# DON'T brand the Southeast "PLUTONIUM ALLEY!" We don't want plutonium fuel!

RECEIVED  
MAR 27 11:17  
Rule and Directives  
100-100

Chairman Richard Meserve  
United States Nuclear Regulatory Commission  
Washington, D.C. 2055

Dear Chairman Meserve:

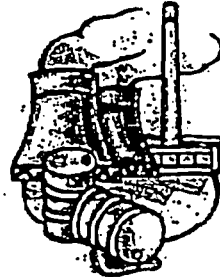

The proposed plutonium bomb fuel factory puts our nation, and especially this region at great risk. From the transport of plutonium across the country to the need to safely secure it upon arrival, we are also burdened with an unacceptable scheme that will increase contamination at the already extremely polluted Savannah River Nuclear Site. This proposal, also known as "MOX," is not safe, affordable, or sustainable. We again urge the Nuclear Regulatory Commission to deny the license request.

Sincerely,

Re: NUREG-1767

Dear Commissioners:

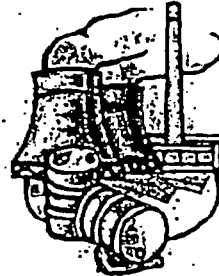

The proposed plutonium bomb fuel factory puts our nation, and especially this region, at great risk. From the transport of plutonium across the country to the need to safely secure it upon arrival, we are also burdened with an unacceptable scheme that will increase nuclear waste at the already extremely polluted Savannah River Site nuclear facility. This proposal, also known as "MOX," is not safe, affordable, or sustainable. We urge the Nuclear Regulatory Commission to deny the license request in order to protect our communities.

Sincerely,
