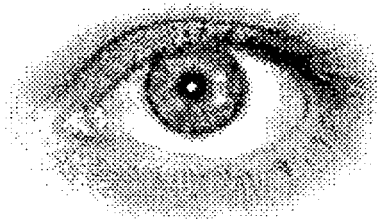

**Look me in the eye
and tell me Davis-Besse is safe**

Dear Mr. Dyer,

Please keep the Davis-Besse closed until the hole is fixed. I do not want to die from the radiation. I don't want our drinking water to be contaminated. That's our source to survive. Please don't open this building until you fix that hole!

Sincerely,

Natasha Rackard

James E. Dyer, Regional Administrator
U.S. Nuclear Regulatory Commission
801 Warrenville Rd.
Lisle, IL 60532-4351

Sir:

I am a retired senior citizen who has lived  of my  years on the shores of Lake Erie. I am continuing to have concerns about the impact upon our environment from such installations as the Davis-Besse nuclear reactor. Equally disturbing is the high incidence of various forms of cancer within the Vermilion community as well as surrounding areas. We are all concerned for our safety, not only from the viewpoint of our physical well-being but in the event of failure of the facility or terrorist activity.

At the very least, let's keep Davis-Besse closed.

Sincerely,

Patricia Zimmerman

Look me in the eye

VERMILION, OHIO 44089

July 2, 2003

Dear Mr. Dyer...

I'm writing you this letter to ask you to be 100% sure that if
The Davis Besse Plant or any other nuclear power plant is safe before the
OK is given to turn back on. There are too many lives and future
men, women, and children that will suffer if a big accident happens,
So please make sure that everything is at your own high standards
I would like a response from you about this issue in the near future
Please make sure that First Energy doesn't do anything that will jeopardize
our health.

Sincerely

Ernest Waters (Steelworker)
USWA 2354-10

Look me in the eye
and tell me Davis-Besse is safe

Dearest James E. Dyer,
My family has lived here for over
75 years. I am [redacted] yrs. old & I am
concerned highly about this problem.
I want it stopped. When I lived
in [redacted] in 91-94, the women
over there were having transparent
babies, due to the Chernobyl incident.
They are now trying to find ways to
skin graft these babies. I also
have children, and my family members
consist of over 175 just in this area
alone. Please excuse my penmanship,
but I am trying to get this out A.S.A.P.
We do not want our future & present
generations being exposed to these dangers.
Please help us. What happens to
any of us & our loved ones when no one

Dear James,

My name is Krystal
mom's and I'm ~~12~~ years old.

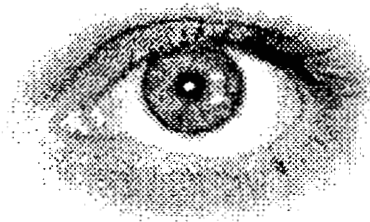

I know you might care what
I have to say, but I would
appreciate if you would listen.
The reason I'm concerned in this
problem is because you have
to think how it will effect
the people soon to be a part
of this world. Just stop and
think, most kids don't have
a future because of this
problem. For example my
family has a history of cancer.
~~and~~ Not ~~only~~ Just for something
either it's this nuclear plant.
~~The lake land and~~ The lake land and
air is being littered every
day. So if you keep the NRC
closed. Until you can put
Health and safety ~~in front of~~
in front of money and profit.
You can make a difference
in the ~~world~~ world.

I mean you might think.
One kid's opinion no big
~~deal~~ Deal kids don't know
much anyways. But you
have to think about the
children and Adults that
are dying ~~every~~ every ~~minute~~
minute of the day. If you
can I would love an
immediate ~~response~~ response.

o

~~oh~~ OH.

Thanks for your time
Kystal Morris
sorry so sloppy

801 Warrenville Road
Lisle, IL 60532-4351

Dear Mr. Dyer:

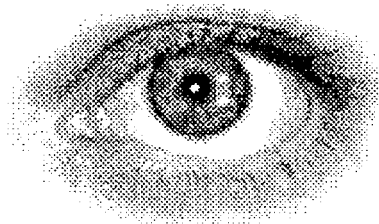

I live in [REDACTED] Ohio [REDACTED] of Lake Erie. I spent my childhood swimming in this lake and occasionally still do as much as I can although now it's more boating than swimming. I am [REDACTED] years young and have seen the lake get so polluted that it was said to be dead. I have also seen it revive to a great extent. In the past few years I have seen insects, "Canadian Soldiers," returning from the lake that I have not seen since 1950's. This shows me that the lake is getting cleaner finally. This took 50 years. If there is an accident at Davis-Besse, I don't think the Great Lakes would ever recover.

I do not feel that Davis-Besse should be reopened and especially not in its present location so close to the largest freshwater system in the world.

Thank you for your consideration,

Elaine M. Muha

James Dyer,
Nuclear Regulatory Commission

Dear Mr. Dyer,

I live in [REDACTED], a suburb of Cleveland, Ohio about 40-50 miles from the Davis-Besse facility.

The whole nuclear energy program was wrong from the start. If our country had put all the money, time, technology, and programs to convince the people of the United States, and the world, to accept nuclear energy, into natural energy programs such as solar, wind, and hydroelectric facilities, we could now be reaping the benefits of such energy sources.

Why put \$159 billion dollars into an obsolete, dangerous program as nuclear energy when we should be directing them to the above for the sake of the environment and future generations?

OF CANCER AT THE AGE OF 52
SO I AM AGAINST OF THIS
MY GRANDSON DIED AT THE AGE
OF SEVEN. I LIVE IN [REDACTED]
AT [REDACTED] AVE. AND
ANYTHING I CAN DO TO CLOSE
IT DOWN I WILL.

Lou Silvy

**Look me in the eye
and tell me Davis-Besse is safe**

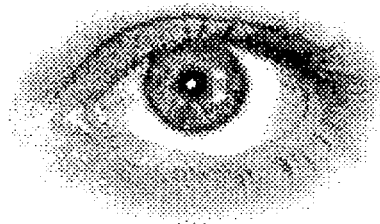

Mr. J. Dyer

My name is James Jordan, it has been brought to my attention the potential dangers that this plant (Davis-Besse) poses to the people who live near the great lakes, as well as the lakes themselves. The level of contamination that could occur due to faulty equipment, and (or) construction is unacceptable. Human life, and public safety need to be priority. So on behalf of myself and my family we ask that this plant (Davis-Besse) remain closed.

