MEMORANDUM FOR: Andrea L. Koch, Allegation Coordinator, EICS

FROM: Bruce L. Jorgensen, Chief, Decommissioning Branch /RA/

SUBJECT: REVIEW OF LETTER FROM CONCERNED INDIVIDUAL (CI)
ALLEGATION NO. RIII-02-A-0005 (AITS M02-4198 and M02-4183)

This is in response to your memorandum on this subject dated May 23, 2002, which requested a review of documents received from the CI on May 9. DNMS assigned our tracking number, AITS M02-4198 to the requested review. The identical material was provided to John Jacobson with your memo to him dated May 15, on which I was copied. That item was assigned our tracking number M02-4183.

The subject review has been completed, with the result that no new or modified concerns were identified.

The information from the CI consisted of additional supporting information regarding the previously-stated concern that dry spent fuel storage casks designed by Holtec, Inc. and fabricated by U. S. Tool & Die are of suspect quality. This allegation has been transferred to the Spent Fuel Project Office (SFPO). Therefore, the additional supporting information received from the CI on May 9 should be forwarded to SFPO.

The information did not raise any new bases for OI involvement. The information can be added or integrated into the existing AMS files.

cc: C. Pederson, DNMS
J. Grobe, DRS

DOCUMENT NAME: G:\Sec\AITS M02-4198 and M02-4179.wpd
