Dear Mr. DeLaBarre:

Enclosed is an application for a license (XSNM03331), recently received by the U.S. Nuclear Regulatory Commission, for the export of low-enriched uranium to Japan for use as reload fuel in the Takahama Units 1 and/or 2 and Mihama Units 2 and/or 3 nuclear power reactors. Assurances from Japan are required that the material will be subject to all of the terms and conditions of an agreement for cooperation. Your assistance in obtaining the necessary assurances will be appreciated. Please note that since the material was mined in Canada and the UK, we are also requesting your assistance regarding the application of Canadian and EURATOM obligations, for example, if any notices or reporting requirements may be required for this proposed export.

Sincerely,

/RA/