Thank You.

Sincerely

James E. Jordan
[Redacted] OHIO

**Look me in the eye
and tell me Davis-Besse is safe**

Please keep the Davis-Besse nuclear reactor closed as I believe it is unsafe for people in the area.

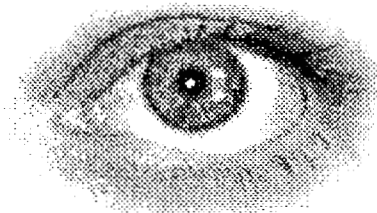

I live very near Lake Erie so I'm concerned about this also with health problems.

Florence Veroni

[REDACTED]

Ok.

[REDACTED]

Look me in the eye
and tell me Davis-Besse is safe

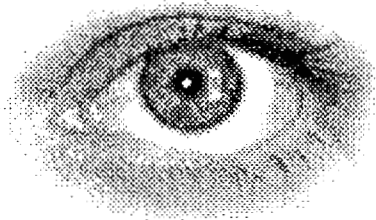

Dear Mr. Rye.

I live in [REDACTED] Ohio, down wind from
Davis Besse, I can't imagine what would have
happened if that lid would have melted thru.

They lied about the seriousness of the accident.
They forced a whistle blowing engineer over it.
and now this sump pump problem they
have, there going to try to fix it with a
unproved method. I don't think we can gamble
with things like this.

We are getting our electric non-stop
without Davis Besse so why take the risk.
Have them convert it to a coal burner.

John Simsik
[REDACTED]
[REDACTED] Ohio
[REDACTED]

Look me in the eye
and tell me Davis-Besse is safe

Mr. Hyer;

Please keep the Davis-Besse
nuclear reactor closed. I have family
and friends that camp in that
area and I don't want to see
anything happen to them.

Please send you reply to the
following address. Thank you
Lois & Clark

[REDACTED]
Ohio

Mr. James Dyer, I am told
that you have the power
to keep the DAVIS-Besse
Plant Closed.

I am [redacted] years old. I have
2 daughters and a lovely grand-
son. 8 months ~~old~~ and a lovely
wife. ~~I~~ I live to hunt and
fish. I look forward to taking
my grandson some day.

Please let the NRC's Top priority
be SAFETY, not FirstEnergy's schedule.

Please don't PUT \$ in front of
Common Sense.

Please keep the DAVIS-Besse nuclear
reactor closed. Thank you sincerely

Mike Pizzoferrato
[redacted] oh. [redacted]

Elected
MIKE SCHERACH

To Whom it may concern,

I live at [REDACTED]
[REDACTED] in [REDACTED] Ohio. I
DON'T THINK IT IS RIGHT
FOR YOU TO REOPEN THE
DAVIS BESSE NUCLEAR RE-
ACTOR AT ALL THERE ARE

7/8/03

Dear Mr. Dyer,

I am a resident of a westside Cleve. suburb and I am very concerned about the safety of the Davis Besse Nuclear plant.

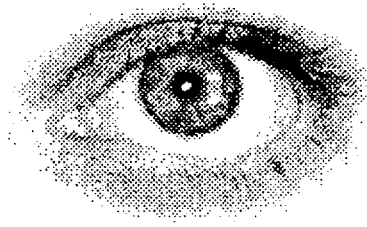

In my estimation Davis Besse is very unsafe and should not be reopened. Please remember that the NRC's primary task is to insure public safety, not appeasement of big business. Please work to keep Davis Besse closed until it can safely (if ever) be reopened.

Thankyou
John F. Reese

John F. Reese

[REDACTED]

[REDACTED] Oh. [REDACTED]

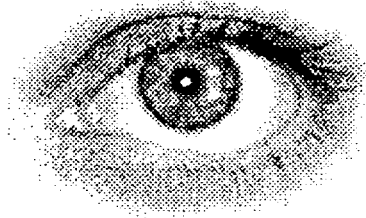

**Look me in the eye
and tell me Davis-Besse is safe**

We live in [REDACTED] and often
visit the Lake Erie Islands. We always
comment on what a danger Davis-Besse is
to the area, its people and Lake Erie.

The area is too important for the state in
order to take a chance on the nuclear plant.
Keep the plant closed for Ohio's sake.

Dorva Bevard

[REDACTED]
[REDACTED] Ohio

**Look me in the eye
and tell me Davis-Besse is safe**

Dear Mr. James Dyer of the NRC,

I am a ~~10~~ year old student about to go into the 7th grade this year and I just want to know that I will be going to be safe and healthy let alone my family. I am really concerned about this situation. I want to keep the Davis-Besse closed for my families own safety and other families and friends in our town of North Olmsted and in other surrounding cities. Yes the Davis-Besse is an amazing site but you still should keep it ~~it~~ ^{it}. As you said in your letter if something should go wrong there could be environmental problems and I care a lot about the environment around me with the Great Lakes and everything else. I also care about the Economic problems. Of all that money being used if something should go wrong. That is a lot of money. Instead of using it on the Davis-Besse you could be using it to save people/animals instead of making them unhealthy and safe! As you say at the very top of this paper "Look me in the eye and tell me Davis-Besse is safe", It is not safe.

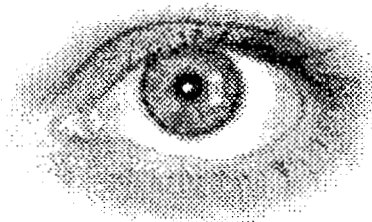

P.S.
As I said before
I want my family/friends
and I to be able to live
in a safe environment
Thank You

PLEASE RESPOND ASAP

Sincerely, TO:

Loren Kennedy

Lisle, IL 60532-4351

7/7/08

Dear Sir,

Whether the recent failures at the Davis-Besse installation are due to human errors compounded by technical errors/faults, is not the issue.

What is an issue is the potential for horrendous consequences from subsequent failures.

