To Whom It May Concern:

On behalf of Wiregrass Habitat for Humanity Board and Staff, it is with immeasurable appreciation that we submit a letter of support for the relicensing of Farley Nuclear Plant.

Wiregrass Habitat for Humanity is an ecumenical, nonprofit Christian housing ministry committed to providing decent, affordable houses in partnership with families in need. Since our creation in 1990, Farley Nuclear Plant has been our largest corporate supporter. The employees of Farley Nuclear Plant have built two homes, sponsored four Charity Golf Tournaments and devoted hundreds of hours volunteering their time. Their most recent act of heroism was helping raise the walls on a house for a family who lost their home as a result of the tornado that struck Abbeville, Alabama in November of 2002.

With Farley Nuclear Plant working to be a good neighbor and helping to ensure that the community in which we live continues to be a better place, their contribution to substandard housing needs makes a huge impact on the future of others in the community in which Plant Farley serves.

The ultimate goal of Wiregrass Habitat for Humanity is to eliminate poverty housing one home at a time. With 54 completed homes and 4 under construction, we are making huge strides in our community. We have an enormous amount of appreciation and respect for the commitment Farley Nuclear Plant has for the community in which we live.

Sincerely,

Amanda Smitherman
Resource Development Coordinator
Wiregrass Habitat for Humanity
