Subject: GUIDANCE ON DEALING WITH MANUAL ACTIONS IN III.G.2 FIRE AREAS

Jim, are you all close to formalizing any sort of guidance on how to deal with the manual actions in III.G. 2 fire areas issue? I'd like to move forward with the Harris report but I need some guidance on how to disposition this issue. Also, we have another site with the same issue (only worse) and I will need to process that issue by next week. Please let me know. Thanks.