This is not merely an economic issue, it is a moral/ethical issue: do we risk injury & fatalities for dubious cost/benefit expectation?

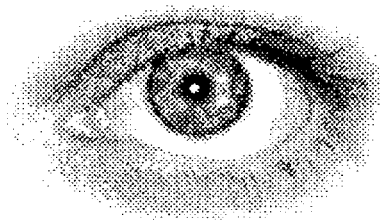

No!

Shut it down!

Thank you for your consideration.

Mary Kay Gahan

Look me in the eye
and tell me Davis-Besse is safe

Mr. James Dyer.

I am writing you in regards to the Davis-Besse near-disasters. Not only could disasters like the one that could've happened cause tremendous life-threatening risk to many humans & wildlife. The aftermath could indeed effect the whole eco-system. I & my family live in Cuyahoga Falls. We are not directly at the lake, however we do go up to the lake for a weekend relaxation time. This is something that we enjoy to do & look forward to. I would hate to have that pleasure be destroyed. I would also hate to have to worry every breath I take if I am being effected by the possible damage that could've been brought upon our community. The only solution

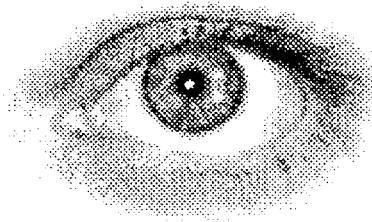

**Look me in the eye
and tell me Davis-Besse is safe**

that we (my family & I) ~~feel~~ is reassuring
to us and effective is that to keep the
Davis-Besse reactor closed. If proper
safety measures were put into place
monitored & followed the incident would've
never had happened. Therefore to prevent
further worry & possible life threatening
life long effects. The only result
is to keep the reactor closed.

Sincerely

Rob & Christina

Moran

7/3/03

Dear Mr. Dyer,

I have had 2 deaths in my family from the cancer caused by nuclear energy "problems". First Energy has failed to manage the power plant adequately. And promises by the company and by NRC have failed to give the safety required for our safety. The benefits to the general public are much outweighed by the dangers. Some of the past "close-emergencies" just shaved a small part of the possible dangers that would occur if Davis-Besse had any further accidents / miscalculations. It would affect our water, our environment, our future generations (I have just been blessed with my 6th grandson -) who have great futures to lose with any mistakes.

Please let me have some feedback to reassure my concerns about the future of our area - thank you Jean E Carr

Look me in the eye
and tell me Davis-Besse is safe

7.7.03

Mr. Dyer,

Please consider keeping the Davis-Besse
nuclear reactor closed until such a time
when we can be assured of the safety of
our communities.

Thank you for your thoughtful consideration.

Julie Robins

Look me in the eye
and tell me Davis-Besse is safe

Dear Mr. Dyer

I am a resident of ~~_____~~ who enjoys spending time in the western basin of Lake Erie. As I fish in this area I have always had concerns about the nuclear reactors along the shoreline. I have often thought that with such a valuable asset that Lake Erie is, why would anyone locate a nuclear reactor on it.

I am an employee of the Navy Nuclear industry and I can personally vouch for the numerous quality checks that our product must achieve to meet a nuclear standard. Based upon what I have read about Davis-Besse, this operation is a total sham and an embarrassment to the nuclear industry. The operation of Davis-Besse must be completely overhauled and set to an operating standard like the Navy Nuclear operators to. The cost and pain and suffering associated with a nuclear meltdown is a more important consideration than FirstEnergy's profit objectives.

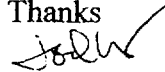

Sincerely
Shirley J. Wagoner
July 2/2003

To: James E. Dyer:

I am a citizen of ████████, Ohio and I am concerned about the Davis-Besse nuclear power plant. I feel strongly that it should be shut down, for fear of an accident that could ruin the greater Lake Erie area. Please close the nuclear reactor.

I should remind you that the top priority of the NRC must be public safety.

Thanks

JAMES E. DYER, REGIONAL ADMIN
U S NRC
801 WARRENVILLE ROAD
LISLE, IL 60532-4351

DEAR MR. DYER,

PLEASE DON'T ALLOW DAVIS-BESSE BACK ONLINE
UNTIL IT IS SAFE. THE POTENTIAL HARM TO OUR ENVIRONMENT
AND FAMILIES IS TOO GREAT TO DO OTHERWISE.

SINCERELY,

Richard Wehrhag

**Look me in the eye
and tell me Davis-Besse is safe**

James E DRYER,

DAVIS BESSIE IS A DANGER TO OUR
COMMUNITY. PLEASE DO NOT LET IT REOPEN.

— KATHERINE ROSE SNOW

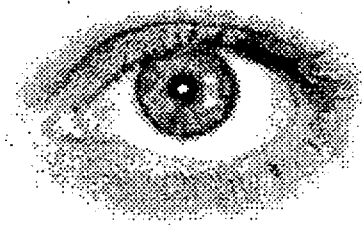

**Look me in the eye
and tell me Davis-Besse is safe**

James Dyer:

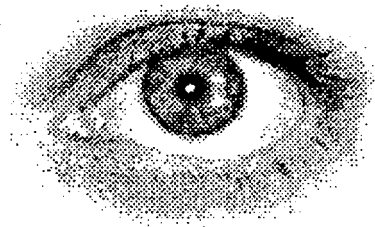

It is obvious that the Davis-Besse Nuclear power plant is a danger. Please consider closing it for good before it pollutes our water for ever. For the public safety close it for ever!

Richard Fra

**Look me in the eye
and tell me Davis-Besse is safe**

To whom it may concern,
My family and I live in [REDACTED]
[REDACTED] and it is obvious that this
poorly built and operated power plant has
the potential to bring catastrophe to this
mostly peaceful area. I am fine with
Nuclear energy but it is too powerful
of a force to be taken lightly. I
trust energy companies to maintain its property
and ensure the safety of its concerns. Thus
the only choice is to close this plant.

