FirstName: Sarah

LastName: Fields

Company/Affiliation: Uranium Education Project

Address1: [REDACTED]

Address2:

City: [REDACTED]

State: [REDACTED]

Zip: [REDACTED]

Country: [REDACTED]

Country-Other:

Email: [REDACTED]

Phone: [REDACTED]

Desc: 1. All NRC records, including, but not limited to, phone notes and records, memos, meeting notes and summaries, reports, legal and regulatory bases, internal and external communications, technical information, pertaining to the following: Documents relating to the submittals by International Uranium (USA) Corporation (White Mesa Mill, Docket No. 40-8681) dated December 15 and 18, 2000 (Supplemental Information Regarding April 12, 2000, Amendment Request to Process an Alternate Feed Material from W.R. Grace at the White Mesa Uranium Mill). The Dec. 18 letter references "NRC's request that IUSA provide specific practices that would be applied to management of the material . . . this procedure is intended to be applied to acceptance of any alternate feed material(s) which IUSA determines to potentially contain levels of thorium that require special procedures."

Request is for the records that deal with the NRC request for the "special procedures" for high thorium content material and the NRC review and approval of IUC's special procedures for High Thorium Content Material. This would involved both license amendments 17 and 18 to License No. SUA-1358.

I am not requesting licensing records that have previously been made publicly available on ADAMS related to this licensing action.

FeeCategory: Educational

FeeCategory_Description:

Expedite_ImminentThreatText:

Expedite_UrgencyToInformText:

Waiver_Purpose: Requestor will review records to determine the basis for the request for and review of Standard Operating Procedures for High Thorium Content Material.

Waiver_ExtentToExtractAnalyze: Requestor will thoroughly review requested records for relevant information about NRC regulatory activities.

Waiver_SpecificActivityQuals: Records are probably not technically complex, so requestor should have no problem reviewing and understanding the records. The records will be reviewed to shed light on NRC licensing actions.

Waiver_ImpactPublicUnderstanding: The records will permit the requestor and the public to gain a better understanding of the reasons for certain licensing requirements.

Waiver_NatureOfPublic: The community of southeastern [REDACTED] who are impacted by the licensing action and the general public will have their understanding increased.

Waiver_MeansOfDissemination: Requestor, like most people in this world of electronic and printed communication, has several means of disseminating any relevant information contained in the requested records. ADAMS will make the requested records available to everyone.

Waiver_FreeToPublicOrFee: Requestor will not charge any fee for information gleaned from the requested records.

Waiver_PrivateCommercialInterest: To the best of my knowledge, requestor has no commercial or private interest that would be furthered by the release of the requested records.