**Look me in the eye
and tell me Davis-Besse is safe**

Dear Mr. James Dyer

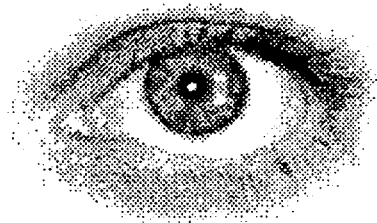

Venice Canvassed our neighborhood today the 3rd of July, year 2003.

I'm a very strong, unfortunately quiet advocate of our enviro environment, which I believe strongly is a gift given and bestowed upon us. As a gift it should be respected, honored, and treated accordingly.

As guests on this earth it is our duty to protect and do everything in our power to ensure our gifts are not wasted.

Please help us to help future generations enjoy what is rightful theirs.

Yours Truly,
Barb Peter Morris

Look me in the eye
and tell me Davis-Besse is safe

July 3, 2003

To James Dyer of NRC,

My family lives in [REDACTED]
[REDACTED], Ohio and hopes you will
close the Davis-Besse nuclear reactor.
The dangers of an accident are
possible, as seen in 1985 and 2002,
and would affect the health of
our families as well as the
negative effects to our environment.
Please consider our opinion.
The Frierson family

~~Rep~~

Public safety is very important to me and my family. If Davis-Besse nuclear reactor is still not safe, it should stay closed until it can be proven without a doubt that it can operate safely.

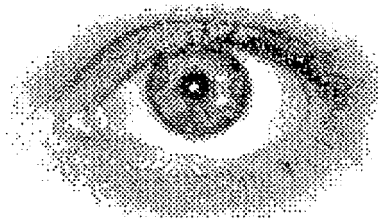

Look me in the eye
and tell me Davis-Besse is safe

To whom this may concern,

I have been informed that this plant is unsafe to run. Why is it that when something is found as an unsafe place to reoper or buy on whatever the case is, you want to keep it going? The people of the United States came together after the 9/11 incident. Reopening this plant is the same as ~~and~~ a terrorist Act. It will serve one purpose. To Kill not only the people of this state & the land it surrounds But the world over time. One way or another it will take lives. How many accidents have to occur before eyes start to open! We as the United States say we are safe. Lets keep it that way.

United we stand!

Thank You,

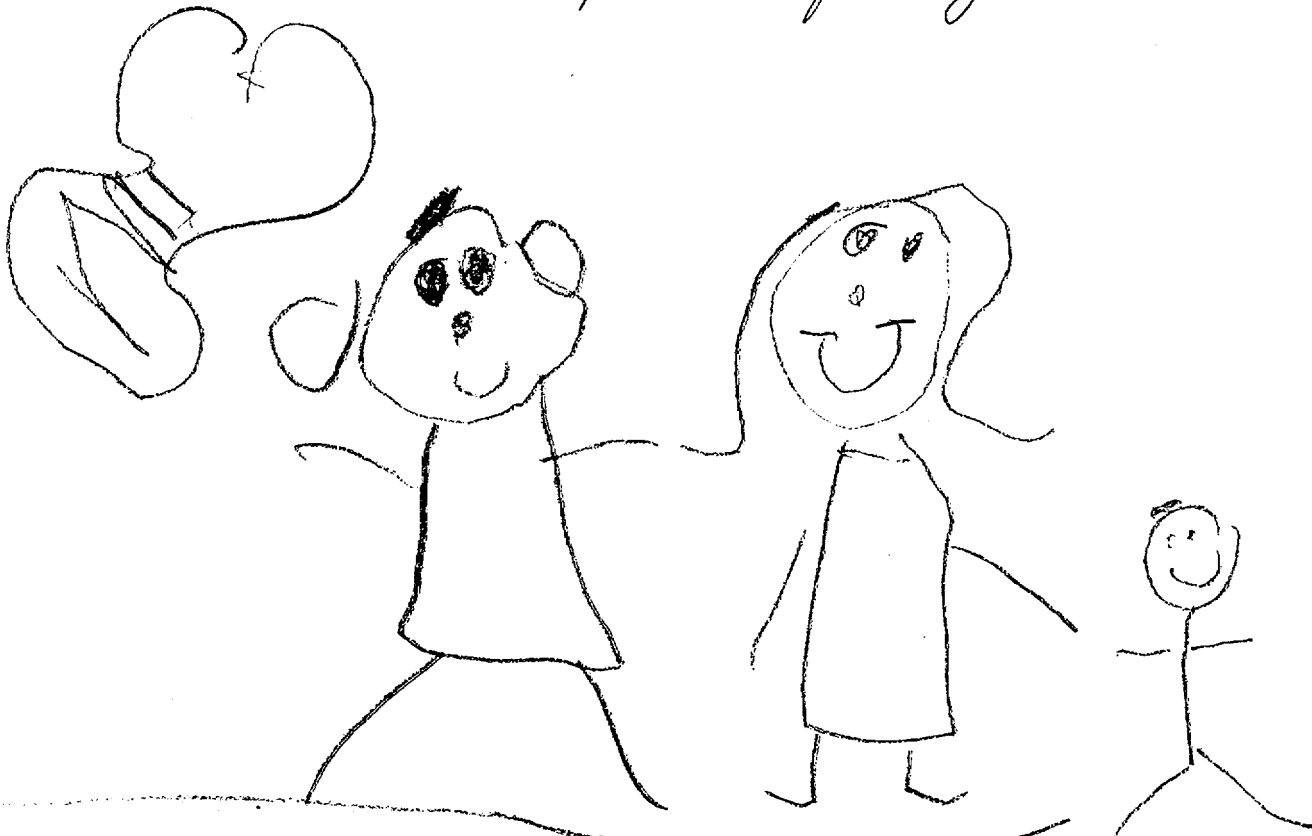

**Look me in the eye
and tell me Davis-Besse is safe**

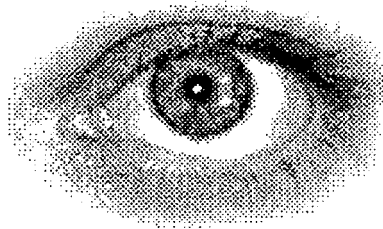

June 30, 2003

Mr. James E. Dyer,

*Please work to keep our family
safe.*

The Dyer Family

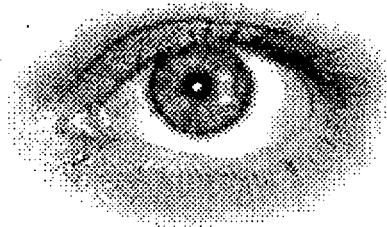

**Look me in the eye
and tell me Davis-Besse is safe**

DEAR MR. DYER,

PLEASE close the Plant. The effects of a meltdown
effect us all. Especially our children. Who is more
important than them. Is it really worth the
risk? money can buy a lot, But it can't
help buy our health, and safety. so PLEASE
close the Plant

Adrian K

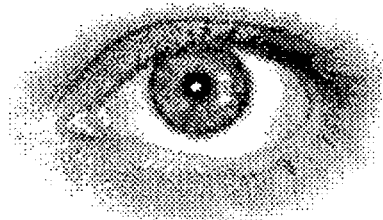

**Look me in the eye
and tell me Davis-Besse is safe**

I would like to see Davis-Besse
stay shut down, due to the effects
it has on Lake Erie. How many 1,000's
of people rely on it for their drinking
water? Also it is and will effect
the fishing.

Yours. Truly.

Bennie Archer.

James E. Dyer, Regional Administrator
U.S. Nuclear Regulatory Commission
801 Warrenville Rd
Lisle, IL 60532-4351

Dear Mr. Dyer,

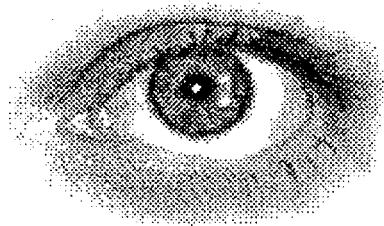

I am writing in regard to the Davis-Bessey nuclear power plant. I can't believe the disregard for human life in allowing the power plant to run when it had that significant crack in the bottom. Cancer is a terrible disease and anyone who had a loved one who died from it can tell you how horrible it is to watch that loved one die. How can people look the other way and pretend like it doesn't harm the residents around it. I have an [REDACTED] granddaughter in the [REDACTED] North Carolina area. She is [REDACTED] years old and has [REDACTED] cancer. In her short [REDACTED] years she has had [REDACTED] surgery and the specialists say she won't be here five years from now and she will probably not make it that long. After the first discovery at [REDACTED] months old, they said she had the [REDACTED]. Her mom and dad lived by a nuclear power plant when she got pregnant. My nephew lives by the Perry nuclear power plant. I worry about what it can do to his health. I watched my Dad die from cancer when I was a little girl. He weighed 220 lbs when he got sick and 118 when he died. He wanted to live so bad and he had everything to live for. The cancer consumed his body until it suffocated him by pushing on his lungs. Check the numbers of children with cancer in nuclear power plant areas. Are you finding that the percentages are higher? First Energy is a big company so why didn't they keep better tabs on the power plant's condition. Lots of people are looking for jobs so surely they can afford a few inspectors.

I realize the guys sitting behind the desks in the big offices don't hit the road too often

and check the concrete but they need to hire people to monitor the safety.

Thanks for your attention,

A CONCERNED CITIZEN

Look me in the eye
and tell me Davis-Besse is safe

Dear Mr. Caudwell,

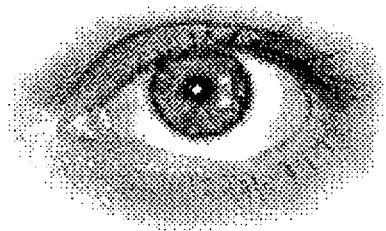

I live just south of Lake Erie.
But grew up with it throughout my
entire childhood. Whether it be
fishing w/ Grandpa or having
picnics off the shore.

I truly believe that you know what
~~is~~ is the right thing to do - for
the earth, not for money's sake.

God gave us a gift - why would you
destroy it? Please, keep the nuclear
reactor closed. Your attention in this matter
is greatly appreciated. I hope to hear from
you soon.

The Garingers

**Look me in the eye
and tell me Davis-Besse is safe**

Dear Jim Caldwell,

My name is Amanda Pierce and

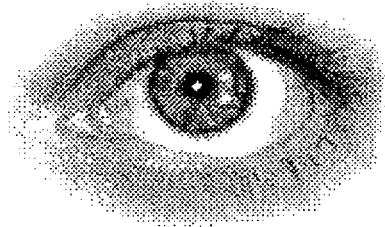

I live in [REDACTED], OH. My family

& I are concerned for our safety & health
by running the nuclear power plant, Davis-Besse.
Two near disasters within 20 years is not
acceptable. Our children deserve to grow up healthy
without worry they may be poisoned. As the
Regional Administrator of the NRC, it is your
responsibility keep us & our children especially, safe.
FirstEnergy's schedule should not be more
important. Please for our safety, keep
Davis-Besse nuclear reactor closed.

Sincerely,

Amanda Pierce

[REDACTED]

Look me in the eye
and tell me Davis-Besse is safe

DEAR SIRs,

IT IS APPARENT THAT
THE NUCLEAR REG. COMMISSION
SHOULD DO MORE TOWARDS
CHECKING & METERING. THE MAINTENANCE
COMPANY. FIRST ENERGY APPARENTLY
HAS FOUND A WAY TO CUT
COSTS. NOT NECESSARILY THE
ONES THAT MAKE CITIZENS
FEEL SAFE!

—THANKS
A Concerned Citizen

att: Jim Caldwell.

I am a 40 year old female
with severe Rheumatoid Arthritis.
Raising two children alone in [REDACTED]
[REDACTED], Ohio. I have seen the devastation
in my life of what an incurable
disease has done to me & my family.

I fear what unknown illness that may
plague my daughters, and will do any-
thing to keep them healthy.

Keeping polutions such as Davis - Besse
Nuclear reactor is a maral concern of mine.
Public Safety will ensure childrens safety.
There is no future without them.

Please help us stay safe.
Sincerely, [REDACTED]

Look me in the eye
and tell me Davis-Besse is safe

Mr. Caldwell:

We live in NE Ohio &
we're concerned with the dangers
& non-safety practices at the
Davis-Besse nuclear power
plant. Please keep this plant
closed for the safety of all
citizens and also so that
we can continue to enjoy
Lake Erie.

Joan Coar

H. my Name is James Knapp. I Live on [REDACTED]
in [REDACTED] OHIO. I was Conscripted For my Family's
SAFETY and Health when I Heard about the problems At Davis-Besse.
I Have a wife and two girls, a 26 month and a 11 month old.
These Three are my pride and Joys. Nothing is more important for me
I Have Served this Country in the United States Marine Corps For 8 years
To Help my Family Live a Safe And Free Life. I think that you
Should Do what ever is possible in your Power to Keep this Facility
Closed. until Proletely Safe.

I would Like to Have some Replies to this to show me
That someone is doing something to Help Keep my Family Safe at
Home as well as close to the plant.

James M Knapp

**Look me in the eye
and tell me Davis-Besse is safe**

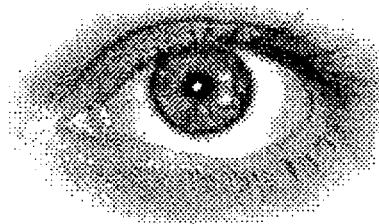

Dear Mr. Jim Caldwell,

I live in Ohio, Cuyahoga Falls.

I am concerned for the safety of my family. I believe that your first concern should be our safety. I feel that there is proof that you are aware of that the Davis-Besse nuclear reactor is dangerous for the people who live near the area. I think it is your responsibility to keep it closed. Please respond.

Thank you,

**Look me in the eye
and tell me Davis-Besse is safe**

Jim,

We live in [REDACTED] Ohio.
I have several health problems
from exposure to Dioxin as a child
living near a factory that produced
Agent Orange for our Government.
We do not need to be exposed to
radiation from a power plant.
Please keep Davis-Besse closed!
There are other avenues for
power. We need to be safe
from unnecessary radiation.

Thank you for your ear,
Please respond ASAP

Phil Hohl

Robert Hedrick

Jim Caldwell, Regional Administrator
U.S. Nuclear Regulatory Commission
801 Warrenville Road
Lisle, IL. 60532-4351

7-17-03

Dear Mr. Caldwell,

In regards to the Davis-Besse nuclear plant located in Cleveland Ohio, on Lake Erie. I would like to convey my concerns on any consideration to re-open this facility. To re-open Davis-Besse would be taking too great a risk for the millions of people a melt down would effect. Risks such as health, loss of employment, loss of property and farmland necessary for local and national markets, along with the irreversible contamination to the Great Lakes system, which I'm sure you are aware, is the largest fresh water system in the world and supplies many communities with drinking water. To re-open Davis-Besse and to take a chance on a disaster such as the one that took place at Chernobyl in Russia would be taking far greater a risk than the re-opening could ever benefit.

Thank you for your time and consideration on this matter,
Frank and Brenda Wilhite

To Jim Caldwell, Regional Administrator
U.S. Nuclear Regulatory Commission

Lisle, IL 60532-4351

Look me in the eye

and tell me Davis-Besse is safe

Dear Jim

Winds blow a lot of different directions and Davis-Besse if it does have problems, could blow radioactive material into the atmosphere. I pray it never happens. If you make it safe according to the specs it will work. If we cut corners because of economic necessity we have the Columbia disaster on the ground and share this disaster with millions instead of only seven. Make it safe or keep it closed!

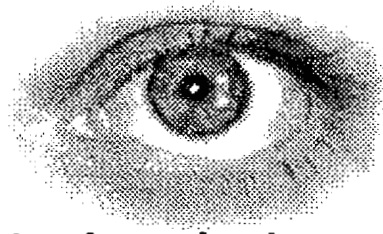

Thank You

Carl A. Dannemiller

P.S.

With as old as the plant is and the nature of its systems I don't see how it can be guaranteed to work.

**Look me in the eye
and tell me Davis-Besse is safe**

Dear Jim Cadwell,

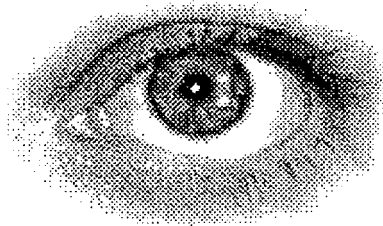

It has come to my attention that you have the authority to keep Davis-Besse closed.

My family and I live in [REDACTED] We chose this area because it was safer than some other communities.

I ask that you keep the Davis-Besse nuclear Reactor closed, because it is not and has not been safe. NRC's top priority is public safety. Our safety comes #1. Please remember that First Energy's schedule is further down on the priority list.

Sharon Starcher

**Look me in the eye
and tell me Davis-Besse is safe**

July 17, 2003

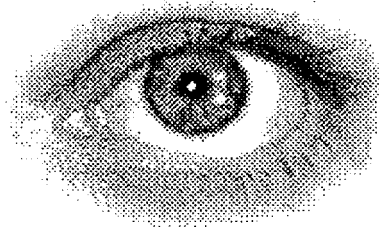

Mr. Caldwell,

Please put our health first.
I live in Northeast, OH, and I would
like Davis-Besse to stay off line.

Sincerely,

Richard C Timberlake

**Look me in the eye
and tell me Davis-Besse is safe**

Dear Jim,

I am a concerned citizen of the US living in Ohio who occasionally fishes Lake Erie & is interested in the safety of the drinking water & consuming fish caught on Lake Erie. I am also a registered nurse & have watched cancer patients die, I would hate to think that the nuclear Regulatory Commission is more interested in the money that Davis Besse could make than the human lives that would be lost if a disaster would occur at the Davis Besse nuclear power plant if it was reopened. My name is Lynn M Rupert & I live at

[REDACTED] Ohio [REDACTED] I feel at this time the plant should remain closed - I am requesting a response to the concern of human lives.

Thank You for your valuable time in reading this letter
Lynn M Rupert

**Look me in the eye
and tell me Davis-Besse is safe**

Dear Mr. Jim Caldwell,

Hello, my name is Samantha. I am one of 4 children in my family. I live near the plant that is currently closed. I am writing this letter to you to make sure that my family's safety is kept and that this dangerous facility is closed for good! And if I'm not mistaken, the NRC's top priority is and must be public safety! It is not important to people and families in this area that FirstEnergy's schedule is effective. By your power, this nuclear reactor could save people and can stop even bigger problems before they occur! Please help out, and that people all across our town are ^{remember} counting on you! Please respond ASAP! Samantha Lautzenheiser

[REDACTED]

Thank you for your support,
14 year old - Samantha Lautzenheiser

*Do what you have to do
to make it Right*

Chuck N. Brown

Look me in the eye
and tell me Davis-Besse is safe

July 14, 03

Mr. Dyer,

Very simply put: People are what matters.

I live in Stark Co. and as a "citizen of the world" I am concerned with the safety of people who put their faith in those who have the power to do the Right thing, The SAFE thing ~ putting value where it counts: People & the Natural State of the Earth they live in.

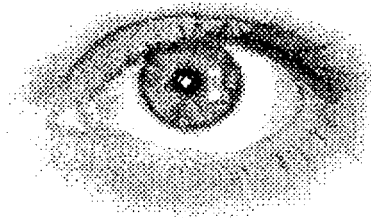

No rhetoric or political stance comes anywhere near to the truth that we must use our intelligence and honor to strive for what is good, right and safe for us and our children.

Please keep the Davis-Besse nuclear reactor closed. One mistake and it won't matter who or what (First Energy's schedule) is challenging an unsafe operation. No one will be around.

Thank you.

S.K. Ziesenheim

Bristle, IL 60532-4351

**Look me in the eye
and tell me Davis-Besse is safe**

Jim Caldwell,

I am a resident of Massillon, Ohio and concerned with re-opening Davis-Besse nuclear reactor. Because of the previous acid leak in March 2002, I am a concerned citizen with the safety of Davis-Besse. The Nuclear Regulatory Commission's top priority must be public safety! Having the authority to open Davis-Besse is yours. Please make this decision ~~wisely~~ wisely and consider the consequences of another leak. May the health of the people of Ohio, the economy of Ohio and the environment of Ohio be your guide.

Please respond immediately.

Mrs. Linda Leighton

**Look me in the eye
and tell me Davis-Besse is safe**

Jim,

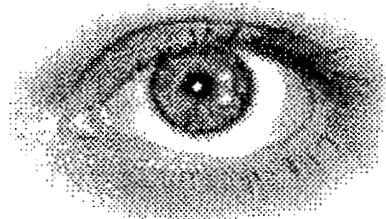

MY Family lives here in [REDACTED] Township AND I'm concerned
ABOUT MY FAMILY SAFETY PERTAINING TO THE DAVIS-BESSE
PLANT. The NRC'S TOP PRIORITY MUST BE PUBLIC
SAFETY.

I'M ASKING YOU TO KEEP THE DAVIS-BESSE PLANT CLOSED.

THANKS,

Keith Koesel

**Look me in the eye
and tell me Davis-Besse is safe**

Jim Caldwell, Regional Administrator
US Nuclear Regulatory Commission
801 Warrenville Road
Lisle, IL 60532-4351

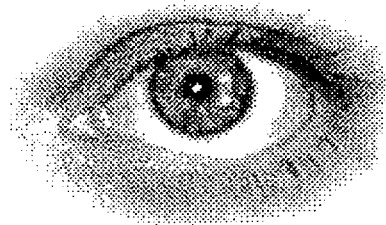

Dear Mr. Caldwell:

I live within 100 miles of the
Davis-Besse plant. I have always felt
nuclear power plants are unsafe.

Davis-Besse has again proved my point.
If you can't close this plant forever,
then please make it safer than your
safest dreams.

Sincerely,

Harb Kricker

Look me in the eye
and tell me Davis-Besse is safe

Dear Mr Caldwell

I am writing you as a concerned citizen. I live the [REDACTED] Ohio area.

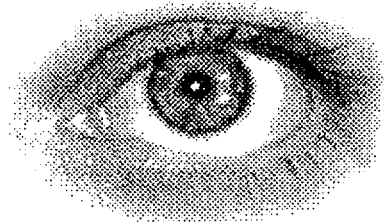

We are all worried about our safety from radiation, that has caused cancer, leukemia and other related illnesses.

I think top priority is public safety.

We would like Davis Besse nuclear reactor closed. I would like an immediate response

Thank you

Jeannette Olesowski
[REDACTED]

Look me in the eye
and tell me Davis-Besse is safe

July 11, 2003

Dear Mr Caldwell,

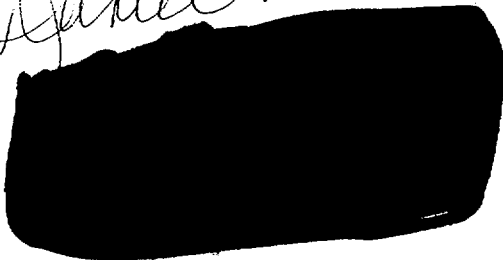

Please keep our community safe & keep
Davis-Besse closed.

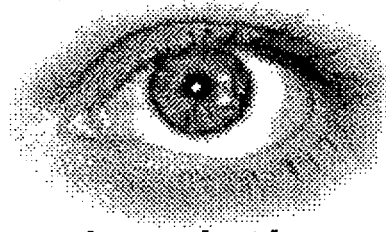

I believe we would lose a lot more
than just a safe environment. We would
lose our fishing & agricultural industries as
well as tourism in the Lake Erie area.

Thank you for taking the time
to read this letter. And keep Davis-Besse closed

Best regards,

James A. Schuler

Look me in the eye
and tell me Davis-Besse is safe

Mr. Calwell,

I am writing you on behalf of my family who live in [REDACTED], Ohio. As the mother of three children, I want to know that when we visit Lake Erie we are safe and do not need to worry about possible contamination from the Davis-Besse nuclear power plant.

I am asking you, the Regional Administrator of the U.S. NRC, to use your authority and keep the Davis-Besse nuclear power plant closed. Because the NRC's top priority has to be public safety, I see it as your responsibility to keep the plant closed.

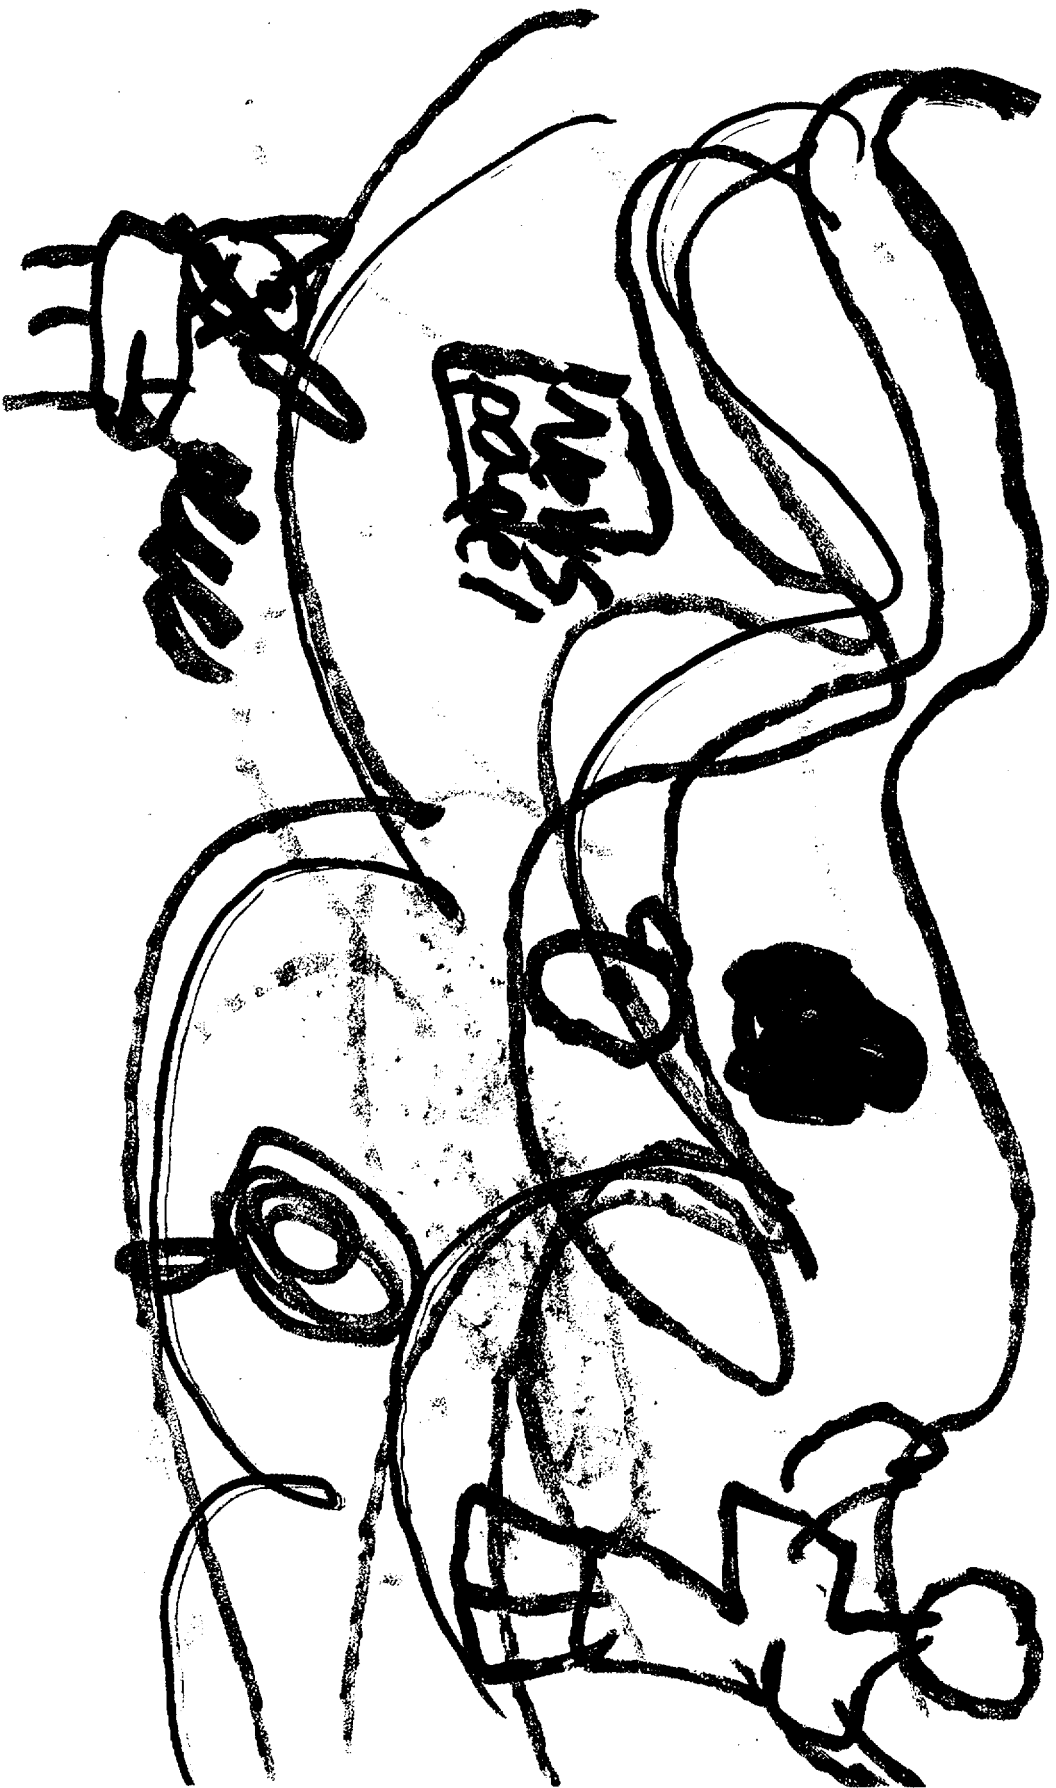

I appreciate your consideration of this matter and would like to hear from you in regards to it.

Miriam E Yates-Nonno
[REDACTED]

Sincerely,

Miriam E Yates-Nonno
